BRYAN, TEXAS, MARCH 5, 1930.

NO. 24

MAGAZINE NAMED THE TECHNOSCOPE

Deane, Winner, Will Receive Prize; Burton Second in Contest.

At a meeting of the new engineering publication staff, the name "Technoscope," suggested by Bill Deane, was selected as the title for the magazine. Because of this choice, Deane will receive the two prizes offered in the contest which are a six-dollar tailor ticket from Ben Youngblood's College Tailor Shop and a Wahl Eversharp pencil from the Exchange Store. The very nifty name "Equation" was suggested by M. S. Burton, ran a close race with "Technoscope" but fell a second choice and can thus receive only honorable mention.

The one volume which will be published this year is intended to be fifty pages and already both the business and the editorial staffs are busy in trying to make the first issue of the quarterly a dynamic success to correspond with the newly arranged for "Engineers' Day" which it will inaugurate on March 10.

The editorial staff as selected at the time of voting on the magazine include S. A. Roelofs, editor-in-chief; H. D. Maples, associate editor; M. C. Easterling, B. W. Farquhar, I. L. Williams, W. E. Collins, B. H. Holt, P. M. Honnell, and J. W. Donahue as assistant editors, representing each of the engineering departments of the college. The faculty sponsors are Dr. L. E. Grinter of the Civil Engineering Department; C. W. Crawford of the Mechanical Engineering Department.

"T" CLUB DANCE TO BE GIVEN FRI.

Committee Announces that Plans are Ready for Dance.

Tuxedos and the last word in military uniforms will blend with sweeping gowns of vari-colored hue when the letter men of the college meet with their guests for the annual "T" dance to be held at the Bryan Country Club Friday night, March 7.

Joe Brown, president of the "T" Club, announced that the following men would compose the dance committee: F. L. Holmes, Waco, and R. L. Hunter, Fort, Worth, decorations; Brooks Conover, Dallas, music; H. U. Bible, Jefferson City, Tennessee, floor; H. B. Lackey, Fort Worth, and

Juniors Selected to Attend C. W. S. C.

Number Reduced This Year From Fourteen to Eight.

Each year there is a select group of Junior chemical engineers taking advanced military science, given the opportunity to choose between their regular camp and the Chemical Warfare Service Camp at Edgewood Arsenal, Maryland. After attending this camp each must accept his commission in the Officers Reserve Corps in the C. W. S.

Last year there were sixteen recommended for the camp and fourteen attended. This year, however, the number has been reduced to eight out of the sixteen recommended. Those who will attend are: D. F. Cheaney, E Company, Infantry, from Electra; W. T. Askew, E Company Infantry, Fort Worth; L. C. Baker, A Company, Infantry, Dale; R. E. Bland, C Engineers, Dallas; J. B. Clark, B Battery F. A., Fort Worth; T. A. Francis, B Troop, Cavalry, El Paso; J. C. Ward, D Battery, F. A., Weatherford; and J. E. Latta, D Company, Infantry, Tyler.

PLANS FOR FISH BAT NOW STARTED

All Freshmen Interested Are Urged to Make Themselves Known.

Plans for the publication of the annual "Fish Battalion," special edition of The Battalion by the members of the freshman class, are being made according to J. L. Cunningham, class president.

The "Fish Bat" is traditionally published by members of the freshman class every spring and its appearance on the campus is awaited eagerly by members of all classes, for it is often the source of much fun and pleasure.

Members of the freshman class who wish to assist with publication this year should see Cunningham in 23 Foster. It is desired that all freshmen who have had any experience in work of this kind or feel that they would be interested in such work make themselves known at once, for in order to make the special edition a success it will be necessary for the entire class to be behind it.

Until two years ago a "Fish Bat" had never paid for itself and it was usually expected that personal subscription would be necessary with

D. H. Team Leaves Sunday for Contest

First Stop to be Fort Worth; Thence to Tyler for Practice Judging.

The Dairy Husbandry Department has announced the selection of the dairy cattle judging team, which is to leave Sunday, March 9, to participate in the Southwest Student Dairy Cattle judging contest, held in association with the Southwest Fat Stock Show and Exposition at Fort Worth.

Eight men have been working out three times each week since February 1, and the following men will compose the team selected by A. L. Darnell, coach: J. L. Allen, El Campo; J. D. Sellers, Mexia; J. H. Taylor, Dublin; J. J. Willingham, College Station.

These men will attend the East Texas Dairy Show, Tyler, for practice judging Wednesday and Thursday of this week, returning to College Station Friday. Coach Darnell will accompany the team to Tyler and go from there to Fort Worth to assume his duties as superintendent

PRESS CONGRESS TO MEET APR. 4-5

Annual Journalism Society Meeting in Fort Worth This Year.

Plans for the program for Southwestern Journalism Congress, which will be held April 4 and 5 at Texas Christian University, Fort Worth, were made at an executive board meeting at Baylor College.

In attendance were: President J. Willard Ridings, Texas Christian University; vice president, Paul J. Thompson, University of Texas; secretary-treasurer, Miss Ailese Parten, Baylor College; executive members, Miss Helen Zene Wortman, Baylor College, and Curtis Vinson, A. and M. College.

Already several social features for the two-day convention have been planned by the Fort Worth Press and Fort Worth Star-Telegram, which are co-operating with T. C. U.

The convention met last year with College of Industrial Arts at Denton with Merle Crowell, editor of the American Magazine as the principal speaker.

Schools which hold memberships in the Southwestern Journalism Congress are: A. and M. College, Baylor

OLD STYLE RING WINS CLASS VOTE

Second Meeting of Juniors Proves Decisive on Ring Question.

With the overwhelming vote of 150-37, members of the junior class voted in a meeting called for that purpose last Saturday to return to the old style ring which was officially discarded by the members of the preceding class last year.

The meeting Saturday followed one held the previous week for the purpose of discussing the problem, and the quiet orderliness which was evident in both gatherings bespoke the sincerity of the class in their consideration of the matter. Advocates of both rings were allowed ample time for arguments for and against each ring in the first meeting, but only the matter of voting was taken up in the second.

Members of the ring committee are at work drawing up specifications for the new ring and will probably consider bids from several competing companies before the week is out.

It has been pointed out by members of the committee that the specifications to be drawn up will likely call for a better class of engraving than has ever been given in an A. and M. ring and several other requirements are being made which will improve the quality of this year's product. It would be wise, then, members of the committee believe, to await until the contract is awarded, before placing orders for rings with anyone.

MORGAN DELIVERS PAPER TO SOCIETY

Major Sloan to Speak on Naval Question at Next Meeting.

Professor S. S. Morgan of the Department of English, delivered a very interesting paper on "Vitalism" before the Scholarship Society at the regular semi-monthly meeting last Thursday night.

Major J. E. Sloan will deliver a paper on "Some Aspects of the Naval Requirements of the Five Great Powers" at the next meeting of the Society on March 13th.

The meetings are held in the "Y" parlor at seven o'clock every other Thursday night and the members of the teaching staff are cordially invited.
