the encounter, being touched for only two hits the remainder of the way.

The all-round play of Wells, Baylor second sacker, marked him as the mainstay in the Baylor defense, while Parker, Baylor hurler, also turned in a nice game, holding the Aggies to seven bingles for the full route.

In the Monday affair the Aggies just couldn't get anybody out, and sixteen base knocks, registered by the Cats from the offering of Harold

Haney and Ab Hawes, coupled with six Aggie errors, spelled defeat in a big way for the A & M team.

Starting the fireworks by scoring a run in the initial round on two Aggie errors and a well-placed sacrifice hit, the Cats were never halted, but continued to tally in every inning except one, the seventh.

Two double plays, one in the second and the other in the third inning, were probably the only features of the Aggies play for the afternoon.

If you inhale, you can quickly tell the difference between fresh and stale cigarettes. A Camel, protected by the Humidor Pack, retains its natural moisture, and gives you a cool mild smoke. But when you draw in the smoke from dried-

out stale tobacco, it's hot and irritating to the throat.

If you haven't discovered this difference, we suggest you switch to Camels for just one day. Then leave them tomorrow, if you can.
