A and M Students Conroe oil fields. Professors M. C. Dillingham, and R. R. Ward also made the trip with the students. Professor R. L. Mills accompanied the petroleum production students to Houston for a three day Prizes Saturday Trips This Week to the students in that city.

Six Departments Sponsor Annual Inspection Tours To Texas Cities.

Approximately 160 students, representing the civil, chemical, electrical, and petroleum production engineering department, the landscape architecture department, and the accounting and statistics department, are visiting the leading business houses and industries of the state the first part of this week for the inspection of their fa-

Forty civil engineering students, accompanied by Professors J. T. L. McNew and E. W. Steel, spent Monday in Dallas and will spend today and Wednesday in Fort Worth. While in Fort Worth and Dallas they are to visit many places of interest to the civil engineering student.

Professor N. M. McGinnis, with five landscape architecture students, planned to spend today in Ft. Worth and Menday and Wednesday in Dallas. They planned to visit nurseries and large estates in both Dallas and Fort Worth.

Thirty-four chemical engineering students with Professors M. K. Thornton and F. F. Bishop were also to spend Monday, Tuesday, and Wednesday in both Dallas and Fort Worth, visiting laboratories and other points of interest.

Electrical engineering students were to visit Houston Monda, Tuesday, and Wednesday, after spending Sunday afternoon in the

Step out into the sunshine

of leadership

COLLEGE leaders usually have a lot of energy. Their vitality and enthusiasm puts them first in classroom and campus. The real secret of their success is good health.

Poor health is so often due to common constipation. It may cause headaches, loss of appetite and energy.

Banish this condition by eating Kellogg's ALL-BRAN. Two tablespoonfuls of this delicious cereal daily are usually sufficient. ALL-BRAN provides "bulk," vitamin B and iron. Ask that it be served at your fraternity

The most popular ready-to-eat ce-reals served in the dining-rooms of American colleges, eating clubs and fraternities are made by Kellogg in Battle Creek. They include Kellogg's Carn Flakes, PEP Bran Flakes, Rice Krispies, Wheat Krum-bles and Kalloga. bles, and Kellogg's WHOLE WHEAT Biscuit. Also Kaffee Hag Coffee— real coffee that lets you sleep.

Accounting and statistics students will visit Houston, Sugarland, and Freeport while on their inspec-

This contest will be held about the middle of May, and the winners will be awarded gold prizes given by the merchants of Bryan and College.

Santa Fe Railway Offers Trips To 4-H Club Students

Free Trips To Chicago and To Kansas City To Be Given Agriculture Students.

By offering prize trips to the national 4-H club congress in Chicago and the national congress of vocational students in Kansas City, both to be held in November, the Santa Fe Railway system is continuing its support of 4-H club and vocational agricultural work, W. B. Storey, president of the company announced, according to advice received by President T. O. Walton, of A and M College. As in the past, these prize trips will be awarded vocational agricultural students and club boys in counties served by the railroad system. Winners will be determined on a competitive basis, the extension service of the college and the state board of vocational agriculture conducting the contests.

Fifty-eight 4-H club prize trips will be awarded in cooperating states to winners in the contests conducted by club leaders of the agricultural colleges; nineteen of which will go to Texas boys. Five of forty-five prize trips will be awarded in Texas to vocational students making up the champion stock judging team. Each stock judging team includes three members, an alternaae and a coach.

Prizes will be in cash sufficient to defray all expenses of the trip. The 4-H Congress in Chicago will be held at the time of the International livestock show and the vocational congress in Kansas City at the time of the American Royal livestock showt

These trips have been offered by the Santa Fe for several years and approximately 800 boys and girls have won Santa Fe prize trips so

Preliminaries In The **Mathematics Contest** To Be Staged Tuesday

Cver smoke "whittle"

Well...here it is ... already whittled FOR you. Granger Rough Cut is tobacco whit tled right . . . that's one reason why it burns so slow and cool.

V/HEN we started to make Granger Rough Cut we knew that fine tobacco burnt hot because it burnt so fast. It kept your pipe hot. You could hardly hold your pipe in your hand, it got so hot at times.

Then we remembered that some folks back yonder used to "whittle" their tobacco. So we made GRANGER just like "whittle" tobacco - "Rough Cut." It smokes cooler and lasts a lot longer. And also, you'll find it never gums the pipe.

So far, so good. Now we wanted to sell this tobacco for 10c. Good tobacco-right process-cut right. It was a question of how to do it for the price.

So we put GRANGER in a sensible soft foil pouch instead of an expensive package, knowing that a man can't smoke a package. We gave smokers this good GRANGER tobacco in a common-sense pouch for 10c.

GRANGER has not been on sale very long, but it has grown to be a popular smoke. And there is this much about it -we have yet to know of a man who started to smoke it, who didn't keep on. Folks seem to like it.

Liggett orllyers Tobacco Co.
