

THIRTY-FOUR JUNIORS ARE LISTED AS ELIGIBLE FOR MEMBERSHIP IN THE SCHOLARSHIP HONOR SOCIETY

New Members Will Be Voted In At A Special Meeting Following Banquet To Be Held Thursday Night.

Under the present constitution of the Scholarship Honor Society, there are thirty-four juniors eligible for membership in that organization, according to H. F. Martin, Dallas, president of the Society.

The membership clause of the constitution states that only male junior students who have attained a B average with no conditions or failures are eligible for membership.

Following a banquet for the Society Thursday evening at six-thirty in the banquet room of the college mess hall, a special meeting will be held for the purpose of electing in new members. At present there are twenty-three seniors who were elected into the group last year. Martin stated that the membership roll would probably not be allowed to exceed fifty. T. F. Mayo, college librarian, has been invited to make a short talk to the group following the banquet. William Morgan, assistant registrar, the first president of the local Society, will tell something of the purposes on the same program.

Juniors eligible for membership in the Scholarship Honor Society are as follows:

S. B. Archibald, Frank Bednarck, K. S. Buchanan, R. H. Burks, A. C. Cramer, E. K. Crough, C. M. Dempwolf, M. C. Dillingham, J. N. Ferguson, M. F. Fincke, K. S. Hagius, L. M. Hubby, J. W. Hull, J. A. Johnston, J. P. Kleber, J. C. McHaney, J. W. Marek, M. F. Martin, and E. Mattingly.

H. F. Mayse, K. A. J. Monier, G. Nagai, C. R. Parencia, A. L. Parrack, P. G. Post, T. J. Richards, J. L. Richmond, W. C. Rodgers, C. H. Rollins, G. E. Schultis, C. H. Sinex, J. E. Stringfellow, F. W. H. Wehner, and K. K. White.

Uvalde Selected for SW Texas Club Dance

At the meeting of the Southwest Texas Club held last Friday, October 27, it was decided to hold the annual club dance in the Crystal Ballroom of the Kincaid Hotel in Uvalde on December 30. Music for the dance will be furnished by Larry Sheldon and his Ten Ambassadors.

A group of Chicago scientists on their way to Alaska recently discovered a herd of some 500 rare northern sea elephants.

Northeast Texans To Have Christmas Hop At Mount Pleasant

Plans were made at the last meeting of the Northeast Texas Club to have the annual Christmas Dance in Mount Pleasant Thursday, December 28.

Although no orchestra has been signed to play for the dance yet, it is expected that one of the college orchestras will be chosen at the next meeting of the club, according to C. H. (Rosebud) Lillenstein, Mount Pleasant, president of the club.

Definite arrangements have been made to enlist other students who live in Northeast Texas and are not members of the club, Lillenstein stated.

Other officers of the club are T. A. Marshall, Gilmer, vice-president; and L. O. Traylor, Mount Pleasant, secretary and treasurer.

Students Form Club for Astronomy Study

Last week a group of students met for the purpose of organizing an astronomy club whose chief objective shall be to create interest in that subject. E. J. Vezey, associate professor of physics, and H. Halperin, professor of mathematics, are directing and sponsoring the activities of the club. It was decided that meetings should be held on the second and fourth Thursdays of each month in the physics lecture room. Club officers for the year will be elected at the next meeting.

S. C. Hoyle Addresses Class of Industrial Education Students

Beginning with the earliest phases of printing and following its development to the present day, S. C. Hoyle, head of the A and M printing press, addressed students of an Industrial Education 308 class Thursday morning. He told of the development of each machine, its production and operation, the different types of printing, and the speed in handling. He also traced the development and promotion of a printer.

The talk was made even more interesting by bits of personal experience and amusing incidents that he had encountered in the years he has spent in the printing trade.

It is planned to have Mr. Hoyle speak at an Industrial Arts club meeting soon. W. W. McCarter, will speak at the next meeting of the club, Friday night after yell practice in the Y parlor.

ODD THINGS AND NEW—By Lane Bode

New England Alumni of Four Colleges To Publish Daily Paper

South Hadley, Mass.—A group of New England college alumni has begun publication of an intercollegiate daily newspaper, The Intercollegiate Daily News.

Edited by young graduates from Smith, Mount Holyoke and Yale, the sheet has already made its appearance on the campuses of Mount Holyoke, Smith, Massachusetts State College and Amherst.

The paper not only prints news of interest to undergraduates in the four colleges, but also uses Associated Press dispatches.

Belgian Scientist Believes Earth Was Made By Explosion

Washington, D. C.—In the opinion of Abbe Georges le Maitre, Belgian scientist who is teaching this year at the Catholic University of America, the universe may be "reborn" every so often by means of a mighty explosion, only to "die" again and be reborn in another great blast. He holds the universe could

have been originally one great atom which blew up, the particles still travelling apart at terrific speed. This atom, the scientist holds, would have been greater in diameter than the distance of the earth from the sun—93,000,000 miles—and about 10,000,000 years ago may have blown up.

Now Is The Time!

The season we have been expecting, and preparing for, has arrived—winter is here.

Thus far the winter has been too warm to occasion much thought as to trench coats, heavy jackets, rain coats or heavy shoes and field boots.

But with the official advent of winter these articles soon will be needed.

Why not take advantage of the good selections and reasonable prices and make your purchases now?

Sam Logan Re-elected Head of Angelo Club

Sam Logan, Company B Infantry, was re-elected president of the San Angelo Club at its first meeting of the year, which was held in Milner Hall on Thursday, October 26. A. J. Jennings, Company A Engineers, was elected vice-president and G. W. Brockman will act as secretary-treasurer for the current school year.

Following election of club officers, plans for the annual Christmas dance and a club banquet were discussed. No definite decisions concerning these matters were made at the first meeting.

IT TAKES HEALTHY NERVES TO RUN 308 AT BILLIARDS!

ERICH HAGENLOCHER, twice 18.2 balk-line billiard champion of the world. Healthy nerves have carried him through stern international competition to many titles. Mr. Hagenlocher says: "For successful billiard play, watch your nerves! I've smoked Camels for years. They are milder. They never upset my nervous system."

TALKING IT OVER calls for more Camels. Steady smoking reveals the true quality of a cigarette. Camels keep right on tasting mild, rich and cool... no matter how many you smoke.

A MATCHLESS BLEND

IT IS MORE FUN TO KNOW Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

Copyright, 1933, B. J. Reynolds Tobacco Company

Steady Smokers turn to Camels

"I know of no sport," says Erich Hagenlocher, "that places a greater strain on the nerves than tournament billiards. The slightest inaccuracy can ruin an important run. One simple rule for success is, 'Watch your nerves!' I have smoked Camels for years. I like their taste better. Because they are milder, they never upset my nervous

system, and believe me, I smoke plenty."

There is a difference between Camel's costlier tobaccos and the tobaccos used in other popular cigarettes. You'll notice the difference in taste and in mildness—and Camels never jangle your nerves. You can prove this yourself. Begin today!

CAMEL'S COSTLIER TOBACCOS

NEVER GET ON YOUR NERVES... NEVER TIRE YOUR TASTE

DON'T BE SELFISH

It is selfish to think that your Photograph is a luxury. To those who love you, it is a "necessity."
