

the ability of the Aggies for obtaining hits and running the bases and rather thought we had a better club than the crack Baylor nine. Next week the Aggies will get their real test when they meet the Dischmen this week-end at Austin. If the Aggies can only split the bill they will be satisfied and will have an excellent chance for the rag.

INTRAMURALS
(Continued From Page 8)

- R. C. Graces, Co. E, Infantry.
125 lb. class
- E. B. Jones, Co. B, Infantry.
135 lb. class
- E. Thompson, Co. C, Infantry.
145 lb. class
- D. W. Caswell, Bat. B, Artillery.
175 lb. class
- H. Ashley, Co. A, Infantry.
Heavyweight
- W. D. Armstrong, Co. B, Eng.
Boxing
- 125 lb. class
- J. C. Criner, Bat. B, Artillery.
135 lb. class
- B. T. Suddath, Bat. B, Artillery.
145 lb. class
- O. D. Price, Co. B, Infantry.
165 lb. class
- H. E. Burgess, Co. A, Infantry.
Heavyweight
- R. N. Talbott, Co. B, Infantry.

Note: In the heavyweight finals of the boxing, Talbott won from J. G. Floyd by forfeit, when Floyd was prevented from boxing by his work on the track team.

FARMERS OUTSWIM TEXAS
(Continued From Page 8)

as compared with the 71 1-2 points of his nearest opponent.

The Longhorns captured first places in the 100 foot free style and in the breast stroke. Incidentally, these were the second and third first places to be lost by the Aggie swimmers in the three years that the team has been organized. Only one race has resulted in a tie for first place.

Summary of events:

400 foot relay: A. and M. (Everts, Sproule, Humason, Cox) Time, 1:11.6.
100 foot free style: Fields (Texas) first; Cox (A. and M.) second; Starr (A. and M.), third. Time 17.5.

100 yard back stroke: Humason (A. and M.), first; Harkrider, (Texas), second; Thornton (Texas,) third. Time 1:12.8.

Fancy diving: Starr (A. and M.), first; Beaty (Texas), second; Maxwell (Texas), third. Highest number of points scored, 98 2-3.

100 yard breast stroke: Fields, (Texas), first; Humason (A. and M.) second; Loeb (Texas), third. Time, 1:23. Starr of the Aggies placed third, but was disqualified for using a scissor kick.

200 yard free style: Everts (A. & M.), first; Sproule (A. and M.), second; Penn, (Texas), third. Time 2:9.

300 yard medley: A. and M. (Humason, back stroke; Starr, breast; Cox, free style).

100 yard free style: Everts, (A. and M.), first; Sproule, (A. and M.), second; Penn, (Texas), third. Time, 64.9.

The Aggies have a return meet scheduled with the Steers for May 4. Saturday the team will journey to Ft. Worth to do battle with the Y. M. C. A. team of that city. Another meet has been arranged with the Houston Y. M. C. A. for May 11 at Houston.

FROSH WIN FROM ALLEN

First Game of Season.

Unleashing their willows to pound out a total of thirteen safe blows, the Aggie Freshmen trounced the Allen Academy ball tossers in a one-sided game Thursday afternoon, 12-5.

After getting off to a slow start, being unable to get Lewis for the first four cantos, the Fish began their bombarding activities in the fifth inning to rout the Allen club. Fanklinr started the fireworks with a long four base clout nto left field, and his mates fell in line raining extra base hits all over the lot.

Crozier smacked a homer over the left field fence in the eighth frame, it being the longest hit of the game. He also slashed out a two base fly. "Sweetie" Davis, sorrel-topped key-stone sacker, hit the apple well, managin for three two-base hits. Xeltman got a pair of singles and a two base hit.

Wallace hurled invincible ball, having the Academy boys eating out of his paw until the late stages of the game when he loosened up with a big lead to fall back on. His curve ball was breaking nicely and he looked like sure stuff for the club this season, although Thursday's tilt was his initial game of the year.

What looked like a rough, green club at the beginning of the season, is fast developing into a smooth aggregation, and it looks as if Coach Hig will turn out some very good varsity material. His infield will match up with the best of the college freshmen teams. With Keith on third, Carpenter holding down short, Davis cavorting around second and either Jones or Stafford on first, the infield is well nigh perfect. First base seems to be the weak spot.

Veltman and Crozier have been looking mighty good in the gardens, while Summers and Coleman have also been turning in some nice out-field work.

On May 17 and 18, Coach Hig will take his charges to Brenham for a two-game series with Siki Sikes Blinn College outfit. It is rumored that Sikes has a neat club, and the series should be a dinger.

Although no definite plans have been made as yet, it is probable that the Fish will make a four-day trip during the R. V. holidays to McKinney. The high school there has what they think is a state championship club, and they are anxious to book a series with the Aggie Fish.

HERE AND THERE

RESULTS OF LAST WEEK'S CONTESTS.

- Baseball**
- S. M. U. 4-6—T. C. U. 2-3.
- Texas 4-5—Rice 3-3.
- Aggies 2-8—Waco 10-4.

ENGINEERS PLAN INSPECTION TRIPS

(Continued from Page 1)

the trip.

The Ch. E. Dept. will take both Seniors and Juniors from the 15th. to the 18th. through industrial plants in Corsicana, Dallas and Fort Worth. They will be shown their respects by the Chamber of Commerce while in Corsicana, by the Proctor and Gamble co. and Portland Cement Co., while in Dallas and by Mr. H. D. Stephenson while in Fort Worth.

While the C. E.s and Ch. E.s are going north the Senior M. Es. will go south from the 15th. to the 18th. They will go through Sugarland and its oil fields, Houston and Galveston. Among the things of interest that will be inspected is the nine and a half acre warehouse of the United

Steel Co.

Professors will accompany the different groups to help explain the different details since they are the only ones that know exactly how hard it is to make us understand.

WHERE WOULD YOU RATHER LIVE

(Continued from Page 2)

opportunities for you to give yourself a try out. You can start a clean-up movement every spring (and get yourself heartily disliked for your enterprise) just as successfully in a small town as in a big one. And if comfort and happiness are the chief goal of the poor old human race, these are more easily attainable where you can walk to your job than where you've got to be mashed in a subway to get there."

"KNOWLEDGE"

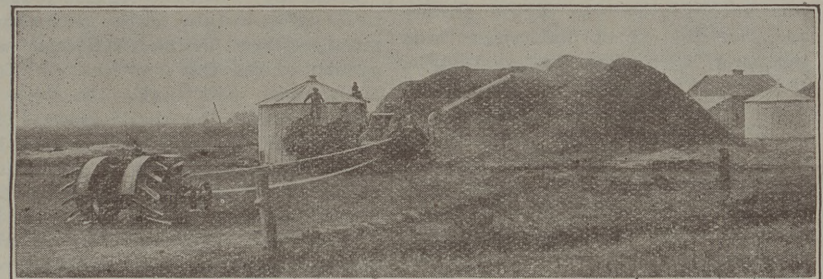

You may read, and you may study
You may cram for years at a time;
But you have not accomplished a single thing

If you cannot use your own mind.
You may go through schools and colleges.

And get your degree, if you are not a quitter,

But your goal is still far from you
If you cannot weigh and consider.

E. E. KYSER

The Supreme Threshing Test

IT IS GENERALLY admitted that no work tests a threshing machine so severely as the threshing of rice.

Rice is grown on flooded ground. It is usually saturated with moisture at cutting time. Often the bundles are set up in water two to three inches deep. Sometimes the crop has to be hauled to the thresher on mud boats.

Even though the heads dry out to some extent, there are still tough, wet straw and muddy butts to contend with in threshing. Never an easy crop to thresh, rice puts a machine to the supreme test when conditions are at all bad.

Therefore it is significant that in the territories where the worst conditions obtain, the Case rice thresher is the outstanding favorite. Approximately three-fourths of the rice raised in Arkansas is threshed with Case machines.

J. H. Beck, of Stuttgart, whose outfit is shown above, is one of many successful Arkansas rice growers who testify to the excellent performance of Case threshers under difficult conditions.

J. I. CASE T. M. CO., Inc. Racine, Wis.

The New Case Full Line Includes--

- Tractors
- Threshers
- Combines
- Silo Fillers
- Hay Balers
- Grain Drills
- Field Tillers
- Plows
- Cultivators
- Harrows
- Grain and Corn Binders
- Haying Machinery
- Cotton Machinery
- Manure Spreaders
- and many others
