

RODEO-PAGEANT PROVES SUCCESS

The Rodeo-Pageant given last Friday night, one of the greatest events of the year, seems to have come up to the highest expectations. The Saddle and Sirloin Club is to be congratulated on the way in which they put on the show, and much credit is due to the juniors who worked so hard in making the preparations for the gala event. It is very evident that this year's rodeo was quite as good if not better than any such event given in the history of the school.

The officers of the rodeo were as follows: R. W. Howe, ringmaster; George Love, business manager; "Doc" Farmer, social secretary;

"Ma" Ferguson, publicity agent; "Spud" Tatum, decorator; John Singleton, announcer. These men have earned quite a bit of distinction for themselves in the way they handled the event.

The first event was the pageant. The king of the court was Mr. Clay McClane Floyd, the queen, Miss Lilla Graham Bryan. The maids of honor to her majesty, the queen were: Miss Alta Williams, escorted by Mr. F. A. Ketterson; Miss Sarah Moore, escorted by Mr. John F. Turner; Miss Wava Martin, escorted by Mr. G. T. Scott; and Miss Lola Williams, escorted by Mr. R. R. Farmer.

The Dutchess of A. and M. at the Waco Cotton Palace, Miss Helen Nelson, and her court were introduced during the pageant. Miss Virginia Burns was maid of honor to the Dutchess. The military escorts of

the court were Messrs. W. P. Patton, J. W. Kelly, M. E. Horn, O. W. Sommers, B. C. Varner, G. F. Calahan, R. S. Boykia, and W. F. Taylor.

The second event on the program was the three-gaited saddle class won by Mrs. John E. Sloan riding "Petite." Second prize went to Mr. A. K. Mackey, riding "Hell-in-Texas." Miss Elizabeth Nelson, riding "Lady Bug" received third prize. The third event, the ladies jumping exercises, was won by Mrs. Lyman Reed on "Buck." This concluded the exclusive events, and the remaining were participated in by the real cowboys of our student body. The cavalry's wrestling team composed of C. Lentz, H. E. Smith, Dunderstandt, J. Winslowe, A. W. Young, and R. Perry won over the artillery team. It was in this event that the boys

found out just how hard that sawdust could be. Mr. Frank Dominy won the steer riding contest. The mule riding contest was won by Mr. C. W. Hampe. Event No. 7, bronc riding, was a tie between Fish P. W. King riding "Hell-to-set," and Fish L. J. King on "Too Bad." The wild cow milking event afforded the audience some real laughs. The team composed of S. C. Breazeale and W. S. Combest won. Event No. 9, the grand finale, was the riding of a Texas Longhorn steer by Rowland Howe.

The money taken in at the rodeo will help send the livestock judging team of A. and M. to the international meet at Chicago. Our teams have won this meet twice in the past and one more win will bring the big bronze bull, a much coveted trophy, permanently to A. and M.

has written numerous other publications along agricultural lines. He is well known as one of the leading authorities upon Pecans in the country and has a book dealing with this subject.—Texas Aggie.

Mould the man first, then the metal

CARNEGIE developed the steel industry by first developing his men.

The Bell System is growing faster than ever before in its history and this growth, like the steel growth, is based on the development of men.

Today, in the telephone industry, men in supervisory positions must coordinate many and varied factors. For example, before locating a new central

office, population trends are studied. While it is being built, telephone apparatus is planned, made, delivered and installed on orderly schedule.

But more basic than all this, the executive shows leadership by his insight into the human equation and by the sympathy and understanding with which he adapts individual to job, moulding his men first.
