WEEKS' NEWS

Temporary seats are being erected at the T. C. U. stadium to accommodate the crowds expected when the Horned Frogs play the Texas Aggies on October 22 and the Mustangs on Thanksgiving Day. The entire student body of A. and M. will be present for the Aggie game, which will reserve 2500 seats for cadets alone, while the Thanksgiving game will be the first Homecoming game for all T. C. U. alumni. Seating capacity of the stadium is only 7500 and a much larger crowd is expected at both games mentioned. The construction is well under way and is expected to be completed about ten days before the Aggies and Frogs clash.

The plans for the memorial project of the Ex-Students Association of the University of Texas have been completed and are on display in Austin. It is a three-unit building project and the estimated cost will be about one million dollars. The Association now has \$100,000 of the amount needed and a new drive for funds will begin in a few weeks. Construction work on the building is expected to begin within the next year.

The first unit will consist of the auditorium and gymnasium and will be located on Jordan field. The auditorium on the main floor of this building will have a seating capacity of 8500 and will be surrounded by a runway. The balcony will contain rooms for athletic classes and trophies, and the showers and lockers will be in the basement. A 150x75 feet swimming pool will adjoin the men's gymnasium and will be glass covered and heated in winter.

The second unit will be the student's building, which will be divided into two sections. One of these will contain offices for student organizations, committee rooms, etc., and the other a smaller auditorium of 1200 seating capacity. The third unit of the project will consist of a woman's gymnasium, a smaller swimming pool, and rooms and offices for women's activities at the University.
