company out of New York City, and although this play has been shown there for prices ranging as high as \$3.50, arrangements have been

made whereby a big reduction of prices will be allowed in order to enable as big a number of students and campus people to attend as possible.

More details about this opera will be received in the near future and they will be given out to the public as soon as they are available.

RUSSELL HOLDING

ed to stay on any one subject and grow stale, as is the case in many of the bull pens. The advantage of the bull pen has often been discussed and has received much approval, so the Seniors should appreciate this opportunity of finding how others think, especially a group that has

been exposed to as much education as this group has.

YEAR'S PROGRAM OF SEMINAR ANNOUNCED

(Continued from Page 1)

May 13—R. L. Hunt, Department of Marketing and Finance—"Agricultural Cooperation."

May 20—Final Banquet with Science Seminar, Speaker and Subject to be Selected.

The next meeting will be held at 7:30 on the evening of November 12th, in the Physics Lecture room, with Dr. L. L. Click of the University of Texas as the speaker. Dr. Click will discuss George Meredith, of whom he has made an exhaustive study. Dr. Click is considered an au-

thority on his subject, and will doubtless give a highly interesting and worthwhile address. All students interested in the subject are cordially invited to attend.

Centenary showed a better team on Kyle Field than the Aggies had but, at that, they only nosed out a 6-0 win and a successful play on the goal line would have given the Aggies a win or a tie.

...but a mosquito blocked the way

THE Panama Canal diggers had engineering brains and money aplenty. But they were blocked by the malaria and yellow-fever bearing mosquitoes, which killed men by thousands.

Then Gorgas stamped out the mosquito. The fever was conquered. The Canal was completed.

The importance of little things is recognized in the telephone industry too.

Effective service to the public is possible only when every step from purchase of raw material to the operator's "Number, please" has been cared for.

This is work for men who can sense the relations between seemingly unrelated factors, men with the vision to see a possible mountain-barrier in a molehill—and with the resourcefulness to surmount it.
