

RADIO PROGRAMS FROM AGGIELAND GAIN POPULARITY

From all indications the radio programs that are broadcast from A and M at noon each day have gained wide popularity throughout the state, as they include talks on subjects of interest to everyone. These programs originate in the broadcasting studios of station W T-A W at College Station and are relayed through stations W F A A at Dallas and K P R C in Houston.

The program that has been announced for the remainder of the week will include a talk on the "Extension Service Farm Home Program" by Bernice Campbell, Thursday; the "Influence of Heredity on Tomato Puff" by S. H. Yarnell, Friday; and the "Corn Hog Program" by E. M. Regenbrecht, Saturday.

These programs have been made possible by the Humble and the Magnolia Oil Companies.

lay any messages that they may want to send from the south pole area. According to the Radio Program last Saturday over the Columbia Broadcasting System from the Flagship of Commander Byrd, they have located the house that was left after the last expedition. They are having trouble with the ice flows and are having to pad the sides of the ship as protection. Equipment for Geodetic surveying was carried with them, and they will likely do some of this type of work.

From the beginning of the expedition at Panama, members of the Radio Club kept communication with Hutcheson until he reached New Zealand. Beyond this point they were unable to make connections until they made their present plans.

The officers of the Radio Club are: R. W. Long, president; F. J. Feagin, vice president and technician, and G. D. Johnson, secretary and treasurer.

Junior Judging Team In Preparation for the Ft. Worth Stock Show

The Junior Livestock Judging Team will leave Saturday, February 3, for an inspection trip to the Singleton Farms at Midlothian in preparation for the Fort Worth Fat Stock Show to be held in Ft. Worth the week of March 4. The team has been working out daily, for the past several weeks under the direction of J. H. Knox, professor of animal husbandry.

Tentative plans have been made for several other trips before the Fort Worth show, but the only other definite plans is a trip to the Houston Fat Stock Show to be held at Houston, February 24, to March 4.

There are thirteen members who are working for places on the team but the team will be cut to six members just before the Fort Worth Show. Members of the team include: E. L. Mears, Menard; W. L. Boothe, Sweetwater; G. W. Brockman, San Angelo; H. W. Turney, Dublin; L. A. Rothe, D'Hanis; W. C. Payne, Buffalo; J. L. Richmond, Kyle; R. C. Cross, Spur; H. F. Mayse, Mertzon; J. T. Bean, Fort Hancock; R. E. Evers, Itasca; M. B. Templeton, Dublin; and J. W. Holmes, Dublin.

The list of Inter-collegiate Livestock Judging Teams entered in the Fat Stock Show this year will include four schools, the University of New Mexico, Kansas, Nebraska and Iowa State, that have not been represented in the past.

eye. T. J. Sloan, San Benito, was dropped from the roll because of his promotion to First Lieutenant. Regarding Sloan's dismissal, Harding, Chief Gander, stated "The Blue Goose has no room under its protective wing for those ganders who fail to observe the most important section of the constitution."

The meeting was closed with the decision to have a group picture in the Longhorn instead of individual portraits, as had previously been arranged.

Lucky Strike brings you

The Metropolitan Opera

EVERY SATURDAY AFTERNOON ON THE AIR

Through these Saturday afternoon broadcasts, direct from the Metropolitan Opera House in New York City, we endeavor to pay our respects to the inherent good taste of America . . . the good taste that has brought such overwhelming patronage to Lucky Strike . . .

We feel Luckies are among the finer things of life because in making this fine cigarette we use always the finest tobaccos and only the center leaves . . . May we express the hope that while you are enjoying the Metropolitan broadcasts you add to that enjoyment by lighting a Lucky?

Always the Finest Tobacco and only the Center Leaves

NOT the top leaves—they're under-developed
The Cream of the Crop
NOT the bottom leaves—they're inferior in quality
