Old Horse Barn Is Replaced By Brick Buildings

\$25,000 Structure Replaces Old Frame Barn Used By Animal Husbandry Dept.

The horse division of the animal usbandry department has moved into the new \$25,000 brick barn located south-east of the animal husbandry pavillion. This new building replaces the old frame barn that has been used by the department since 1902, D. W. Wil liams, head of the animal husbandry department, said today. The frame building was recently razed to make room for the new administration building now under construction.

The new barn has a lebby with built-in trophy cases on either side. There are fifty-six stalls, fourteen of which have concrete flooring and the remainder have clay. The building is equipped with a blacksmith shop, carriage room, wagon shed, wash rack, and sevfacilities are provided on the second floor and chutes to the lower Students and Members of floor afford the minimum of handling. When proposed wings are added, the building will face a court with a 125 yard exercise and exhibition track.

Wrought iron grills used on exhibition stalls were outstanding. The grill work and the two weather vanes on the roof were designed by S. C. P. Vosper, of the college architect's office, and hand-made by Theodore Voss Metal Company
