**Bears Defeat Aggie Tennis Teams For Fourth Season Loss**

The Baylor Bear's first tennis victory in several years was the fourth defeat for Coach Thomas' racquet wielders in as many starts this season when the Aggies met defeat last Saturday afternoon in Waco, the Bears winning three out of four matches. Rain halted the doubles matches, but Baylor was leading.

John Hill of Baylor downed Cunningham, Aggies, 6-1, 8-6. McCleary defeated Pete Roberson, Aggies, 7-5, 6-1, while Drake, Baylor, beat Bud Emery, Aggies, 6-1, 6-4. George Williams, Aggies, won the only match for the cadets in defeating Bradley of Baylor 7-5, 7-5.

Saturday the team goes to Austin to play the champion Longhorn netters, who last Saturday lost their first conference match in many years to Rice. The Owls boast the strongest team in their history, and are favorites to win the conference tennis title this year.

Aggie track hopes took another turn for the better Saturday afternoon when "Honk" Irwin, mighty weight man from Kosse and probable future shot-put champion of the conference, sent the 16-lb. sphere for a ride which measured fifty feet, after he had just previously put it 47 feet 7 inches. The fifty foot put gives "Honk" six puts which better the conference record of 48 feet 1/8 inch, held by Percy Burke of Rice. And the latest put gives evidence that just because he has improved in every meet save one, in six year's competition he still is trying to better his marks in each succeeding meet.

It is hardly questionable as to whether "Honk" will set a new record in the shot-put, but just what the distance will be is dangerous to predict. Progressing as he has to date it would not be surprising should he approach very closely the world's record in that event, which is slightly more than 52 feet.

While speaking of professional baseball prospects last week, Jinx Tucker, Waco sport scribe, stated that Paul Donovan of the T C U Horned Frogs was easily the best of the lot in the Southwest conference. Several others were mentioned in this resume but it seems to us that a grave injustice has been done to at least two Aggie ball players by our friend Mr. Tucker.

The reference is made regarding Capt. Lester "Squawk" Veltman and W. E. "Sweetie" Davis. Veltman is the leading hitter of the loop, a splendid fielder, and a wonderful man on the paths. It was none other than "Squawk" that dealt a telling blow to the pitching of De La Fuente, Texas Longhorn ace last season, which

eventually sent the latter to the showers and resulted in a championship for the Aggies. "Squawk" is not only a consistent but also a powerful hitter and should never be neglected by those scouts in search of major league talent.

"Sweetie" Davis proved his agility as a second sacker in that memorable game with Texas University last year when he repeatedly made sensational plays and batted near .350 for the season. Although he is now on a losing club his average with the stick is better than .400 and his fielding average very nearly perfect. He is second best hitter on the Aggie ball club, being bested only by Veltman, and one of the best in the loop. He is probably the smoothest second baseman in the circuit and has a dependable arm under the most adverse conditions. Certainly no professional team of class A rating could do itself an injustice by giving "Sweetie" a chance, and the same may be said for "Squawk."

The next conference track champion will probably be decided Saturday afternoon when the Aggies, Texas Longhorns and Rice Owls tie-up in a triangular meet at the Longhorn stadium. The Longhorns recently defeated the Owls by a score of 70 to 52 in a dual meet at Rice, upsetting the dope and handing the Institute men their first set back since the start of last season. The Steers are as yet undefeated this season. Both Rice and Texas are exceptionally strong in the sprints and middle distances, Baldry and Burke are due to gain some points in the weights and field events, while Texas should take a first in the javelin.

While the cinder-men will be competing with the Owls and the Steers in Austin, the diamond men will put forth their best efforts to eliminate their age old rivals from

the baseball race, they themselves being already out of the running.

The Aggie freshman relay team, of approaching fame we hope, continues to show the varsity how, and "up." The freshmen beat both the varsity and Conroe high school decisively in an informal meet Saturday afternoon. The first year boys have covered the 440 yards in 43.3 seconds on the A & M track, which is not considered to be slow.

**Models Will Replace Drawings In Beaux Arts Competitions**

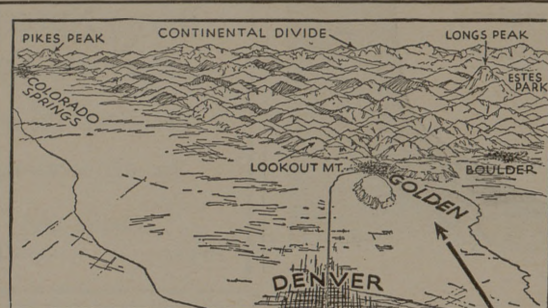

Because of too much emphasis being placed on clever presentations of problems, the directors of the Beaux Arts Institute of Design have announced that architectural students will submit models of their designs instead of drawings next year.

This announcement was made at the first annual meeting of the Association of Collegiate Schools of Architecture, according to Ernest Langford, head of the department of architecture, who attended the meeting in Washington, D. C., last week.

**DO YOU INHALE?**

Why is this vital question so much avoided by other cigarettes?

EVER since Lucky Strike created that special process for purifying fine tobacco and told the full facts about cigarette smoking—the industry has been in an uproar. For Lucky Strike has dared to mention things that were considered "taboo" in the cigarette trade.

You may have noticed a striking avoidance generally of the word "inhale" in cigarette advertising. Why? Goodness only knows! For everybody inhales—knowingly or unknowingly! Every smoker breathes in some part of the smoke he or she draws out of a cigarette.

That's why it's all-important to be certain that your cigarette smoke is pure and clean—to be sure you don't inhale certain impurities.

Do you inhale? Lucky Strike has dared to raise this vital question—for it gives you the protection you want . . . because certain impurities concealed in even the finest, mildest tobacco leaves are removed by Luckies' famous purifying process. Luckies created that process. Only Luckies have it!
