

LECTURE TO BE OF INTEREST

(Continued from Page 1)

are distinguished from the petit-bourgeoisie; and the small bandit populace still remains secluded in their mountain cache. The peasants still live off the profits derived from driving their goods to the little but beloved market in the public square. While the working classes are occupying the majority of the big cottages which have been turned into sanatoriums under the direction of the Commissariat of Public Health, the "government servants" occupy the remainder of the big cottages, and these two groups are kept up by the Nepmen who reside in the big hotel which resembles the Commissariat but which is used for the aid of the other two classes of commons. One engineer said that "The gov-

ernment is what stands in the way of the economic and cultural revival of Russia; and yet Russia would have been the worse off had it not suffered the effects of the revolution. The policy of the Bolsheviks, extreme as they were, prevented the return of the old regime."

One dark-haired, black-eyed gentleman with a swarthy complexion and great big, dangerous looking nose of those Caucasus mountain races said: "Russia has its good and bad points. Among its bad is its loss of freedom. In America you can kill a man and go free; even in Finland you can kill a Russian if you have twenty gold rubles; in other places if you hate a man, you can kill him; but in Russia if you kill a man, the government comes right along and kills you."

Mr. Eastman's talk will be on "Russia and the Bolsheviks."

ROOM RENT RAISED

(Continued from Page 1)

rent at a maximum of \$60 which is not to be increased further.

The Board, together with the administrative officials of the College, agreed to charge this room-rent with great reluctance, as it was brought up that such an increase in the amount to register would make a hardship on some of the students. "But," Dr. Walton said, "since there is little or no chance of the State Legislature appropriating any more funds for building dormitories, this is the only way in which we could see to build adequate room for the students now and the ones to come in later years."

This money will be put aside for the specific use of building dormitories and will be used for no other purpose.

SAY BO, DIDJA?

Say bo, didja ever go to Dallas
 * * *
 To have a hot time with a dame you never saw before,
 * * *
 And didja make sure your reputation as a fast worker
 * * *
 Got to the girl before you did,
 * * *
 So that the girl was waiting for you hungrily,
 * * *
 And then when you got there didja let 'em know they
 * * *
 Called you "Speedy" just to sorta impress her of the type of fellow you were,
 * * *
 And then after spending the better part of two days and
 * * *
 Two nights with the flossie,
 * * *
 Didja go away congratulatin' yourself on the way
 * * *
 You had proved your reputation,
 * * *
 And then, bo, didja come back to Ag-gieland,
 * * *
 And didja find out in a letter from her girl friend
 * * *
 To your boy friend that she had kept her room mate awake
 * * *
 Telling her about her big brawny cadet whose name was "Pokey"?
 * * *
 Say, bo, didja?
 Eddie Speedy POKEY GORMAN did.

CAMP SCHEDULE

(Continued from Page 1)

of the Cavalry Camp and Captain Lewis A. Pick will command the camp for the Engineers.

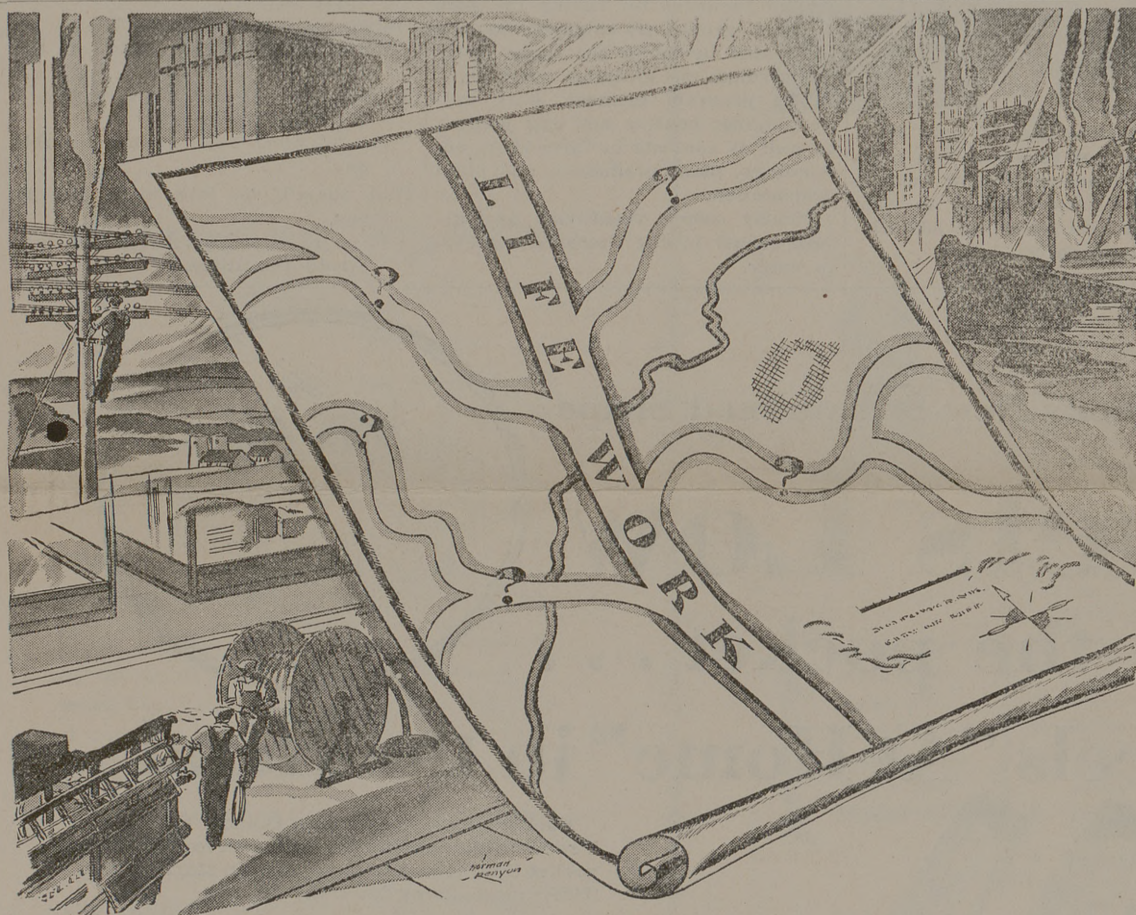

No further details are available as yet but will be published from time to time in The Battalion as they come in.

A meeting of the graduate faculty at Yale University was broken up recently when a bat entered the room where the meeting was in progress and the entire faculty assembled began to chase it.

E. R. Hardy, Jr., 21, has been ordained as a deacon of the Episcopal Church at New York. Hardy has been known as a child prodigy at Columbia university, which he entered at 12.
