*Modern smoking pleasure
that never fails*

THE smokers of this age are the most independent ever known. Accepting no hearsay, they have smoked out the facts. They have learned that the choicest Turkish and Domestic tobaccos grown are rolled into Camels, that here is the incomparable blending for goodness, that Camels simply never tire the taste.

Camel is the cigarette that never fails to please the modern age. Regardless of how often you want the comfort of a smoke, of how steadily you light one after another, Camel

will never fail you, never give you any but the finest thrill of smoking pleasure. This is why Camel's popularity, by far the largest in the modern world, keeps overwhelmingly in the lead. As modern taste becomes more insistent upon choice tobaccos, increasing millions discover Camel's incomparable mildness, smoothness and mellowness.

If you want the cigarette that's good to live with from morn to midnight, the one that is the choice of the modern age, "Have a Camel!"

NEW DORMS.

(Continued from Page 1)

for each section of the three four-room suites.

The lavatories will be in the shower room and not in the rooms as they are in the present dormitories. Each room will have a steel clothes locker in place of the wooden closets that we now have in most of our dormitories.

The buildings are to be about thirty-five feet wide and the length will depend on the number of sections built. There will be as many sections as there is money to build them. Each section has twelve rooms or three suites. There will probably be about one hundred rooms in each dormitory.

The dormitories will probably be located where Alpha and Beta halls now stand, and the old buildings moved to another location and still be used as dormitories. With nearly two hundred new rooms the crowded conditions should be relieved to a certain extent.

**"Y" TO DISTRIBUTE
HANDBOOKS NEXT YEAR**

During registration next September the "Y" will give to all students copies of their new "1927 Handbook." These pocket-size, leather-bound booklets will form a very handy source of useful information.

The Y. M. C. A. is spending quite a bit of money and time on this edition, which is to cost them approximately \$1,000.00. All this cost is to be covered by the returns from the advertising in the book, so neither the Y. M. C. A. nor the students will pay for it. The men who did the work of selling the advertising and compiling the book are the ones to be thanked.

Among the contents of the book are sections devoted to campus institutions, a calendar of the college year, tips to the freshmen, an annual financial report of the Y. M. C. A., the athletic record of the college, the athletic calendar of the year, a list of all Southwestern Conference records and their holders, information about the library, a discussion of student publications, information concerning the most important extra-curricula activity organizations on the campus, and, in short, information on practically all the institutions of the college:

This, the first edition of the sort in five years, is being edited by C. E. Smith, with the assistance of A. E. Carter, both of whom are members of this year's Student Cabinet. The student body as a whole should be very appreciative of this latest effort by the "Y" in its behalf.
