FAMOUS AUTHOR SPEAKS TUESDAY

Dr. Campbell, Author of "Kit Carson," Presented by Social Science Seminar.

Of great interest to those who have read "Kit Carson" and other works of the author will be the announcement that Dr. W. S. Campbell of the University of Oklahoma is to be here to speak before the Social Science Seminar on Tuesday evening, April 1.

Dr. Campbell, whose pen name is Stanley Vestal, writes delightful stories of plains, Indians and figures of frontier days. Work on "Kit Carson" has received nation-wide recognition for him, and his latest works "Adobe Walls," and "Happy Hunting Grounds" are attracting the attention of the modern fiction reader.

Professor Campbell maintains that there is real epic material in days of the old Southwest and he will point out in his talk what this material is and how it can be brought out in art to replace the modern western story type of writing.

Dr. Campbell was originally to

A. S. M. E. DANCE TO BE ON APRIL 4

Members Requested by President to
Secure Bids by This Week.

Plans for the dance of the local chapter of the A. S. M. E. April 4 were completed at the regular bi-monthly meeting of the society Friday night, and bids are being distributed by F. E. Kavanaugh, A Engineer.

One of the most spicy programs of the year featuring three original educational lectures by student members of the society was enjoyed by members at the Friday night meeting. A. E. Cuthrell addressed the group on Diesel engines, illustrating his lecture by use of the recently purchased portable projecting apparatus. Jack Gill, speaking on "Coal Carbonization," and H. B. Adams, with the subject, "An Improvised Foundry," were the other speakers.

Kavanaugh requests that members of the society get their bids this week so that arrangements for the affair can be completed.

T. C. U. BEAUTIES

MISS
DORIS
SHAW

MISS
MEXINE
RUSSELL

MISS BETTY BERRY

Here are the three prettiest girls in Texas Christian University. At least that's the opinion of the students themselves. The three were named by vote of the student body. They are (left to right): Miss Doris Shaw, Memphis; Miss Betty Berry, Fort Worth; and Miss Maxine Russell, Ballinger. Misses Shaw and Russell are seniors, while Miss Berry is a freshman.

Livestock Entries from A.&M. Place in Fat Stock Show

One Grand Champion, Several Class
Champions and Others Place.

Livestock exhibits of Texas A. and M. at the Southwest Fat Stock Show and Exposition, Fort Worth, won their full share of prizes when they placed one grand champion, several class champions, and numerous first and second prize winners.

In the beef cattle division, "Royal Cross," a Shorthorn-Angus crossbred, bred by the College and shown as a Shorthorn, was made first prize senior calf, champion Shorthorn steer, and was a popular candidate for grand championship honors. The College exhibit of Shorthorns also included second prize senior calf, second prize junior yearling, second prize summer yearling, and second prize group of three steers.

Plans for Mothers' Day to be Talked Over and Formed

Senior Class Representatives to Meet
With Dr. Walton for Discussion.

Representatives of the Senior Class will meet in consultation with Dr. T. O. Walton this week to discuss plans for the annual Mother's Day program of the College to be held Sunday, May 11.

Plans to attract a larger number of parents than have ever come to A. and M. before are being made and students are urged to invite their mothers and fathers early so that they will be able to plan ahead of time on being present.

Senior students are in charge of the program and a definite announcement will likely be made following their conference with Dr. Walton this week.

A. & M. SENDS MEN TO A. S. C. E. MEET

Thirteen Students and Four Profes-
sors go to Waco Meeting.

Thirteen students, three of them official delegates from the local chapter of the A. S. C. E., and four professors represented the A. and M. College of Texas at the spring meeting of the Texas Section of the Society at Waco March 20-21.

The delegates were entertained with a banquet Thursday evening by the Waco chapter, before which they made an inspection tour of the major engineering projects of Waco.

Professors J. J. Richey, J. T. L. McNew, T. A. Munson and Steele and Dr. F. E. Giescke were the faculty representatives while the delegates of the local chapter were C. A. Schwope, C. L. Pickett and Sam Roelofs. Other students attending the meeting were Seth Steele, Frank Shephardson, Cyril Adams, Chas. Roland, Frank Moehler, T. V. Stephens and F. L. Stephenson.

The University of Texas was represented by seven students and a number of faculty members.

LONGHORN GOES TO PRESS IN MO.

Halbouty Leaves Week-End for Jef-
ferson City, Location of Press.

With the last copy sheet on the way and the last plate mailed the editorial end of the Longhorn staff has completed its work as far as the campus is concerned. The departure of M. T. Halbouty this week-end for Jefferson City, Missouri, the location of the Botz-Hugh Stevens Press, marks the end of a laborious year for the staff. Although everything must be checked and approved by the editor the routine jobs have been completed, and the actual gathering of the material to be used in the book is at an end.

Plans for the book have been held secret by the members of the staff and very little is known by the student body concerning the nature of the book. The cover is to cost three or four times as much as any used in the past by any school annual and will be very elaborate. Two dual-tone inks will be used on the beauty section, where in the past only one has been used. The remaining improvements are left to the reader to find
