

Cornhuskers Crowds Largest This Year

LINCOLN, Neb.—The University of Nebraska Cornhuskers played to their largest attendance total in football history during the 1931 season, according to figures released by the university department of athletics.

Records of attendance, exclusive of the charity game at Denver, reveal Nebraska played before 146,450 people in nine games. These figures represent an increase of more than 20,000 over the preceding high attendance which was 1928.

It is still not too late to enter the short story contest. All stories must be in on Tuesday after holidays—See story on page 4.

Luker Speaks To Student Farmers

At the second meeting of the C. H. Winkler Collegiate Chapter of the Future Farmers of America, Mr. Cyril Luker, teacher of vocational agriculture at Bryan High School, told the members that in the organization and erection of objectives, they themselves should

supplement and carry out the objective without the aid of the adviser. He also told the chapter of the objective Bryan High School as set up and the way that it is being attained. Mr. E. R. Alexander, local adviser for the C. H. Winkler Chapter talked on the responsibility of a local adviser and emphasized the importance of having the boys work toward their objectives.

You needn't tell me
—I know Camel is
the fresh cigarette!

FRESHNESS

— that's the thing!

CAMELS are never parched or toasted

HAVE you noticed the new trend in cigarettes?—
freshness is the popular thing.

That's because a *fresh* cigarette, as demonstrated by Camels, is something smokers have discovered as better than anything they ever tried before.

Camels are fresh in the Camel Humidor Pack because they're *made* fresh to start with—blended of choice, delicately mild, sun-ripened tobaccos in which the natural moisture and fragrant flavors are vigilantly safeguarded.

The tobaccos in Camels are never parched or toasted—the Reynolds method of scientifically applying heat guarantees against that.

That's why we say with so much assurance that Camels are truly fresh. They're *made* fresh—not parched or toasted—and then they're *kept* fresh in the Camel Humidor Pack.

Try Camels' freshness for a change. Switch over for just one day, then change back—if you can.

CAMELS

Made FRESH—Kept FRESH

Don't remove the moisture-proof wrapping from your package of Camels after you open it. The Camel Humidor Pack is protection against perfume and powder odors, dust and germs. In offices and homes, even in the dry atmosphere of artificial heat, the Camel Humidor Pack delivers fresh Camels and keeps them right until the last one has been smoked
