of speeding motorists on the campus: It would be a wise move, per- haps, to replace the speed limit signs with others which read "Pedes- trians Have The Right of Way" for surely where the number of pedes- trians so greatly exceeds the number of automobiles, as is the case on the A and M campus, the pedestrians should have the right of way. The regulation of the speed of the automobiles would be up to the drivers of the vehicles if the authorities of the college held those drivers responsible in case of injury to those who must travel about the campus on foot, with no element of speed entering into the ques- tion	Volunteers was announced by L. played on our home court. Undoubtedly the reputation for fairness and good sportsmanship, both on the athletic field and in the grand- stand, that A and M has long enjoyed is the best of our time-honored traditions. To spoil it would mean the loss of a worthy tradition and of considerable esteem of ex-students and other Aggie supporters. It is perfectly natural that in the heat of a closely contested game, players and spectators should become so enthusiastic as to require some will power to conduct themselves in a sportsmanlike manner. However, continual 'booing'' of referee decisions and jeering of oppos- ing players, such as was seen at the recent basketball games, is not only unsportsmanlike but also creates an added handicap for the visit- ing team. ## Coal . . . silk stockings . . . meat -and the telephone

is early aware of the problems of business, large and small, Bell System commercial men are constantly devising special telephone plans to customfit service to the user's needs."

For example, a plan they worked out for a coal distributor helped him to contact 50% more dealers. A manufacturer, using a telephone selling plan, sold 700 dozen pairs of hosiery through one Long Distance call. A great meat packer handles complex sales and distribution problems efficiently with the aid of planned Long Distance and private wire services.

Systematic telephone plans are helping many users to build business - cut costs - handle collections - unify nationwide organizations - increase profits. And Bell System men are seeking still other ways to make the telephone more useful.
