

Sports Bits—

(Continued from page 6)
was an all-conference choice on several selections.

For the first time in four years, A & M is without a single representative in the East-West game at San Francisco. However, five Southwest players, the largest number ever asked, have been invited.

This means that our conference is gaining recognition throughout the country. Coach D. X. Bible doing part of the selection probably has quite a good bit to do with this.

The week's best goes to the intramural manager that allowed E Battery to play an entire speedball game using twelve men. However, a mistake like that seldom occurs in the intramural department.

The Reidmen got off to a flying start in the first game—hang on—and they'll keep flying.

Intramural Grid—

(Continued from page 6)

The Composites have several fish from the freshmen team out for the squad but they are all light men. The old men back are R. L. Suggs, R. L. Dunten, D. L. Hurst, J. B. Smith, Bill Amos, E. Bartel, C. C. Nash, and L. W. Orton.

The championship First Artillery, with practically the same team of last year and several fish are working out daily under the guidance of Coaches Pete Hewitt, Sweetie Davis, and Carl Moulden. The team is much stronger than last year. With a heavy line and backfield little trouble should be found in fashioning a formidable team. Some of the old men back are Bob Buckman, Bill O'Dowd, George Pierce, Bert Airhart, Bubba Robbins, and Red Morris, a squadman of two years back.

Oliver Guseman has charge of the Second Artillery team this year. There are several men from the varsity squad eligible for the team this year, along with several fish. The team is rapidly rounding into shape for the opening of the season Saturday.

There are ten old men back, and at the present time sixty men are working out daily. Among the old men back are B. E. Sulak, A. C. Moser, F. H. Shepherd, and J. M. Kenderdine.

The Cavalry intramural has forty-five men working out daily under the direction of Harry Stiteler and Jack Christian. The squad will miss the services of Stiteler, who lettered on the varsity squad this year. There are several old men back this year among whom are R. H. Scheer, a hard fighting end from the varsity squad.

The complete schedule is as follows:
Dec. 13—Eng vs Comp.
Dec. 13—1st Art vs 1st Inf.
Dec. 13—2nd Art vs 2nd Inf.
Jan. 10—Eng vs Cav.
Jan. 10—Comp vs 1st Art.
Jan. 10—1st Inf vs 2nd Art.
Jan. 17—2nd Inf vs Cav.
Jan. 17—Eng vs 1st Art.
Jan. 17—Comp vs 1st Inf.
Jan. 24—2nd Art vs 1st Inf.
Jan. 24—1st Art vs 2nd Inf.
Jan. 24—2nd Art vs Cav.
Feb. 7—Comp vs 2nd Art.
Feb. 7—1st Art vs Cav.
Feb. 7—Eng vs 2nd Inf.
Feb. 14—1st Inf vs Cav.
Feb. 14—1st Art vs 2nd Art.
Feb. 14—Comp vs 2nd Inf.
Feb. 21—Eng vs 2nd Art.
Feb. 21—Comp vs Cav.
Feb. 21—1st Inf vs 2nd Inf.

Aggies Feted—

(Continued from page 6)

loyalty and promised a better team for next season.

The annual Houston Post-Dispatch trophy was presented to Jake Wilson, Baylor University quarterback. This trophy is presented each year to the outstanding football player of the Southwest conference. The presentation was made by Lloyd Gregory, Post-Dispatch sports editor.

The merriment reached its height when thirty-five girls, under the direction of August C. Bering Jr., presented a musical comedy. This comedy lived up to all expectations and advanced notices.

Vice-President Saper of the Houston Ex-Aggies introduced "Bull" Floyd, Captain of the 1930 team, and Carl Moulden, captain-elect of the 1931 team. Coach Frank Anderson and his championship cross-country team were also introduced. In his speech Mr. Saper also urged the Aggie authorities to permit the A & M cadet corps to attend the Aggie-Rice Owl game next fall.

President T. O. Walton in his speech sounded a warning note when he said that there are some athletic practices in the Southwest conference that should be corrected. "As for A & M," he said, "we have preferred to be open and above board in our practices and take the penalty of being criticized by the public when we fail to have a winning team.

The fun continued until after midnight, with speeches being made by practically all of the lettermen on the football team. This was the largest banquet that the Houston Aggies have ever held for the Aggie football team.

Tennis Matches Begun

The annual tennis tournament, sponsored yearly by the intramural department to determine the best doubles team and individual tennis player, was begun Monday afternoon with L. F. Wanja and J. Woodward, Co. H Infantry defeating S. R. Craig and W. H. Drushell, Co. C Infantry, while C. M. White and L. E. Zieschang, Co. A Infantry, took the measure of H. F. Smith and O. Erwin, Troop B. This tournament is simply an elimination series in which a team once defeated is out of the race.

Pity The Poor Intramural Mgr.

An unusual but interesting event occurred Sunday afternoon, when after Battery E Artillery had defeated Battery F in a game to determine the college speedball championship, it was discovered that Battery E had used 12 men through out the game unknown to the officials, score keepers, intramural managers and themselves. The game requires only eleven men.

Since this error has been discovered the game will be played over the latter part of the week.

In the semi-finals, Battery E defeated Company D Infantry, and Battery F eliminated Company A Signal Corps. Battery F won the championship last year.

\$1,500,000 DONATION

NORTHFIELD, Minn.—A million and a half dollars, the largest sum ever given in one lump to a college of liberal arts, has been donated to Carleton College here by the General Education Board, of New York, on the condition that \$3,000,000 more is raised by the college itself.

Former Secretary of State Frank B. Kellogg, recently given the Nobel Prize for peace efforts, has been named head of the committee which will head up the drive for the remaining three million.

Of the total of \$4,500,000 which the college thus hopes to receive, \$1,500,000 will be used for increasing the endowment of the institution, bringing the total endowment to \$4,000,000. Another \$2,500,000 will be used for new buildings, and the remaining \$500,000 will be used to pay off all college debts.

WEATHER STATION MAROONED

ANN ARBOR, Mich.—Until next spring, when new supplies can be shipped to it, the University of Michigan weather station on Mount Evans, Greenland, will be cut off from communication with the rest of the world, according to Professor William H. Hobbs, head of the geology department at the University here.

Dr. Hobbs revealed that the station can send out messages, but cannot receive any because of an accident in which receiving equipment was destroyed.

SCORES ATHLETES

WOOSTER, O.—The best publicity which can come to the College of Wooster is from its growing influence in academic standards, in culture and in religion, rather than from football, Dr. Charles F. Wishart, president of the college told Wooster Kiwanians here.

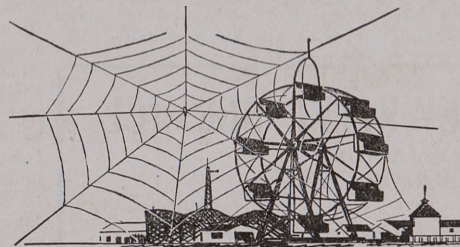

The president said that financial aid was being given to all students alike who needed it, athletes and just plain students.

SAVING THE CO-ED'S NECKS

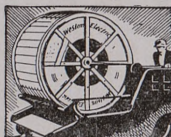

NEW YORK.—Undergraduates at Barnard College here are seriously contemplating a program for letting the world know that the college is one for women students. The move was instigated by the undergraduate newspaper after the college had received a letter from a sports concern, pointing out the advantages of using rubber line markers on the football field, thus saving the necks of the players.

... and so they put this
abandoned playground
to work

Reels of cable roll where roller coasters once roared...

Several years ago a group of Western Electric men set out to find

the best location for a vast new telephone manufacturing plant.

☐ To assure availability of labor the site must be near a large city,

yet land prices must not be prohibitive. Transportation facilities were of utmost

importance. Local civic policies must be favorable to the growth of industry. ☐ Months

of fascinating investigation revealed an ideal site—a once famous playground near

Baltimore, which no longer paid its way. ☐ Here was an interest-

ing problem, and an indication of the diversity of work that all

comes under the heading of "Backing up the Bell System."

Handy shipping facilities—a prime reason for choosing Baltimore
