

## PRE-MEDS ELECT HERMANN LEADER FOR '33-'34 TERM

Club Plans To Have Local and Out-of-Town Doctors Appear At Meetings.

R. C. Hermann, Yeakum, Battery D Field Artillery, was elected president of the Pre-Medical Society at the society's first meeting of the year held Monday night, October 9, in the Science Hall.

George Woodfin, Paris, was elected vice-president; C. H. "Skinnie" Winkler, Jr., College Station, was elected secretary-treasurer; and R. O. Berry, associate professor in the biology department, was elected club sponsor.

A program committee composed of G. E. Wise, Palestine, B. Kimball, Paris, and T. O. Walton, Jr., College Station, was appointed.

The club plans to have local and out-of-town doctors appear and speak at its meetings.

## S. S. Morgan Awarded Doctor's Degree In English At Ohio U.

Terminating a seven year investigation of the late eighteenth century, S. S. Morgan, professor of English was awarded the degree of Doctor of Philosophy at Ohio State University this summer, following a final preparation of six weeks at that school under the direction of his adviser, Dr. M. O. Percival. Dr. Morgan gave to his thesis the title, "Social Problems in the Drama of the Last Quarter of the Eighteenth Century."

Having been awarded a summer scholarship to Harvard, Dr. Morgan found the majority of his material for his compilation while doing research work at that college.

Dr. Morgan took a B. A. degree from the University of Cincinnati in 1926, and a M. A. degree from the University of Ohio in 1927.

## Earl White Elected Chairman of Local Chapter of AIEE

R. E. White, Henderson, was elected chairman of the local chapter of the American Institute of Electrical Engineers at the initial meeting of that organization, which was held in the lecture room of the Electrical Engineering Building Thursday night, October 5. The position of chairman corresponds to that of president in similar societies. R. Roderick, Dodd City, was elected secretary-treasurer for the current year.

The remainder of the meeting was spent in outlining the aims and purposes of the institute and was conducted by N. F. Rode, professor of electrical engineering. The local chapter is planning a joint meeting with the Rice Institute branch sometime during the spring. At that time members of the two chapters will deliver papers on subjects of mutual interest.

## ARCHITECTS BUY VALUABLE BOOKS FOR LIBRARY USE

Approximately \$1000 Worth of Valuable Volumes Are Shelves in the Architectural Library.

Architectural books representing a total expenditure of approximately one thousand dollars have been catalogued and placed in the architectural library on the fourth floor of the old Main Building. Ernest Langford, head of the department, says that this acquisition to the department's library is one of the biggest accomplishments realized during the year. In addition to the books, there are some two thousand lantern slides that will be used in various courses, particularly the history of architecture.

Among the most valuable of the new volumes are: "Propylaen Kunstgeschichte", in sixteen volumes, and "Organia", a complete set of the great monographs on St. Marks in Venice, in fifteen volumes, both of which were purchased from A. Zwemmer, Book Publishers, London. Mr. Langford recommended "Antiquities of Athens" by Stuart and Revett, "Antiquities of Iona" as published by the Dilettanti Society, "Edifices of Ancient Rome", Canina, Gurlietti's "Die Baukunst des Constantinopel", and Poley's "St Paul's Cathedral" as exceptionally beautiful volumes. The latter group of books was purchased from B. T. Batsford, Limited, London.

## Over \$5000 Worth of Equipment Added To College Hospital

At a cost of more than five thousand dollars, the college hospital has been refurnished throughout and a new hot and cold water system installed. Ice-water fountains have been placed on each floor.

Ceiling fans in every room will aid in securing a more efficient system of ventilation. J. E. Marsh, college physician and hospital head, announced. A modern tile kitchen with up to date equipment replaced the old furnishings.

This year the nursing staff of the hospital has been augmented with a technician in the person of Florence Banderstey, formerly of Atchison, Kansas.

The word "gin," as it applies to the cotton gin, is said to be a negro corruption of the word engine. Eli Whitney's invention of the gin in 1793 brought cotton to the fore because up to that time all spinning was hand work. A workman could separate only a pound of fiber from the seed in a day.

## INSPIRATION

By THOMAS ARKLE CLARK  
Late Dean of Men,  
University of Illinois.

Few of us realize, I am sure, to what extent the faith and confidence of those who are behind us, who are depending upon our carrying on, has upon our actions. Inspiration of one sort or another is at the bottom of most success.

It was at a football game years ago when Illinois was playing Chicago, and Hersberger was captain of the University of Chicago team, and it was upon him and his leadership apparently that the success of Chicago depended, when the incident happened which illustrates my point. The game had hardly begun when the brilliant captain's ankle was broken and he was carried helpless to the sidelines. It was the most serious accident which could have happened. Without Hersberger the game seemed lost and the team went back into the scrimmage despondent and almost helpless. But all the time there was Hersberger lying on the sidelines and he became at once the inspiration of the crippled team. As they lined up for play some one called out, "Remember Hershey, fellows," and that was the slogan which throughout the game urged them on to victory. For Hersberger, crippled and out of the game as he was, was the inspiration which brought his team to victory.

Few of us work for ourselves alone. Behind us there is some one urging us on, putting faith in our accomplishments, believing that we will do something worthy of praise.

It was Felton's wife who was his inspiration. Naturally he was shy, unaggressive, and kept himself in the background. It was she who brought him out, who recognized his strong points and urged him on to make the most of them. He was cleverest and brightest when she was sitting near. He pushed himself ahead because it pleased her to have him receive recognition. She really made a new man out of him. He followed her to the grave very quickly, for they had no children and when she was gone there seemed nothing to work for. His inspiration was gone.

## Burke Elected Head of Local Veterinary Medical Association

W. Z. Burke, Temple, captain of Troop A Cavalry, was elected president of the Junior Chapter of the American Veterinary Medical Association at its first meeting Monday night, J. O. Whitehead, Smith Point, was made vice-president, and M. E. Gale, Concordia, Kansas, was elected to the post of secretary-treasurer.

Three sergeants-at-arm were elected: J. W. Upchurch, Mart; G. L. Andrus, Galveston; and W. B. Rogers, College Station.

## Horticulture Club Holds Meeting To Plan Floral Show

Plans for a horticulture show to be held in the basement of the Agriculture building during the week before the Christmas Holidays were discussed Thursday night at the first meeting of the Horticulture Club. C. D. Ritter, LaFeria, presided at the meeting.

In addition to a large number of displays the work done in the horticulture department, leading florists and nursery men of the state will be invited to enter exhibits in the show.

## Zimmerman To Lead Architectural Club For 1933-34 Term

K. E. Zimmerman, Coleman, was elected president of the Architectural Club at a meeting of that club held last Thursday night. Other officers elected at the meeting were G. L. Ingram, Nederland, vice-president; R. L. Kerr, Amarillo,

secretary and treasurer; and J. A. Worley, Dallas, sergeant-at-arms. Plans formulated for the year's activities of the club included tentative plans for the annual Beaux-Arts ball to be held in the early Spring.

A larger enrollment than ever before enjoyed by the club was present at the first meeting of the current year, and indications are that this will be the most successful year the club has experienced.

Tell me  
something..

what makes  
a cigarette  
taste better

WHAT makes anything taste better? It's what is in it that makes a thing taste better.

CHESTERFIELDS taste better because we buy ripe tobaccos. These ripe tobaccos are aged two and a half years—thirty months. During this time the tobaccos improve—just like wine improves by ageing.

CHESTERFIELDS taste better because they have the right kind of home-grown tobaccos and Turkish Tobaccos "welded together."

We hope this answers your question.
