

An empire hung on that strap

THE hitch must be right, the pack must be tight. On details such as that hung the attainment of the day's goal and the final success of the expedition.

Lewis and Clark, first Americans to cross the continent, knew the importance of "trifles" in the concerted plan. They saw to it their equipment was right, they supervised every step from man-power to pack-horse-

power, they applied sure knowledge and constant vigilance to their task.

Today's leaders in business have the same point of view.

Men in the Bell System, exploring new country, take infinite pains in preparation. They work toward the smooth coordination of engineering, manufacturing, warehousing, accounting, finance, public service.

BELL SYSTEM

A nation-wide system of 18,500,000 inter-connecting telephones

"OUR PIONEERING WORK HAS JUST BEGUN"

SPECIAL TRAINS TO BRING FROGS

(Continued from Page 1)

ple and White Rooters. The club will need the support of each and every student to make the T. C. U. trip a pleasant one. Here is what the visitors will have to entertain them upon their arrival at one-fifteen p. m. Saturday. Mr. Duncan has consented to give this excited raft of fans some of Sbis's hash. He has sworn that he will try to keep all stomach trouble in his own school that day. They will be fed upon their arrival at College. After the game is over they will be given food that will be very embracing to their feeble bodies. If the first meal does not kill them, they won't be able

to support their team on the field which will more than need their aid. Ah! A point in our favor. The first special train will leave at a time some place between seven and eight bells. Puryear Hall will be vacated by the ever willing Signal Corps so the pretty maidens will have a place to rest their weary and excited souls. A free picture show will be given for the T. C. U. students that night. The picture is very suitable for the occasion, "Ladies of the Mob" featuring Clara Bow. The feature of the entertainments will be the dance which will start at nine o'clock. Here we country lads will see and have our first down fall of the year. Some may class it as a dance of Seven Veils. This will also be given on the charity basis for the T. C. U. students. To all

others the small fee of one hundred cents will be charged. Old Army, this will be a time when angels shall discard their heavenly vows and show we farmer boys how social function should be carried on.

Sadness will be over all Aggie land when the second special departs between the hours of twelve and one Sunday morning.

It will be a day among days in their lives and ours. Believe it or not.

There will be quite a few boys who will want to stay over Sunday with us. Now, fellows, this is where we will get to show them how good a sport we really are. Invite them to spend the night with you. We are not too good to sleep on the floor for our most cordial invaders and friends, are we? Make them

feel at home and I'll assure you you'll never regret it. Treat them as they have never been treated before and when we go to Olde Cow Town next Fall you will see the same sort of sportsmanship existing in their Institution.

A rival for Maggie has been found in New Hampshire. Helen Bernaby, a college student, recently established a record by throwing a rolling pin 90 feet 8 inches.
