

## Art Exhibit Is Being Shown At College Library

Photographs and Sketches To Be Exhibited In Conjunction With Arts Display.

Exhibiting one of the most interesting collections of paintings of the year, the annual Travelling Exhibition of the Texas Fine Arts Association was put on display Monday on the third floor of the library. This exhibit, which is made up entirely of the work of Texas artists, includes thirty-nine oil paintings, nine water colors, and nine prints. The display will remain in the library until April 1st, according to Ernest Langford, head of the department of architecture.

In connection with this exhibition, the department of architecture is presenting concurrently a series of forty photographs and original sketches in the library. Thirty of these photographs were given by Atles B. Ayres of San Antonio to the department of architecture, and represent some of the most interesting buildings of the world. This collection was made by Mr. Ayres a few years ago while he was on a tour around the world. Mr. Langford said. Five of the number shown in the architectural department are originals by E. M. Schwetz of Houston, a graduate of the architectural department ten years ago.

### Athlete Injured

A pulled muscle received last Thursday in practice will probably cause W. B. Hooser, sophomore sprinter from Seymour, to be unable to compete in any meet this season according to "Doc" Sprague, Aggie trainer.

Coach Anderson said he had counted heavily on using Hooser, who had developed into one of the best dashmen on the team, in the 100 and 200 yard races, and in the sprint relay. As a result of the loss of Hooser, Coach Anderson will probably use one of the hurdlers in the sprint relay.

## Intramural Contests Well Under Way With Activity In 5 Sports

Intramural athletics are in full swing with five sports well under way and three additional activities ready to start. Competition in volley ball, singles and doubles handball, horseshoe pitching, and wrestling, has reached the final stages while the boxing, golf, and tennis contests are scheduled to begin during the next week.

Companies "B" and "H" Infantry won their way to the finals in volley ball and will meet soon for the college championship.

In the horseshoe pitching finals of the various leagues, Company D Infantry won the championship of league A. Battery "D" Field Artillery won in league B, and Battery "C" Field Artillery was victorious in league C. When the winner of the championship of league D is determined, the semi-finals and finals will be played off for the college championship in that sport.

Due to sickness of some of the contestants, the singles and doubles tournament in handball have been delayed and the competition has not yet advanced far enough to determine the finalists in this activity.

Through the elimination of the weaker contestants in wrestling, the matches are becoming more interesting and hard fought each day. A slightly different plan is being followed this year in connection with this sport in that the matches are held each day instead of on alternate days as was the case last year. This new procedure enables the contestants to give more concentrated attention to the sport and does not require them to wait several days between matches.

### Baby Boy Is Born To Wife of E.E. Student

An eight pound boy was born to Mr. and Mrs. W. O. Luse of Dellwood Addition (on the Bryan-College highway) the evening of March 11.

Luse is a senior student in electrical engineering and a member of the class of '29.

## Dates Announced For Examinations In Cotton Contest

Mogford Releases Complete Schedule for Benefit of Students Intending To Compete for Trip.

The schedule of examinations for this year's Agricultural and Mechanical College of Texas Cotton Contest, as received from J. S. Mogford, professor of agronomy, is as follows:

1. Cotton Machinery—Wednesday, April 12.
2. Cotton Production—Saturday, April 15.
3. Cotton Disease—Tuesday, April 18.
4. Cotton Insects—Tuesday, April 25.

### ILLUSION:

A large packing case is exhibited on a raised platform. A young woman climbs into the box. Head, hands and feet protrude, and are held by spectators while the magician takes a crosscut saw and, with the help of an assistant, saws through the center of the box and apparently through the woman.

### EXPLANATION:

There are many explanations for this illusion. One method of performing this illusion requires the presence of two girls in the box. One girl curls up in the left half of the box with her head and hands protruding, giving the effect you see illustrated above. The other girl is doubled up in the right half of the box, with only her feet showing. Nobody is sawed in half.

## It's fun to be fooled — ...it's more fun to KNOW

Cigarette advertising, too, has its tricks. Consider the illusion that "Flavor" can be achieved by some kind of magical hocus-pocus in manufacturing.

**EXPLANATION:** Just three factors control the flavor of a cigarette. The addition of artificial flavoring. The blending of various tobaccos. And the quality of the tobaccos themselves.

Quality is by far the most important. Domestic cigarette tobaccos vary in price from 5¢ a pound up to 40¢ a pound. Imported tobaccos vary from 50¢ a pound to \$1.15.

No wonder, then, that cigarettes differ in taste—since distinctive, pleasing flavor depends so largely upon the blending of the costlier tobaccos.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

Try Camels. Give your taste a chance to sense the subtle difference that lies in costlier tobaccos... a difference that means all the world in smoking pleasure... in pure, unalloyed satisfaction.

NO TRICKS  
.. JUST COSTLIER TOBACCOS  
IN A MATCHLESS BLEND
