parted with will look a hundred per cent better on the persons wearing them now than they ever would on you. They will look better in three minutes where they are being worn now than they would look on you in three years.

While investigating the why and the wherefore of the Einstein Theory out at Jarvis Hall Sunday afternoon, we were lucky enough to be "in" on the formation of a notorious Colorado County Compact. The provisions of the Constitution are (1) that the members always uphold the traditions of the old home county; (2) that they always remain true to the charter members of the compact and (3) that they never go out on a date without a chaperone—unless, of course, it is with a boy from the home county. What a compact. It will take two years to find what it is all about. Charter members who received the solemn ceremony were: Misses Lucille Ney, Kitty Belle Ney and Dorothy Darby; and Messrs. T. C. Roberts, C. E. Johnson and this lowly scribe.

L'ENVOI.

BANQUET GIVEN SENIOR CLASS

Dr. T. O. Walton honored the senior class with the first, of a series of three or four banquets last Thursday night in the banquet room of Sbis Hall. The purpose of the get-together was to bring the senior class in closer contact with the executives of the college so that they might be in a better position to carry on the work of the past seniors.

W. E. Morgan presided in the absence of President Ralph Howe and introduced Dr. Walton as the first speaker, who gave a short address urging the Class of '30 to cooperate with him in making this year the greatest in the history of the College. "Not only in number," he said, "but in our scholastic standing as well." He emphasized the great responsibility of the seniors on a corps trip to maintain order of the underclassmen, as well as themselves, and to see that the new equipment in the dormitories is not misused.

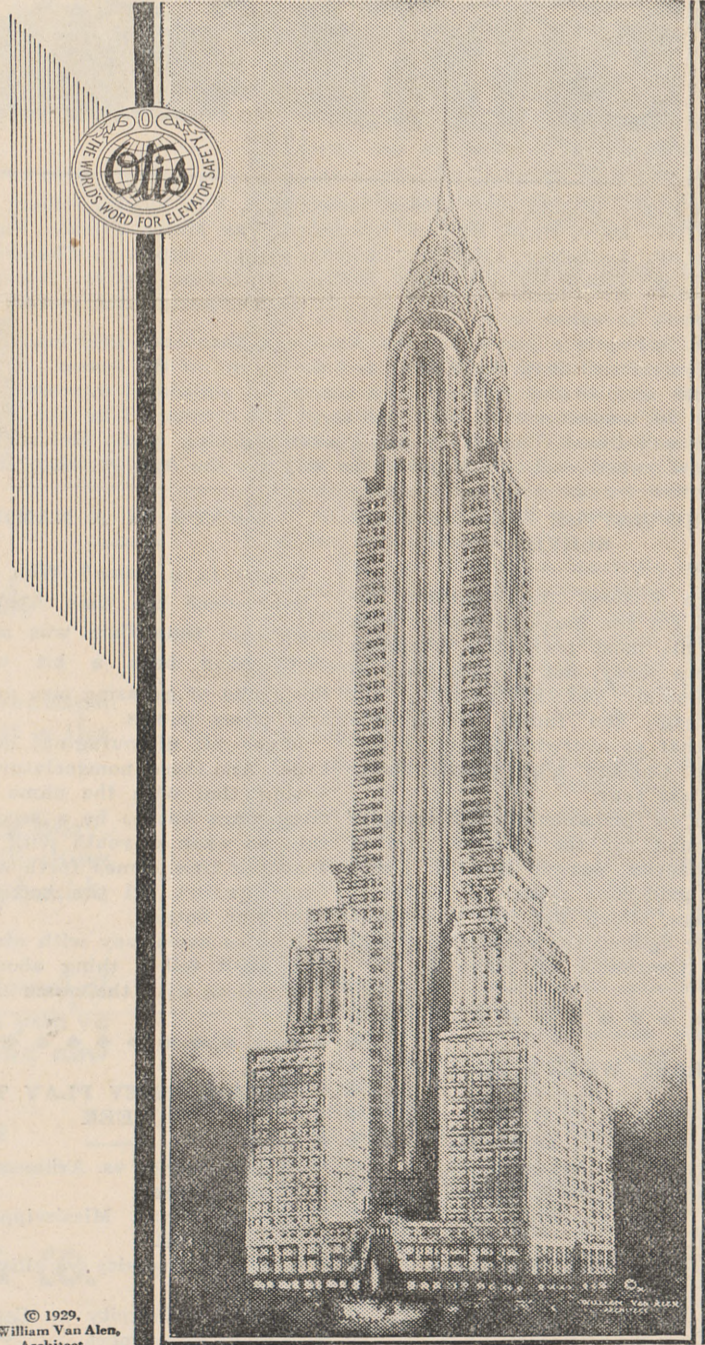

There was no program planned, but Colonel Chas. J. Nelson, Dean Charles Puryear, Dean F. C. Bolton, Major J. E. Sloan, J. E. Mitchell, and "Hop" Reynolds, gave short talks expressing their willingness to cooperate with the seniors on any problem which might arise.

A. A. CLUB ORGANIZED

(Continued from Page 3)

"Quack" Porter. The purpose of the club is to keep in touch with the progress made in the various departments under the A. A. Department and, together, cooperate in making this club one of the most prominent on the campus.

Five Chinese youths, all in their teens, were arrested, tried, and shot within two hours at Shanghai recently when they were apprehended while distributing Communist literature. The youths were arrested in the International Settlement, and turned over to the police.

The World's Tallest Building

THE new Chrysler Building in New York will be the tallest building in the world. It will be equipped with thirty Otis Signal Control Elevators.

Here is additional evidence in support of the statement that "most of the world's famous buildings are Otis-equipped."

The world's first safe elevator was an Otis—and today the marvelous Signal Control elevator is an exclusive Otis development.
