

S M U-A & M—
(Continued from page 1)

cadets, their families, and sweet-hearts, will be given by the Majestic theatre.

What Dallas mothers, ex-students and others are doing to make the stay of the cadet corps in Dallas pleasant is clearly told in the following letter to Mrs. F. S. Buford, president of the Dallas A & M Mothers' Club and mother of Fred Buford, Aggie yell leader.

Dear Mrs. Buford:

In accordance with your request herewith is an outline of the arrangements complete for the Aggies:

"WELCOME"

Siren on Adolphus arrival of trains and during parade; City Band; Peacock Band; S M U Band, and Police patrol, will meet the trains and participate in the parade in positions assigned them by the committee.

Thirty-six hundred street car tickets have been sent to the college; one thousand car stickers for automobiles of welcome are now being distributed. One thousand A & M pennant stickers will be received tomorrow; twenty-five hundred courtesy cards welcome from the Mayor of Dallas will be forwarded tomorrow.

"Reservations"

Ten rooms have been reserved at the Adolphus for the official staff, as many rooms as required for band boys and instruments, have been reserved; five rooms for A & M Mothers Club. As many additional rooms as needed are available at the Adolphus or Jefferson, which may be used for any of the boys should they get down and out. The S M U officials are co-operating in any way they can and arrangements have been made to take care of the team on arrival, and they will be taken to the Athletic Club and properly cared for.

The Midnight Circus will start promptly at twelve o'clock, the full Majestic show with added features. This is to be strictly a private party for the Aggies, their mothers, wives and dates. The entire house belongs to us. Of course, three thousand is the capacity and we must be careful of too many dates. It is planned that the A & M Band will open in the center of the stage, opening number "Star Spangled Banner," next A & M College song, all participating; the curtain down to give the band the opportunity to clear the stage and resume their places in the audience. The yell leaders, then, to take charge of the stage and they are at liberty to put on anything they see fit. The actual show will require two hours and fifteen minutes; any added features, of course, will take up additional time. As far as I can see it at this time, the trains will be held until 3:00 A. M., or later if it is so desired—anything that the boys would like to put on of course will be welcome. In other words, anything goes for one big time.

The Majestic management is co-operating in every conceivable way to make this party a howling success

and they have requested, if it is at all possible, to have the band to play one or two numbers in front of the theatre just after the parade. They are asking this in the nature of some retaliation for certain courtesies extended with which you are familiar, and I am making this request known to Captain Harry.

In lieu of the fact that some parties that have previously been pulled for the benefit of other colleges has terminated with considerable intoxication, rowdyism and much damage to the theatre, the management has requested me to personally take this matter in hand so as to avoid anything of this nature.

Now, I don't believe that it would be well, or at all appropriate, to have any of our police officers in the building. In the first place anyone under the influence of liquor will not be admitted and to forestall anything but gentlemanly conduct, I am requesting Captain Harry in a letter today to appoint twenty-five or thirty upperclassmen who will report to me at the theater to be placed both up stairs and down stairs in different sections of the theater to maintain order and dispense with any rowdyism. Rooms have been provided at both the hotels to take care of any of the boys who might get down and out, and it will be the duty of the appointed committee to see that they are sent to these rooms. I have assurance of the Police Department that none of the boys will be taken up and

jugged. They may be taken up if the case demands it but they will be turned over to their buddies to take care of them. The point we are trying to get over is one big time for all without any rough stuff, and we want these boys to feel perfectly at home and at liberty to do anything that they would do in their own home among their mothers and sisters and sweethearts.

I neglected to add that the Adolphus Hotel has by special arrangement brought a five thousand dollar orchestra to Dallas for the Idlewild Ball, which I believe, is held on Friday night. This orchestra is being held over for a dance Saturday night. Due to the heavy expense, the Adolphus management is hardly in a position to allow free admission. This is not altogether an Aggie affair. The regular charge of admission is \$3.00 per couple and as an especial concession, they have offered to admit all Aggies with their dates at \$1.00 per person, and they would like for this announcement to be made to the corps for any who might wish to take advantage of it.

I believe this covers arrangements so far as I know up to this time.

Very Sincerely,
A. J. KUTNER.

This fifth estate (the truly educated) is composed of those having the simplicity to wonder, the ability to question, the power to generalize, the capacity to apply.—Poster in Cleveland Public Library.

Under moonless skies

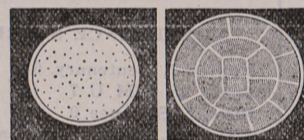

AH-H-H! So sad. Look at the poor student (?) lurking among ye posies whilst some fair one keeps him waiting as ye rain beats down. But he's not so dumb at that. We make slickers, and our trained eyes note that he is wearing a Fish Brand "Varsity." So we know he's dry and comfortable from head to foot.

Fish Brand Slickers are made in a wide choice of models, weights, colors. Smartly cut. Long-wearing. Sold everywhere. Look for the fish on the label. A. J. Tower Company, 24 Simmons Street, Boston, Massachusetts.

They made 36 wires grow where only one grew before

Yesterday, the 100 wire cable—today the 3636. Development work goes steadily forward.

"No product or process is ever beyond improvement",

say Western Electric manufacturing engineers. For example,

see what they did with telephone cable... Through

years of patient trial they advanced from a crude 100 wire cable to one only slightly

larger which contained 2424 wires—until recently the biggest cable that could be laid in

existing conduits... Still further effort produced the 3636 wire cable of exactly the same

diameter as the 2424! Thus they have met the challenge of limited space in crowded cable

ducts and have supplied facilities for constantly greater

use of the telephone... There's a real thrill in this

habit of seeking and finding the new and better way!

Absorbing work plus out-of-hours recreation—both are found at Western Electric.
