

Cotton Adjustment Division For This State Works Here

T. E. Rattan, Executive Secretary in Cotton Adjustment for the state of Texas, together with a crew of 565 Bankhead Bill employees, are busily distributing cotton tax exemption certificates from the top floor of the Administration Building to Texas farmers. He is handling through that office cotton exemptions for the entire state.

As it is, farmers are permitted to grow only a predetermined amount of cotton; all the cotton they produce over their specific allotment must go to the government as a tax levied for over production. The farmer can, however, sell up to one half of his crop before he gets his certificates.

The government has set 3,950,000 bales of cotton as the Texas allotment. It is, therefore, Mr. Rattan's job to distribute fairly the exemption certificates. Each farmer in each county must get his share and no more than his share. Each county is prorated, and the farmers therein are served judiciously. Two hundred thirty-nine county allotments have been issued to date, with a total of about 550,000 releases to farmers. The releases are going out at the rate of about 18,000 a day.

The 565 employees are divided into three shifts; each shift is eight hours long. There are 188 comptometer operators and 387 clerks. The office force is divided into the preliminary checking division, the computing section, the tabulation department, the certificate writing department, and the final checking room for certificates.

F., Vocational Teaching, Eldorado; Nielson, John, Vocational Teaching, Goforth; Jameson, W. L., Vocational Teaching, Greenwood; J. D. Cunningham, Vocational Teaching, Hughes Springs; Ritter, C. D., Vocational Teaching, Kemp; Harris, J. L., Vocational Teaching, Leona; Woodul, Parker, Vocational Teaching, Mt. Vernon; Scott, E. W., Vocational

Ideal Teacher Classified By College Paper

Schenectady, N. Y. (CNS)—Professors of Union College have been taking it "on the chin" here this week, and students are the ones who are dishing it out.

Following a checkup by the college newspaper, The Concordian, of all professors allegedly implicated in unfair academic tactics, the faculty of the school has been constantly under close student surveillance.

"We are going to see how many instructors are adding strength to the college and how many are doing their jobs right," student leaders there declared.

The campus paper challenged the professors to eight points which were to determine how closely they approach the student's ideal:

Does he find his greatest interest in his students and in intellectual pursuits?

Does he try to introduce them to life and thought, rather than merely to coach them to pass examinations?

Does he put himself forward as a dispenser of truth, not as an ingratiating vaudeville actor?

Does he give the students all that he has of scholarship, wisdom, and understanding, despite their supposed immunity to such?

Does he stimulate the mind of the student to suggest ideas and to

NEW A-AND M SWIMMING COACH STARTS SEASON

Arthur Adamson, new Aggie swimming coach, is at the swimming pool each afternoon from 3 to 5 and will work with any boy who wishes to enter swimming. Swimming is now a Southwest Conference sport. Mr. Adamson comes from Houston where he has been coaching in the Houston Amateur Swimming Association and the Y M C A. He was a member of the Illinois Athletic Club in 1929 and also a member of the U. S. Olympic Club the same year.

SPORTS PARADE—

(Continued from Page 3)

mond. The Aggie wingman was twice named All-Southwest Conference end and rated the best football player in the South in 1909.

When Coach Norton sent Charley De Ware, Jr. into the game against the Sam Houston Teachers Saturday, it marked the first time a Charley DeWare has played on an Aggie gridiron since 1909—25 years.

correlate the loose ends of information?

Is he enthusiastic, alive, free from all dull pedantry and dogma?

Is he striving to be a personal friend of students, a guide and an inspiration?

a good cigarette gives you a lot of pleasure

... just about every cigarette smoker knows that—but here are some other facts to keep in mind ...

For a cigarette to be milder and taste better it must be made of mild, ripe Turkish and home-grown tobaccos.

We wish you could go into the factories and see Chesterfield made. The mild ripe tobacco is cut in long even threads—then packed into the cigarette so as to make Chesterfield draw right and burn evenly.

A good cigarette can give you a lot of pleasure, and we would like for you to try Chesterfield.

the cigarette that's Milder
the cigarette that TASTES BETTER
