Student Janitors

No greater cooperation has ever been received from the student body than has the change made by the college officials in which students were given the janitorial jobs which were held until this year by the colored janitors. This can be attributed primarily to the fact that every student is willing to do all that is possible in order to help those who are unable to attend college except by means of working their way through.

There seems to have arisen very few complaints under the new janitorial system and, with the exception of a few, the members of the faculty are more than satisfied with work that the students have done with their new jobs, but those few who object make it extremely hard for those who are doing their utmost to make a success of a thing that means so much to them. The reason for those few objections are because of things which have been taken from their offices and class rooms, and since the student janitors are the only ones who have keys to the doors, they are the ones at whom the accusing finger is pointed. Many of the things which have been reported lost, have just been misplaced and some probably left in the class rooms where the instruction is carried on. These cases reflect equally as hard upon the student janitors when accusations are pointed in their direction even though the thing in question might not have even been lost. But since there is some theft going on at night or at times during the day, the question must be dealt with, and those who do make such accusations should look farther than just to see that a student janitor has a key to the door.

Recently a typewriter was taken from one of the offices in the old Main Building and the charge was made directly to student janitors. Does it seem logical that anyone to whom a job means so very much would do such a thing as this?

The student janitors only have the keys long enough to get in the offices and clean them up and then they are turned over to their student foreman who has possession of them the rest of the time. It would be almost impossible for any member of the force to take away a typewriter with twenty or thirty men working with him, but it would be easy enough for anyone to effect an entrance in almost any of the offices if they desired to get in them after dark. Yet the janitors have to take the blame which is not justly theirs.

We are told that they will have to pay for the typewriter if it isn't returned. We would like to make an appeal to both the one who did take the typewriter and the one who is forcing the janitors to pay for it, and ask first that the one who did take the typewriter to return it either to the office from which he so quietly took it or to the janitor's office in Ross Hall. And should the typewriter not be returned, we hope that the loser of the typewriter will take a little wider view of the situation and see where it would have been much easier for anyone other than a janitor to take the machine.

We don't think anyone can justly accuse the janitors of taking the articles missing—it means too much to them to do such a thing. To those 100 boys who get up hours before the rest of us and then work before supper, we feel proud and justified in saying that they are more earnest in their work than any other group to be found on the campus.

Students Need Sleep

Students do not get enough sleep.

It is hardly necessary to eulogize on the necessity of rest, getting at least eight hours of sleep each night, of relaxing enough so that the body will be physically fit to do its mental work.

All students know this, and yet how many observe it? How many go around the campus with trembling hands, wan faces and dark circles underneath the eyes? How many attempt to imbibe knowledge when their minds are not physically fit to receive it?

How many go around despondent, believing that the whole world is against them, when all they need is a few hours of good sleep?

Whether the educational system or the student himself is at fault is a question for argument. Some courses, it is known, require too much outside work, and conscientious students are not allowed their necessary amount of rest.

But, on the other hand, many students put off studying until the last minute, and consequently spend late hours studying. Again, many students stay up until all hours talking or reading.

If the university is a place for education it is also a place for common sense. And students ought to take off a few hours and "catch up" on their sleep, as they are always intending to do.—Louisiana State Reville.

Apology

This is to let it be known to all who read the article "Outlaw Hazing" which appeared in the March 7th issue of the Battalion, that no part of the article was intended to have any particular reference to Battery "B" Field Artillery, but was intended for the entire corps. I apologize for any and all reflections that the article might have contained concerning this Battery individually, and am extremely sorry that the article was misleading.

(Signed) W. M. WATSON, Editor.

Paving Program To Be Completed May 1

Despite the bad weather, the present paving program is progressing rapidly. One of the principal streets to be paved has the base completed, and the asphalt topping was started this morning, and is to be completed this week. It will be opened to traffic within the next ten days and will give access to the new Administration Building over one of the newly paved streets.

Work on the beautification in front of the new Administration Building is also progressing, as several of the decorative sidewalks are complete and work will soon begin on the planting. About 35% of the entire program is completed and the balance is to be finished by the first of May, according to the present estimates.

As soon as the paving is completed on the street across the back of the main building, the paving will be started on the one in front of the Petroleum-Geology Building from the laundry to the Veterinary Hospital. The street left in between these two will be paved last.

214 STUDENTS

ASME DANCE TO BE HELD ON MARCH 23 WITH AIEE DANCE

Richard Shannon To Play for Colorful Affair; Engineer Motif Used for Decorations.

Preparations are rapidly being completed for the annual A and M American Society of Mechanical Engineers dance to be held in the mess hall Friday night, according to C. K. Swanson and C. D. Long, who are in charge of the affair. This year the A and M branch of the American Institute of Electrical Engineers will have its dance in conjunction with the Mechanical Engineers, and the two organizations are working together.

Decorations will carry out the motifs of both departments and promises to be one of the most colorful club dances of the year. Richard Shannon has been contracted to play for the occasion. Only students registered for M E or E E will be admitted, and bids will be \$1.50 a couple.

Assisting Long, who is in charge of the decorations, are F. J. Malina, J. G. Otts, E. A. Olsovsky, and W. M. Hansard.

Waco and McLennan Club Holds Banquet

Members of the Waco and McLennan Country Club held their annual spring "spread" in the banquet room of the mess hall Saturday evening. Members of the A and M Mothers club sponsored the affair.

T. E. Jarman, Waco, president of the club, acted as master of ceremonies introducing Dr. T. O. Walton who made a talk stressing the importance of higher education. Mrs. J. J. Caldwell, president of the Mothers club, made a talk to the group.

In a short business session the following new officers were elected for the Waco club: Aubrey Meador, president; George Hoeffert, Jr., vice-president; and Walter Moore, secretary.

Eco Club Formed By Students At Meeting Mar. 16

Talbott and Elkins Elected to Lead Club; Plans for Future Outlined at First Meeting.

With three very definite purposes in view, a group of students of economics met together last Thursday night, March 15, in the Asbury Room of the Library to organize an Economics Club. They were interested in forming an organization which would reinforce and broaden instruction in Economics, which would form a connecting link with the business world, for the purpose of facilitating employment for graduates, and which would support sound thinking on everyday problems of economy.

Officers elected were: R. N. Talbott, Miles, president; R. L. Elkins, Palestine, secretary and reporter; and T. D. Cherry, New Waverly, H. T. Hall, Houston, and A. M. Early, Waco, as program committee.

Three short discussions will be given at the next meeting of the club which takes place Thursday night, March 29 at seven o'clock in the Asbury Room of the Library. G. W. Dunn, Sherman, will present a discussion and analysis of business cycles from a statistical standpoint. A. M. Early will give a short resume of cyclic depressions and "The Cause of The Present Condition and What We Can Do About It" will be presented by R. L. Elkins.

According to Talbott, all persons interested in modern problems of economy are cordially invited to attend the meetings of the club.

Santa Fe To Sponsor Vocational Agr. Trip

S. T. Bledsoe, president of the A T and S F Railway System, Topeka, Kan., has announced an offer by the Santa Fe of a free trip with all expenses to the National Congress of Vocational Agricultural Students at Kansas City next fall for the boys' championship livestock judging team of Texas selected from vocational school in city or town of the state served by the railway. Dean C. H. Winkler, of the school of vocational teaching, Texas A and M College, has been advised.

The prize trip offer will include railroad and hotel expenses for five, three team members and an alternate and their coach. All members of the team must be students in the same school and the winning team is to be selected in a statewide contest under the direction of the State Board of Vocational Education in cooperation with the Texas A and M College. This offer by the Santa Fe is in keeping with a suggestion by Dr. C. H. Lane, chief, agricultural education service, Washington, D. C. This will be the eighth year the Santa Fe has offered prize trips to vocational students.

RAIN BOW GIRLS TO ATTEND SERVICE

The Rain Bow Girls of Bryan are to attend the Sunday afternoon services of the A and M Methodist Church, according to Rev. R. L. Jackson, pastor of the Church. Following the services, plans are for as many cadets as possible to meet the members of the Bryan Girls' Club. Rev. Jackson stated that he expected a very large crowd to attend the services.

CAMEL CIGARETTE COMPANY TO GIVE AWAY FREE BOOK

The R. J. Reynolds Tobacco Company, manufacturers of Camel Cigarettes are offering a free book

all illustrated entitled, "Know Your Nerves" to anyone who will fill out the coupon carried in their advertisement in this issue and mail it in to the R. J. Reynolds Tobacco Company with the fronts from two packs of Camels. The book to be given away absolutely free is very instructive and amusing. It contains 20 new nerve tests which are very fascinating as well as educational.

"WHEN A FELLER NEEDS A FRIEND"

When a collapsible collar makes you look pretty silly... forget it, son, with a pipeful of BRIGGS. This tranquil tobacco brings peace after panic. Long seasoned in wood, its rare, spicy tobaccos are tempered to mildness. There's not a bite in a barrelful of BRIGGS... the blend a feller needs.
