

## UNDER PREXY'S MOON

"DOC" SILVEY

This is Dr. O. W. Silvey's fourteenth year at A. and M., and his fourteenth year as head of the Physics department. They have been full years, wrought with months of steady exacting work, but to quote him, they have been years of happiness and contentment. And why not? His whole life's work is here. The campus has been his world and he has scratched the mark of success deep upon its face. The Physics building with its excellent equipment and ultra-convenient, almost mystical con-

trols, stands as a monument to his achievements. He is contented because he has accomplished the purpose for which he fitted himself. Twenty-eight years ago he entered college inspired with the idea of becoming a professor of Physics and he has steadfastly striven toward that goal. He received his degree in Physics, both B. A. and M. A., from Indiana University, and later secured his Ph. D. in the same subject, from the University of Chicago. His teaching experience was obtained under Professor Ferry of Purdue University in Pennsylvania, and in 1916 he entered A. and M. to take over the position he now holds on the faculty.

He and the members of his staff, since that date, have built the Physics department into one of the most efficient departments on the campus. They have constructed a model building and equipped it with over \$30,000 worth of the finest of technical equipment, designed to illustrate nearly every law of Physics.

"Doc" himself demonstrates these "Laws of the Universe" with his mechanical appliances, every Monday morning. Monday lecture is "Doc's" favorite class. He enjoys every moment of instruction and even the entertainment that he affords his students. He is perfectly at home in the lecture room behind his big black

topped desk, surrounded by push-buttons and levers and switches, expending theory, simplifying long equations and proving his conclusions beyond a doubt by material demonstrations with his laboratory equipment—which never fails—but "does it every time!"

## Cover Charges Now Popular in College Cafes

Customers Pay for Enjoyment as Well as Food.

The cost of education at Oberlin College has advanced, and college students are wondering what to do about it.

For years a gentleman from southern Europe, whose last name is not pronounced, and whose first name is Mike, has run a restaurant near the campus, where men students would come and spend the evenings in warmth and joviality, listening at intervals to the notes from an automatic orchestra.

But Mike has decided that his place should be more than loafing

headquarters. Recently, students who wandered in found cards on the tables, announcing:

"Hereafter a cover charge of 5 cents will be made for all those not ordering any food."

## LIKE TWO PENS

for the Price of One

— a Pocket Pen for Classroom Notes, and a Desk Pen for Your Room  
— Guaranteed for Life!

If you buy a Parker Pocket Duofold you now can have a Desk Set without buying a second pen. Or if you buy a Parker Duofold Desk Set you also now receive a Duofold Pocket Pen guaranteed for life. Either way, you save the price of a second pen—\$5, \$7 or \$10, according to the model.

By adding a tapered end, you convert your Duofold Pocket Pen to a Desk Pen in 10 seconds. By removing the taper and putting on the Pocket Cap you restore it to a Pocket Duofold on leaving office or home.

Thus every owner of a Parker Pocket Pen owns half a Desk Set. Getting a Desk Base completes it. We now include pen taper free with that.

Streamlined shape, sets low in pocket  
— greater ink capacity than average,  
size for size — Non-breakable Barrels  
of Jewel-like, Colorful Permanite.  
Super-smooth, hand-ground points.

Pencils to match, \$3.25 to \$5

And to every buyer of a Parker Desk Set, we now give a Pocket Cap with Clip. Thus his Desk Pen is also a Pocket Pen—like 2 Pens for the price of one Set. Be sure to ask for the Pocket Cap with your Desk Set.

Parker's new streamlined Duofold Pens (and Pencils to match) set lower in the pocket than others because the clip starts at the top—not halfway down the cap. This smart, balanced shape feels "at home" in the hand—and writes with our famous 47th improvement—Pressureless Touch.

Go see this revolutionary Convertible Duofold at any nearby pen counter.
