IDLE RUMORS

THE ANCIENT MAROONED

And again that perennial college student, Judson "Chief" Loupot merits our special attention. Yesterday when entering Bizzell Hall, some vandal who has no respect for college landmarks emptied a bucket of water on the "Chief's" head. A search of the entire building proved fruitless, so Loupot left. When he made his exit from the building, the same vandal again dumped a bucket of water on the luckless Loupot's head. By this time "Chief" discovered that the water was coming from the roof of the dormitory and immediately dashed upstairs to apprehend the culprit only to find him gone. And in the interim the same culprit had locked the only exit from the roof leaving Loupot marooned on the roof of the hall where he consequently stayed for several hours as no one would unlock the exit.

SATCHLUCK!

M. C. "Angus" McCleod, first satch of "H" Company, is now gnawing his nails over a loss which he incurred indirectly. Not so long ago, the first-booter bought a sen-

BAND TRACK MEN PLACE FIRST IN INTRAMURAL RACE

Most and Terrell Account for Two First and Two Second Places for Musicians.

Intramural track honors went to the Band Sunday afternoon when representatives from that organization took two first places, two second places, and one fourth place to total twenty points in the annual intramural track and field meet held on Kyle Field. M. F. Noster, Bay City, and T. H. Terrell, El Paso, figured largely in the victory for the Band, each man taking a first and second place, and Terrell also winning one fourth place.

Second place in the meet went to Company "B" Infantry with eighteen points. Following closely came Troop "D" with seventeen and one half points; Company "H" Infantry with sixteen and one half points, and Company "G" Infantry with fifteen points.

Terrell of the Band won high point honors with his total of eleven points, winning his first place in the broad jump, second in the 220 yard hurdles, and his fourth in the 100 yard dash.

The summary is as follows:
100 yard dash: E. E. Stansel, "C" Infantry; O. P. Walker, "A" Artillery; C. B. Hussey, "F" Artillery; T. H. Terrell, Band; N. O. Thompson, "A" Artillery; Time: 10.7.
220 yard dash: W. D. Collins, "E" Infantry; J. E. Roberts, "C" Infantry; M. O. Crow, "D" Infantry; C. B. Hussey, "F" Artillery; B. O. Mayberry, "B" Artillery; Time: 23.4.

440 yard dash: Ray Murray, "B" Infantry; H. Mears, "H" Infantry; McCutcheon, "B" Cavalry; R. J. Hodge, "B" Infantry; M. M. Dikeman, "B" Cavalry; Time: 55.3.
880 yard run: Ed Reichardt, "B" Artillery; M. V. Stuterville, "A" Artillery; W. E. Spencer, "F" Artillery; Ray Murray, "B" Infantry; E. C. Roberts, "A" Cavalry; Time: 2:15.9.

ior ring, had a diamond set in it, and presented it to a certain young lady in his home town, who was to keep it for him until next year. This past week he was horrified to find that the home of the young lady had been burglarized and his ring was among the articles missing.

IN UHR HAT

The Brother-Aggie spirit as we learned it is not yet dead! Robert Uhr, signal corps senior, the unit's foremost exponent of classical teapanning, is awarded the leather medal for his muscling-in promiscuities with a fellow E.E.'s girl friend. This loathario of the dot-dash boys met the other Aggie's girl friend at the E.E. dance not so far back and was so smitten that he has transformed himself into a door-stop at the young lady's home in Houston. The zenith of his activities was attained during the inspection trip to Houston when upon finding that the young lady had a date for the night with the other Aggie, he stayed at her home until the other called, and then stayed there and played checkers with her parents until she returned. What-a-man-Uhr. Get it?

Mile run: C. L. Herfurth, "C" Artillery; C. H. Rollins, "B" Engineers; E. M. Bradberry, "B" Cavalry; A. P. Morkovsky, "H" Infantry; R. A. Barnard, "A" Engineers; Time: 5:52.

120 high hurdles: H. E. Meisell, "B" Engineers; R. F. Hartman, "H" Infantry; W. Echols, "B" Artillery; E. Stutes, "B" Engineers; J. M. Davis, "F" Artillery; Time: 18.9.

220 low hurdles: J. K. Davidson, "D" Cavalry; T. H. Terrell, Band; R. R. Simpson, "H" Infantry; H. E. Meisell, "B" Engineers; N. B. Allen, "D" Artillery; Time: 27.3.

Broad jump: T. H. Terrell, Band; W. D. Collins, "G" Infantry; W. G. Allen, "D" Artillery; L. C. Roots, "C" Engineers; C. H. Rollins, "B" Engineers; Distance: 21 feet 9.5 inches.

High jump: R. E. Duhon, "C" Engineers; D. H. Barton, "H" Infantry; C. D. Ritter, "B" Infantry; Height: 68 inches.

Pole vault: J. K. Davidson, "D" Cavalry and W. L. Boothe, "B" Coast Artillery; tie for first; C. O. Dalton, "E" Artillery and F. F. Hansen, "B" Cavalry tie for second; W. D. Collins, "G" Infantry; Height: 11 feet, 8 inches.

Javelin: W. N. Hickman, "D" Cavalry; C. J. Anderson, "A" Artillery; M. A. Stinson, "A" Infantry; L. D. Brown, "A" Engineers; J. H. Frick, "A" Engineers; Distance: 151:10.

Discus: M. F. Noster, Band; C. D. Ritter, "B" Infantry; C. G. Haynes, "F" Infantry; A. P. Callahan, "B" Artillery; T. S. Post, "A" Coast Artillery; Distance: 116.
Shot Put: C. G. Haynes, "F" Infantry; M. F. Noster, Band; W. N. Hickman, "D" Cavalry; C. D. Ritter, "B" Infantry; C. E. Marcum, "A" Artillery; Distance: 38.8.

An ice-water test has been developed to find in early life of an individual a tendency toward high blood pressure. This allows the prospective high blood pressure patient to care for himself before the infirmity is upon him, and possibly escape it.

Final International Affairs Discussion Here Tuesday Night

S. R. Gammon, Jr., head of the history department, lead the discussion on the Far East question last night at the final meeting of the International Affairs Club. The meeting was held in the parlor of the Y. M. C. A.

Emphasis was placed on the local developments and the international slant on the question since the Japanese invasion of Jehol.

Along the Sidelines

By E. L. WILLIAMS

A conference dark horse looms up in the coming Southwest Conference track and field meet to be held in Austin on May 12 and 13. It is the University of Arkansas, who, unheard of in a track way for the past several years, is planning to attend the meet with the strongest track and field team in the history of the Razorback institution.

Ralph La Forge, Hog gridiron and sprint star, was the biggest reason the Razorbacks had for defeating the Tulsa University team in Fayetteville the other day on a muddy field 86 1/2-35 1/2. La Forge took first places in both the dashes and added points in the javelin and 880-yard relay to cop high scoring honors for the day.

Though Arkansas may have the best team in the history of the school it will be a fairly safe bet that they will not be able to compete on even terms with A and M, Texas, and Rice, between whom the race will be decided. And just which one of these three will come out on top is hard to say. When one track team beats another, and then loses to still another bunch, the last winner most of the time is the best of the trio, but when these three teams are defeated by one of the others all the way around, then the going is hard.

Such is the present tangle among the conference favorites. The Aggies decisively trampled the Longhorns, and then lost by a narrow margin to the Owls. The Longhorns came back strong and defeated the Feathered Tribe. Against these three teams, none of the other schools in the loop have been able to make a good showing. With three on an almost even footing, it seems that a few breaks along with points taken by the weaker schools will decide who will be the new track and field champion of the Southwest.

Rice's hopes for the crown were dimmed somewhat last week when Ed Holloway, sprinter de luxe who was good for 10 points in any meet in this section of the country, pulled a muscle. Unless he is back in shape for the big meet, Rice stands to lose several points, and the dashes will be between Meyers of Texas, Goddard of Baylor, La Forge of Arkansas, Belcher of S.M.U., and Kohler of A and M. Each of these sprinters pace off the dashes in very creditable time.

"Honk" Irwin has a grievance because of losing two gold watches last week. Not that he really had these time pieces, but according to this weight heaver, had he been able to attend both the Drake and Penn Relays held last week in Iowa and Pennsylvania respectively, he would have been able to win a watch in each place. The distance that won at either meet were far beneath those that Honk's consistent heaves of the weights. This Kops product probably would have given the boys up there an insight on how the shot and discus are handled in the South.

Campus Personalities

JAMES OTIS CHANCE, JR.

James O. "Jimmie" Chance, a true campus personality, was born in Bryan, on February 17, 1902. An illness at the age of three months resulted in the loss of his hearing, and though he has suffered this handicap since that time he has progressed in a manner that would speak well for those not so afflicted. He lived in Bryan with his parents until seven years old. Jimmie received his grammar school education at the Clarke School for the Deaf at Northampton, Massachusetts, and the Pennsylvania School in Mounty Airy, Philadelphia. His secondary education was received at the Davidson Individual School for the Deaf in New Hampshire.

At the Texas School for the Deaf in Austin, Texas, Jimmie obtained his advanced education. Here he studied the printing trade, working in the summer for the Eagle Printing Company in Bryan. Upon graduation he secured employment with the Howell Lumber Company in Bryan and is still employed by that firm.

Today Jimmy is one of the mainstays in Aggie sports. He is present at virtually all athletic events whether on Kyle Field or in foreign territory and has his own method of making the teams realize his support. His favorite sport is football.

Jimmy is a bachelor and is at present living with his brother, George G. Chance, in Bryan.

Members of Science Seminar Addressed

By Dr. E. N. Schochs

"Recent Advances in Atomic and Molecular Structure," was the subject used by Dr. E. N. Schoch, head of the department of chemistry at the University of Texas in an address to the Science Seminar Monday night in the lecture room of the physics building. Dr. L. G. Jones, professor of Agronomy and acting chairman for the evening, introduced Dr. Schoch.

Dr. Schoch dealt chiefly with the spectrum and its chemical significance, the atom and its structure, and the chemist of tomorrow as compared with the chemist of today. "The best teacher of chemistry today," Dr. Schoch said, "is the physicist who studies atomic and molecular structure."

Youth is ever in revolt, age alone brings resignation.—James Huneker.

Plans Complete For Final Ball And Junior Prom

Final Ball Will Feature A War Dance Between Serenaders and Aggieband.

With the selection of the Aggieband Orchestra and the Campus Serenaders to play for the final ball, junior prom and junior banquet, the junior class completed the plans for final social affairs at A and M to be held June 1st and 2nd. It was decided that the Campus Serenaders would play for the junior banquet, which is to be held Thursday evening, June 1, from 6 to 8:30 o'clock, and the Aggieband will play for the junior prom on the same night from 9 until 2 o'clock. Both orchestras are to play a war dance at the final ball on the following night, Friday, June 2.

Admission to the junior banquet will be to juniors only, while both juniors and seniors will be admitted to the junior prom. All students are eligible to attend the final ball.

Term examinations in all 300 courses which were scheduled for Friday, May 2, have been changed to the preceding week in order not to interfere with the juniors who wish to attend the junior prom. A schedule of these examinations is posted on the bulletin board in the main building, according to E. J. Howell, registrar of the college.

The price of admission to these three affairs has been greatly reduced over last year's prices, according to H. C. Wendler of Boerne president of the junior class.

River Severn Tidal Wave To Be Utilized For Electric Power

London—(IP)—A gigantic scheme for harnessing the tidal water of the River Severn to generate electric power is being outlined here.

It is contained in the final report of a committee appointed in 1925 by Stanley Baldwin, then prime minister, to investigate the possibility of constructing a barrage on the estuary.

The estimated cost of the project would be in the neighborhood of \$186,750,000 at the normal par value of the British pound.

It would take about fifteen years to complete the project.

Return of 3.2 Beer Greeted At Vassar

Poughkeepsie, N. Y.—(IP)—The coming of legal beer was hailed by many Vassar College students in the manner appropriate. Several tea rooms and inns near the campus of the women's college began to sell the amber 3.2 per cent fluid.

Then the faculty-student committee of the college got its heads together, and a notice went up on the college bulletin board.

It said that beer no longer could be sold or consumed on the campus.

Fish Nine Opens Season With Two Wins Over Lions

Visitors Make Only Two Hits In Second Game From Martinez.

The Texas Aggie freshman nine opened their current season last Friday and Saturday afternoons by sweeping a two game series with the Giddings Lions on the Kyle field diamond. The freshmen slugged their way to a 9-5 decision in the first tilt and won a pitching dual in the second, 5-0.

After trailing in the early stages of the first game, the fish cinched the fray in the sixth frame by collecting 5 hits to score 5 runs. The game was ragged throughout, the fish having 7 errors to their credit, and the Lions 6. The freshmen found Hazelwood, Lion backstop, wild on his throws and stole eleven bases.

Maxwell Proctor, freshman hurler from Dallas, got off to a bad start but settled down after the third stanza to hold the visitors to 7 hits.

"Marty" Martinez, former Allen Academy pitcher from Hebronville, held the edge on Heck, Giddings pitcher, in a pitching duel in the second game. While holding the Lions scoreless, Martinez allowed but two hits, one in the eighth and the other in the ninth frame. Both pitchers were credited with 13 strikeouts. Heck yielded but 6 hits, none of the counters being earned runs. The freshmen had a perfect day in the field, while the visitors made 5 errors. With two out and the bases loaded in the seventh inning Nat Patton, freshman shortstop from Crockett, put the game on ice by hitting a double to deep center, scoring 3 runs.

When a man commences to feel what it is to be young, he is beginning to grow old.—Hearne.

Co-eds Shipwrecked On Chirikof Island Rescued By Cutter

If you want to know anything about being shipwrecked on a desert island, you can get a pretty good idea what it's like from the Misses Hilda Gale Green and Frances Meusel, former co-eds at the University of Washington, who have just been rescued, along with others, from a winter on the bleak Chirikof Island off the coast of Alaska.

The two girls spent two months on the island, and the amount of wild cattle they had to eat to keep going has lost for them all interest in tenderloins and T-bone steaks.

The girls were members of the Jack McCord party which sailed from Seattle on the little schooner Dorothy in search of gold. After leaving the girls and five other members of the party on the island, the Dorothy was wrecked, leaving the party with two week's supply of food.

It was not until late in February that the coast guard cutter Tallapoosa took them off the island.

America still is the country freest from racial and religious prejudices.—Rabbi Barnett R. Brickner.
