IDEAL MAN—
(Continued from Page 1)

found out "Charley C." to be Edward N. Jones, of Troop A Cavalry. This young man must be very modest as to go under an assumed name. Furthermore, "Whattaman Jones" alias, Chaley C., has received several letters from the California femmes and is progressing rather well. Power to you, Whattaman!

SHOW TALK

By Phillip John

Thursday, Friday, Saturday—Palace—"Hell Divers."
Saturday 12:30—Assembly Hall—"Get-Rich-Quick Wallingford."
Saturday night—Assembly Hall—"The Spider."

Saturday preview, Tuesday, Wednesday—Palace—"Manhattan Parade."

Sunday, Monday—Palace—"Two Kinds of Women"—Laurel and Hardy in "Help-mates."

Wednesday—Assembly Hall—"Suicide Fleet."

Thursday—Assembly Hall—"The House Beautiful" (stage show).

Wallace Beery and Clark Gable are co-starred in "Hell Divers," an air picture made with the co-operation of the U. S. Navy. The picture presents a magnificent panorama of the eagles of the fleet, with a dramatic romance that adds heart interest to the best air sensations to be given on the screen. The cast is one of the mightiest to be combined in a picture: Wallace Beery, Clark Gable, Conrad Nagel, Dorothy Jordan, Marjorie Rambeau, Cliff Edwards, Marie Prevost, John Miljan, and many others of screen fame. The picture is a very early release.

"Get-Rich-Quick Wallingford," is another typical William Haines picture, in which he develops many easy money schemes that threaten to get him into trouble. Ernest Torrence as "Blackie," supplies another trained crook character for the picture. It is very cleverly done.

Edmund Lowe in another thriller, "The Spider," in which he is a famous magician, gives a typically good performance. A murder mystery runs through the picture, which is spiced with pseudo-science and trances.

The funniest characters on the screen promise to make you laugh in "Manhattan on Parade," a Broadway comedy hit, with Smith and Dale of the Avon Comedy Four, Winnie Lightner, Charles Butterworth, and a cast of 200 beautiful Hollywood girls. You'll enjoy this as one of the best comedies you have ever seen.

"Two Kinds of Women," is based on the play "This is New York," written by Robert Sherwood, former editor of Life. It is a good story of women, New York, painted to be very wicked, blackmail, murder, and romance, with Miriam Hopkins, Phillips Holmes, Stuart Erwin, and Irving Pichel, no longer a villain. Laurel and Hardy appear in a good comedy "Help-Mates."

"Suicide Fleet" is a thriller with William Boyd and Jimmy Gleason. The story is one of the war time navy, and has some good action scenes.

Wednesday, Thursday, Friday, Saturday, an added feature, Scenes and Pogeantry in the British Isles will be shown at the Assembly Hall.

Coming to the campus Thursday is Channing Pollock's "The House Beautiful," which promises to be one of the best plays brought here. It is sponsored by the Campus Theatre Club. The play is direct from New York, with an all-New York cast, featuring Ethel Irtopidi and John Griggs. The show opens at 8 p. m., at the Assembly Hall. Tickets are 75¢, \$1.00, and \$1.50. The support and attendance of students and campus residents is urged, that the club may be able to continue to bring notable productions to the college.

SWIMMING—

(Continued from Page 1)

ganized this year under the direction of R. M. Smith. The candidates who are showing well for the polo team are: J. E. Moeller, Larchement, N. Y.; C. J. Charske, Dallas; R. C. Jorgensen, Galveston; R. R. Osburn, Fort Sam Houston; Robert Brinsmade, Mexico City; E. N. Jones, C. K. Swanson, and G. H. Samuels, all of San Antonio; E. T. Knotts, Texarkana; and G. W. Shephard, Beaumont.

Although there is only one inter-collegiate meet on the schedule, the team will go against several strong clubs which are expected to offer good competition. Among those already on the schedule are a meet with the Houston Y.M.C.A.; Gulf Coast meet at Galveston; a polo game with the Dallas Athletic Club, and a meet for the

Freshman swimmers with Allen Academy.

Coaches Smith and Suggs stated that it was not too late for new members to come out for the team and that anyone who has aspirations of becoming a swimmer should come to the Y.M.C.A. swimming pool any afternoon after four o'clock.

FOOTBALL—

(Continued from Page 1)

Led by the brilliant Beckem, freshman halfback who scampered over, around, and through the opposition almost at will throughout the game, the First Artillerymen displayed class which is likely to prove devastating to the title hopes of several aspiring members in the present grid race.

With Hardy and Lightfoot clearing the path Beckem was a constant threat all afternoon. Although the Second Artillerymen were glaringly weak at the tackle posts, one guard position was well cared for by "Rosy" Sulak, whose play on both offensive and defensive left little to be desired.

Infantry Tie

Failing to capitalize on their "golden" opportunities to cross the other's touchdown stripe, both Infantry elevens showed a lack of scoring punch and the game resulted in a tie.

What appeared to be the deciding factor in the hotly contested affair, when "Peter" Ellis, First Battalion lineman, recovered a fumble on the Second Battalion's fifteen yard line, almost proved the former's undoing a few seconds later when McLean, Second Infantry end, broke through to intercept an attempted lateral pass and raced sixty five yards before being overtaken from behind. "Frog" Martin, First Infantry halfback made the tackle. Twice during the game Weller, First Infantry quarter, attempted to score by way of a field goal. Both trys went wide of the bar.

Martin and Puckett took the laurels for the First Battalion while Oscar Billimek was the mainstay for the Second's.

TEAM STANDINGS

Team	W.	L.	Pct.
First Artillery	2	0	1.000
Cavalry	2	0	1.000
Composites	1	1	.500
First Infantry	½	½	.500
Second Infantry	½	½	.250
Engineers	0	1	.000
Second Artillery	0	2	.000

2:30—Cav. vs First Inf.—Field 1
3:30—Comp. vs First Art.—Field 2

Einstein Goes To Mountains To Rest From Solar Study

(College News Service)

PASADENA, Calif.—Albert Einstein last week temporarily abandoned the music of the spheres for melodies he himself produced at a desert resting place south of here.

Enjoying a respite from his work, he spent several days at Palm Springs in the Imperial Valley, where several times he entertained other visitors with his violin. This week, however, he had resumed his studies at the California Institute of Technology and Mount Wilson Observatory.

C Engineers Lead In Close Race For Intramural Banner

Probably one of the closest races for participation points in the history of Intramural sports at A and M is nearing the midpoint with Company C Engineers at the top of the heap with a scant lead of two and one half points over second place. So tight is the fight that two of the first ten places, second and fifth, are claimed by more than one unit, the latter having three members tied for the position.

The results below are complete through basketball, speedball, rifle shooting and cross-country.

C Engineers	250
A Signal	247.5
Battery A Field Art.	247.5
Troop C	235
Company H	225
A Engineers	222.5
B Engineers	222.5
Battery A Coast Art.	222.5
Battery E	221.8
Company F Inf.	220

Eclipses Predicted For Coming Year

(Intercollegiate Press)

WOOSTER, O.—A meteoric shower, comparable to the historic shower of 1866, and four eclipses are included in the astronomical program for 1932, according to Professor B. F. Yanney, Wooster College astronomer.

The Leonid meteoric stream, believed residue of a comet, is to find the Earth in its midst this year. There will be two eclipses of the moon, on March 22 and September 14, almost total. Then there will be an annular eclipse of the moon March 7 and a total eclipse of the sun on August 31, which will be visible all over the United States.

Sugareff Speaks To Hillel Club

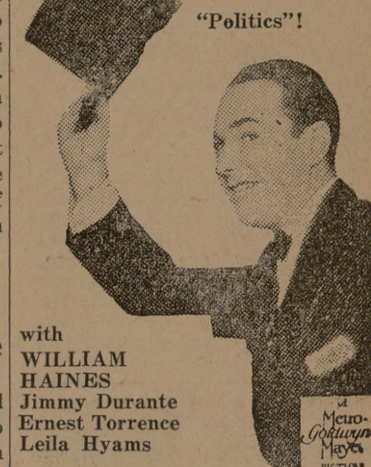

A talk on the history, customs, and mode of life of the Sephardic Jews of Monastier, Turkey, given by Professor V. K. Sugareff of the history department was the feature of a program at a regular meeting of the Hillel Club held January tenth. Talks were also given by D. V. Crumholz, M. J. Block, and Lewis Gross. Professor Sugareff answered questions of the club members regarding the topic of his speech at the close of the meeting. At the conclusion of the program the regular business of the club was discussed. An announcement was made which definitely set the date of the luncheon in honor of Rabbi Henry Cohen of Galveston at noon, February 7.

Dr. Gammon Speaks On Monroe Doctrine

Dr. S. R. Gammon, Jr. addressed the International Affairs Club Tuesday night, January 12th on "Some Aspect of the Monroe Doctrine." After his talk, questions were asked by members of the club. A committee was appointed by Professor V. K. Sugareff to arrange for speakers for the following meetings.

But the telephone conversation must not freeze

A sudden cold snap might seriously interfere with long distance telephone service were it not for the studies made by Bell System engineers.

They found that temperature variations within 24 hours may make a ten-thousandfold difference in the amount of electrical energy transmitted over a New York-Chicago cable circuit! On such long circuits initial energy

is normally maintained by repeaters or amplifiers, installed at regular intervals. So the engineers devised a regulator—operated by weather conditions—which automatically controls these repeaters, keeping current always at exactly the right strength for proper voice transmission.

This example is typical of the interesting problems that go to make up telephone work.

BELL SYSTEM

A NATION-WIDE SYSTEM OF INTER-CONNECTING TELEPHONES
