

Monier Elected To Head '34 Y Cabinet

K. A. Monier, San Antonio, was elected president of the Y Cabinet for next year at a meeting of the 1934 Cabinet held at the Y cabin Monday night, April 2. Monier, who is a junior M E student in E Battery Field Artillery, has been a member since his freshman year.

Other officers elected at the meeting were: J. N. Ferguson, El Paso, vice-president; C. F. Roberts, Sugarland, secretary; and J. N. Boswell, Plainview, treasurer. They will take office immediately. New members will also be elected by April 21 in order that representatives may be sent to Huntsville for the Y M C A conference to be held April 21-23. Sherwood Edy, National Y M C A secretary, is to deliver the principal address at the meeting.

Cotton Ball And Pageant Queen And Duchesses

Here are the members of royal court for the third annual Texas A and M Cotton Ball and Pageant which is to be held in Memorial Gymnasium Friday night, April 6. Upper right: Miss Will Anne Staude, queen. Upper left: Miss Bess Braung, duchess. Lower: Miss Gene Handley, maid of honor.

LABOR FOR SUMMER SCHOOL STUDENTS BEING CONSIDERED

Plans are now being made to take care of unemployed students who will register for summer school in June; the announcement was made yesterday by S. G. Bailey, Secretary of the College.

Due to the closing of dormitories there will be a decrease in janitor service, Mr. Bailey said. However, he added, all departmental buildings will be open, and will be kept by student labor. He further added that all students desiring summer-employment should file applications at once with the Student Labor Committee.

Students having employment now will be given first choice at available jobs, Mr. Bailey stated.

PLANS ANNOUNCED FOR ANNUAL HIGHWAY SHORT COURSE

Course Given Under The Direction of C. E. Dept. and State Highway Department.

Plans for the annual Highway Short Course given under the direction of the Civil Engineering Department of A and M College in cooperation with the State Highway Department have been completed. Over two-hundred engineers interested in highway construction and design are expected to attend the meeting on Thursday, Friday, and Saturday, April 12 to 14, to discuss the problems concerning the development, finance, and construction of highways. Men widely known and experienced in the highway field are to be on the program.

The program Thursday includes the registration and discussion in the morning followed by several papers in the afternoon. Friday morning the papers will be continued, finishing the meeting for the day with discussion. That afternoon the Texas University and A and M baseball game will be attended, with the annual Highway Short Course banquet scheduled for the evening. The meeting will then be continued Saturday morning with more papers and committee reports, adjourning at noon. Those who care to will stay over for the second A and M-Texas game that afternoon, golf competitions at the Bryan Country Club, and the intramural boxing finals in the Gym that night.

Kream and Kow Klub Plan Joint Dance

At a meeting of the Kream and Kow Klub, held on Monday night, plans were discussed for a dance to be held on April 27. The dance will be given jointly by the Kream and Kow Klub and the Saddle and Sirlin Club.

It was announced that the Girls Glee Club of the University of Texas would be on the program. A committee composed of R. F. Hartman, Cuero; G. V. Holmes, Gonzales; and C. W. Cox, Buda, was appointed to decide on the compensation to be paid to the Glee Club.

G. V. Holmes, president of the club, announced that he would decide on the favors.

C. W. Cox, Buda, and H. K. Westerman, Llano, were appointed executives in arranging the dance.

Houston Students To Be Guest At Chicken Dinner Here Sunday

"Fried chicken—with all the trimmings!" will be the general clamor at the Annual Houston A and M Mothers' Club Chicken Dinner to be held Sunday, April 8, at 12:30 p m in the Mess Hall Annex.

Houston mothers have been making preparations for this yearly spread for the past month, and rumors are that the abundance of fowl will even exceed that of past years. A program including dance music by the Serenaders and many specialty numbers will be presented during the dinner.

Houston boys who have not started training are advised to begin immediately.

MARKSMEN FIRING ON HEARST TROPHY MATCH THIS WEEK

Intercollegiate Match To Be Completed April 14th; Aggies Have Good Scores.

Firing on the first Hearst Trophy team began this week when L. R. Sayers, San Antonio, came through with a score of 190. Four other Aggie marksmen, O. A. Seward, Roy. Ruffaker, T. J. Guerdron, and C. A. Tosch, will round out the team, and will finish firing by Saturday night of this week. The illness of Kenneth Tucker, Burkburnett, resulted in Coach Reiersen's having to place Seward in his position on the first team.

A ten-man team is also firing record in the National Intercollegiate match, which includes every rifle team in the United States. This match will be completed by April 14, though most of the team will have finished before that date. The Aggies have an excellent chance of placing well in this contest, but emphasis is being given the Hearst Trophy match.

Electrical Engineers Announce Program For Annual Engineering Show To Be Given Mothers' Day

Technical Exhibits of New Developments In Engineering Field To Be Presented At E. E. Show.

The Electrical Engineering department announced Tuesday their tentative program of exhibits to be presented at the Engineering Show May 12. These exhibits are grouped into two general classes—those which will prove educational to spectators having a fundamental knowledge of the science and those which will attract onlookers who are most interested in the spectacular displays made possible by electrical means.

Some of the highlights of technical exhibits to be offered are high tension transformers, measurement of a wave-length transmitter, the oscillograph, which is used to obtain the shape of alter-

nating current waves; military communication equipment, phasing lamps, a commercial long wave and a short wave broadcasting station, and the Otis elevator.

Amusing oddities will be found in the "Talking Man," who will bid each spectator welcome as he enters the building; "Magic Light," which burns in air with no apparent source of power; "Tin Can Motor;" "Mercury Vapor Lamp;" "The Bottle Impossible to Empty;" "Question-Answer Machine;" "Optical Illusions," made possible by varying the relative speeds of a neon light and a metal disk; and "Scrambled Speech," a device for distorting speech to insure privacy in radio communication.

Each display will be carefully described and its functions explained by an electrical engineering student in order that visitors may see the "why" of its actions.

T. A. Wood Killed In Army Air Mail Crash

Lieutenant Thurman A Wood of Richland Springs, former Texas A and M student, was killed near DeWitt, Iowa, March 30 when the single-seated pursuit plane in which he was flying twenty-three pouches of air mail from Chicago to Des Moines crashed in a rain-storm.

Woods, who transferred from North Texas Agricultural College here for the school year of 1931-32,

was a junior electrical engineering student. He dropped out of college in March of the second term to enter the flying service at San Antonio after having received an appointment to Randolph Field.

He was the twelfth army flier to die since the service was given the task of flying the mail.

The pilot was crushed between the motor and the pouches of mail. The nose of the plane was buried four feet in the ground. The body of Woods was badly mutilated.
