## THE PIPE ORGAN

It seems that the installation of a pipe organ in Guion hall is comparable to the present graduating class erecting a dormitory—neither an impossible task, but both of a very difficult nature.

Even at the outset it is hard to imagine such a huge musical instrument artistically adapted to Guion hall, and to imagine good acoustics of sounds resulting therefrom, a near impossibility; but such considerations were investigated prior to starting the project and a report was made favorable to its installation.

The organ will add to the musical environment of the college and to the atmosphere of Guion hall, and now that the campaign has been started, it would be little less than short sightedness and political insanity for the students of A & M to fail to give their support to a measure so decidedly in their favor. If an associated Mothers' club shows sufficient interest in us and our college to install such an improvement, it is nothing but logic that we should lend our support and give it our whole hearted acceptance when completed.

## WHAT OTHERS THINK

FORT WORTH—"They certainly have high ideals; I wish I could live up to all of them."

This is the opinion of the majority of the girls of Jarvis Hall, Texas Christian University, when asked to comment concerning the "Ideal Girl" as selected by the boys of Texas A and M.

The Aggie student body set up these standards for the Ideal Girl; she is a brunette, doesn't smoke, doesn't drink, doesn't swear, a smart dresser but economical, uses cosmetics, plays bridge and is a good mixer, loves children and her home, knows how to cook, comes of a good family, and is younger than her sweetheart.

The blondes and the red-heads are not so keen about the "brunette" requirement. "It's not the color of a girl's hair, or her beauty that counts," says one of these. "It's her personality."

"That may be their paper idea, but I'll be willing to bet that not one out of ten would go with that type of girl," commented a scoffing co-ed.

More typical, however, was the comment, "I think the ideals set forth in the Aggies' choice are those held by every worthwhile boy, and I believe a boy looks for these qualities in the girl he goes with."

—The Skiff.

## Handler Wins Speech Contest

I. A. Handler of Galveston with a speech on "Economic Remedies," Tuesday night was declared winner of the Sophomore Speech Contest and was awarded the \$25 first prize offered by Owen W. Sherrill of Georgetown, a member of the class of 1910. Handler was placed first by three of the five judges and ranked high by the remaining two.

Others competing in the finals held Tuesday night were J. W. Wells of Brownsville, speaking on "Making Safe Our Citizens and Their Rights;" J. L. R. Bergendahl, San Antonio, on "Consumptionism;" J. E. Gaston, Henderson, on "The Five Year Plan;" and Jack C. Barron, Center, on "The Psychological Effects of Cheating."

# Do a little Checking up yourself

**DON'T TAKE** our word for it, switch to Camels for just one day then quit them if you can. The moment you open the package you'll note the difference between fresh humidor packed Camels and dry-as-dust cigarettes. Camels are supple and firm to the touch. Stale, dried-out cigarettes crumble and crackle when pressed. But

the real convincer is to smoke Camels. Every puff is a sheer delight of cool, mellow mildness; the Camel blend of choicest Turkish and mellowest Domestic tobaccos, kept in prime condition by moisture-proof Cellophane sealed air-tight.
