

PLAY IS GIVEN BY STUDENTS IN LOCAL THEATRICAL GROUP

Plans Are Being Made To Send A Cast To Represent A and M In One-Act Play Tournament At Lubbock.

The student group of the Little Theater Club presented Elmer Rice's comedy, "Passing of Chow Chow", Tuesday night in the Asbury Room of the library, and Dr. George Summey, Jr., discussed the author. Characters in the play were interpreted by Jean Sandstedt, A. B. Moore, and J. M. Crews.

The Club, which is open to both faculty members and students, meets in the Asbury Room on alternate Tuesday nights. One week a play is presented by faculty members and the following week the students take over the program. Mrs. Elizabeth Cook, president of the Little Theater Club this year, announces that plans are being made to send a student cast to Lubbock in April to represent A and M College in the College One-Act Play Tournament which will be held there. However, as yet, a suitable play has not been selected. Those students interested in dramatics should see W. W. Coulter at once.

"The Whole Town's Talking", a three-act play, was produced by the Little Theater Club here on Tuesday, February 6. The play was directed by Lt. J. J. Binns and the cast include many prominent members of the faculty.

the week of February 10. The men who had the five highest scores for the week of February 17 were Tosch, Kenneth Tucker, Burkburnett, C. J. Anderson, Lawn, Hufaker, and L. R. Sayers, San Antonio. Tosch has led the team in scoring honors for the last three weeks.

Students Deliver Talks To Chemical Society Thursday

At a meeting of the A and M Chemical Society in the chemistry lecture room at 7 o'clock last Thursday three speeches were delivered by chemical engineering students. "The History of Chemistry" given by C. P. Baker, senior, dealt with the origin and development of alchemy and modern chemistry. Alchemy was considered more in detail in the paper delivered by C. C. Porter. "The Industrial Importance of the Cellulose Derivatives and Compounds" constituted the speech made by J. B. Gershovitz.

Prior to the delivery of the speeches, a business meeting of the society was held. The problem concerning the adoption of a key for the society was brought up by F. M. Graves, chairman of the recently appointed committee, and was considered by the society. The members further decided that the Longhorn group picture should be taken Wednesday immediately after dinner.

Next week the rifle team will begin to fire for the Eighth Corps Area match which will come to an end February 28.

With the very best efforts on the part of the members, the team has an excellent chance to win the Eighth Corps Area match, states Lieutenant Reiseron, coach of the team. He further states that scoring honors for the last three en new members have been added to the team and that they promise to add greatly to the strength of the team. Following the Eighth Corps Area Match, the team will have two weeks of inter-collegiate matches and will then begin the Hearst and the National Inter-Collegiate Matches.

Up to the present time the rifle team has won 22 out of 28 matches, and with more practice the team should win even a higher percentage of matches from now on.

The Largest user
OF FINE TURKISH TOBACCOS

...one reason why Luckies taste better, smoother

In Turkey too, only the finest tobaccos are selected for Lucky Strike—the mildest leaves, the most delicate, the most aromatic. Lucky Strike is the world's largest user of fine Turkish tobaccos. Then these tender, delicate Turkish leaves are blended with choice tobaccos from our own Southland—to make your Lucky Strike a cigarette that is fully packed—so round, so firm—free from loose ends. That's why Luckies taste better, smoother. "It's toasted"—for throat protection—for finer taste.

Direct from the Metropolitan Opera House Saturday at 1:35 P. M., Eastern Standard Time, over Red and Blue Networks of NBC, LUCKY STRIKE will broadcast the Metropolitan Opera Company of New York in the complete Opera, "Tannhauser."

NOT the top leaves—they're under-developed—they are harsh!

The Cream of the Crop
"The tenderest, mildest, smoothest tobacco"

NOT the bottom leaves—they're inferior in quality—coarse and always sandy!
