

WEHNER ELECTED SENIOR CLASS PRESIDENT

FARMERS LEAVE TO BATTLE TEMPLE

Aggies Entrained At 1:26 P. M. Yesterday

Travel in a Private Car

With the combined din of the blaring Aggie Band and the loud yelling of cadets drowning out the sound of their own farewells, thirty-five members of the Texas A and M football squad, together with their coaching staff and college athletic officials, left yesterday on the S. P. 1:26 for Temple University where they will battle Pop Warners' Red Devils, Friday night at 8:30, Eastern Standard Time.

Effecting a "send-off", the equal of which has not been witnessed here in some years, the cadets and band presented a soul-stirring crescendo of sound and a gorgeous extravaganza of color. Both tears and smiles were seen, as students and faculty alike gathered to give the team their last encouragement and pledge of loyalty.

The group that left here will travel in a private car, and forms the nucleus of a band of Aggie supporters that will board the train at various points en route to Philadelphia.

This, the first game that A and M has ever scheduled for play in the East, will not only strengthen the establishment of A and M as one of the outstanding colleges of the United States, but will also validate the local claim that A and M's athletic plant deserves national commendation, college authorities here agree.

Tom Dooley, chief yell leader for the Corps, and Tony Heldenfels, editor of the "Longhorn", A and M's yearbook, were the only outside students to accompany the team.

K-DET KAPERS

By BILL BRADFORD

From all reports it appears that the TUMBLING TEAM has overlooked great material in M. S. Burton, "SNAP-SHOT SADIE" to you. Although he has only been working out the last few mornings, he has completely mastered the difficult "TROLAND BED-DROP without benefit of parachute—and is his FACE (?) RED." OSCAR SCHIER was seen deserting the campus for the weekend and headed for PARTS UNKNOWN. We wonder if he could be going to see the girl at SEALY, from whom he received daily letters while at camp last summer—if not, we hope that we haven't told any stories out of school. We see that OUR "CHARLEY" BELOATE is doing great work in his major course PPE — POSTOFFICE POLICY EDUCATION— power to you, Charley, but don't take any canceled stamps. Evidently "JUD LOUPOT", once owner of "LOUPOT & LOUPOT CO-OP STORE" and present "WALKING WALL STREET OF THE CAMPUS", was putting one of the latest musical hits to the acid test when he was "JUST RIDING AROUND IN THE RAIN" in his powder-blue roadster with the girl fren at THREE O'CLOCK SUNDAY MORNING. MISS PAHTSY CHANGE was sporting a new coiffure at the CORPS DANCE last SATURDAY NITE—after all, VARIETY IS THE SPICE OF LIFE. Much to the regret of the "Dusties" and "Sand-Blowers" that make the "SHUFFLES" on Saturday nites, it appears that MISS SHAWTY VICK has been permanently taken out of circulation by one of our "EX-

NORTON'S MESSAGE TO CORPS

Yesterday morning before the team left, we encountered Coach Norton in the Academic Building. We seized the opportunity, and asked him to leave a message for the Corps before taking the boys off to Philly.

This is what he said: "Tell the Aggies that we're going up East to give that Temple bunch everything we've got. Tell them . . . " he said, ". . . tell them that we're going to fire both barrels."

NORTON SEEKS AID OF CORPS AT GRID GAMES

Urges Cooperation Among Students in Aiding Athletes to Study and Train.

Coach Homer Norton spoke to the company, battery and troop commanders and field officers about getting the support of the cadet corps for the football team at a meeting held last Friday night in the Y Chapel. The meeting was informal in nature and Coach Norton spoke to those present so that they could pass his ideas on to their organizations.

The idea of cooperation and the fact that the team is a part of the student body was stressed by Norton. "The corps is the important twelfth man of the team and its support is just as necessary to the winning of games as is the playing of the other eleven men."

Ineligibility of some of the players has hurt many football teams; therefore Norton asked that members of both the varsity and freshman squads be given a chance to study; that everyone should try to be as quiet as possible during study hours; and that help should be given to any of the players who needed it. He also wanted the opinion of the students about the use of cards on the doors of rooms occupied by athletes. These cards were to contain the information that the occupant of the room was an athlete and had to study or was trying to rest.

Dr. Summey Addresses Debate Club Members

The debate club met Friday night and discussed plans for the current season. President George E. Wyse, of Palestine, presided over the meeting and Dr. Summey, head of the English department, was the principal speaker.

Negotiations are now being made between A and M and the Associated Students of California in order to bring about a debate on one of the following subjects: that medicine should be socialized in the United States, that a World War is imminent, or that Japan should be given naval parity with the United States.

Should the California negotiations fail, trips will be made through Oklahoma, Arkansas, and Texas. In each of these states, debates will be held with the most versatile universities and colleges.

New Officers Are Elected By "Heart of Texas" Club

Ed L. Mears, Menard, was elected president of the Heart of Texas and Mountaineers Club at the first meeting of the club, Sunday. Other officers elected were: Vice-President, R. F. Mosty, Center Point; Secretary and Treasurer, V. T. Addler, Boerne; Reporter, G. F. McMillan, Mason.

Plans were discussed regarding the annual dance and yearbook page by the twenty-five members present.

Yell Practice: Yell For the Men At Philadelphia!

"FORMAL" LATEST COLLEGE MAGAZINE MAKES FIRST BOW

A new college magazine, "Formal," started its career with the publication of the October issue which is now on the news stands.

In its columns "Formal" intends to present to college men and women a type of fiction of particular interest to their group. There will also be articles by nationally known business and social leaders written each month to aid undergraduates in choosing their life's work; sophisticated humor of a satirical nature; articles on college life at famous foreign universities; intimate glimpses of campus life at some of our own larger colleges; fraternity and sorority origins and personalities; books, cinema; and radio.

H. L. Laupheimer is publisher; Charles Van Cott, editor; Robert Seaman, art director; and Marion E. Weiver is associate editor of the magazine which will be published monthly by The Formal Publishing Co. in New York.

Cochran Heads Houston Club

W. B. (Bill) Cochran, senior in Company B Engineers, was elected president of the Houston Club in a meeting held last Tuesday, September 25. The meeting was the first for the current school year. The other officers elected were Bob Russi, vice-president, and Leonard Giesecke, secretary and treasurer.

Upon the completion of the election, Russi asked for the cooperation of the club in planning the annual Christmas dance, and David Meyerson, whose mother is president of the Houston A and M Mother's Club, asked for the names of all the freshmen from Houston in behalf of the Mother's Club.

Dean Kyle Resigns Post On Athletic Council

E. J. Kyle, Dean of the School of Agriculture, has tendered his resignation as chairman of the Athletic Council to Dr. T. O. Walton. As his reason for this action he gives the increased duties placed upon him as a result of being a director in the Farm Credit Administration of Houston, a trustee in the Luling Foundation and the larger amount of college work required of him due to the great increase in enrollment.

The resignation has been accepted, according to Dr. Walton, with "the deepest regret."

Dean Kyle, during his 32 years at A and M, has done as much for the athletic program as any person ever connected with the col-

New Procedures Are Initiated At Court of Seniors

Trial Judge, Prosecution and Defense Councils, Law Board and Court Reporter To Make Up Organization

By J. C. McHaney Cadet Colonel

Monday night, the Senior Court met for its first session of the new school year, initiating an entirely new system and procedure in trying cases of discipline arising in the Corps. The court is composed of a Trial Judge Advocate, Prosecution and Defense Councils, a board of five Law Members, and a Court Reporter.

Cases are tried according to court-martial and civil procedure, a combination of the two being more expedient than strict adherence to either civil or military jurisprudence. Were military court procedure adhered to, the sessions of the court would be long and tedious, necessitating much more time and deliberation than could be devoted to each individual case.

The accused will be prosecuted by the Prosecuting Counsel or attorney, and he is at liberty to choose his own Defense Counsel, preferably a person familiar with the true merits of his particular case. An organization commander or any other senior from the accused's organization will best serve as Defense Counsel.

After the case has been presented to the Court and both prosecution and Defense Council have presented their case substantiated by witnesses and cross-examination, the law members of the Court deliberate to attempt to render a fair, just, and impartial decision. After

A AND M TO HAVE HORSES ENTERED IN STATE FAIR

A carload of horses will be exhibited at the Dallas Fair this year by the animal husbandry department. Among the animals to be exhibited are four American saddle horses, two mules, and five Percherons. One of these Percheron mares was winner of the Grand Champion prize at the Southwest Exhibit and Fat Stock Show held at Ft. Worth last March.

Since the Fair rules require cattle to be kept on the fair grounds for at least sixteen days, the animal husbandry department has decided not to enter any cattle this year.

U. S. To Enter Olympics

The Executive Committee of the American Olympic Association last Thursday stated that the United States would be a contender in the 1936 Olympic games to be held in Germany.

There were reservations made, however, in which the council is certain to withdraw its acceptance and refuse to send its representatives abroad if Germany refuses to accord equal and courteous treatment of Jewish athletes. The resolution of acceptance was based upon the report of Mr. Brundage, president of the American Olympic Committee and representatives of Committee, and the attitude and assurances of the German Olympic the German government.

E. J. Howell, the Registrar, announced today an enrollment of 3,000 students.

Dean Kyle Resigns Post On Athletic Council

He is largely responsible for the acquisition of the present coaching staff and the necessity for his resignation will be regretted by students and faculty alike. Several times in the past he has had to resign from the Athletic Council on account of increased duties but he has always returned later at the insistence of the students and faculty.

Dean Kyle's letter to Dr. Walton follows: Dr. T. O. Walton, President A. & M. College College Station, Texas

My dear President Walton: I desire to submit to you my resignation as a member of the Athletic Council of the A. & M. College of Texas, effective September 25, 1934.

Band Captain Selected With Bare Majority Over Mears at Banquet

DR. WALTON OVER ILLNESS

Dr. T. O. Walton assumed his duties as chief administrator of the college yesterday, after being confined to his home for several days with a mild case of erysipelas.

Monday, the following report was issued by his son, Dr. Turner Walton, M. D.: "He is not confined to his bed, fever has left him, and he will be entirely well in a few days."

Class Decides Upon Dallas as the Most Desirable Town for Corps Trip.

Fritz Wehner, Dol Rio, captain of the Aggie Band, was elected president of the senior class at a banquet given in the mess hall banquet room last Friday night. Other officers elected were: Ed Mears, Menard, vice-president; Roy Ford, Fort Worth, secretary and treasurer; George Schults, Harlingen, historian; Raymond Kerr, Amarillo, social secretary; and John Crow, Milford, student representative on the athletic council.

Wehner, who is a student of the electrical engineering department, was a distinguished student both his freshman and sophomore years. He won the mathematics contest his freshman year, and last year was historian of the junior class. The election for president was very close; Wehner received 119 votes and Mears, the other candidate, received 115. As a result of a motion made by Joe McHaney, Mears was elected vice-president by acclamation.

Bob Russi, Houston, president of the junior class last year, acted as toastmaster at the banquet. Colonel A. E. Emery offered a word of appreciation for the way the seniors had responded to the responsibilities placed upon them at the beginning of the year. Colonel John E. Mitchell stated that he was pleased with the cooperation shown among the members of the senior class in the organization and operation of the various military units on the campus.

The class decided to go to Dallas Nov. 11 for the corps trip. A few seniors were in favor of making the corps trip to Beaumont but when told that only 350 seats had been reserved for A and M, Dallas was unanimously chosen. A letter written by Jessie A. Moore, president of the S M U Students Association, was read to the class; it stated that the officers of the student council are laying plans which will cause the expression "cool Dallas," often used by the students to be banned forever. Moore promises

DRIVE TO SELL LAST TICKETS—LYCEUM GROUP

Only Few Reserved Admissions to Bryan-College Series Left, as Canvassers Make Rounds

With only 30 out of 400 tickets for the Bryan-College Entertainment Series remaining unsold, students are urged by Jack Ferguson, sponsor of the series, to take advantage of the balance of the tickets at the usual student rate of \$1.00 per ticket.

Students are reminded that the faculty and outsiders are paying \$3.00 per ticket for the series, and also that the venture is a non-profit undertaking, and any surplus resulting from the sales of tickets would be used to bring an added attraction to the ones already contracted.

The present list of attractions is as follows:

1. Vilhjalmur Stefansson, famous Arctic explorer and scientist.
2. The Hedgerow Players of Pennsylvania, in Milne's "Romantic Age."
3. Dr. David Coyle, distinguished engineer, economist, and writer, speaking on "Technology and Revolution."
4. The All-Star Ensemble which includes in its membership Lola Turner, soprano, and Chase Bar-

C. E. Dept. Engages Graduate Teachers

The civil engineering department of A and M College has added three graduate students to its list of instructors.

Professor J. J. Richey, head of the department of civil engineering, will assist in teaching surveying, a graduate of A and M College, will assist in teaching surveying. D. G. Gentry, Kansas Agricultural College graduate, will assist in teaching engineering problems, and W. F. Lute, graduate of Texas Technological College, will assist in teaching freshman engineering drawing. Except for these additions, the staff of instructors remains the same as the staff of last year.

Martin to Head Marketing and Finance Club

J. R. Martin, Shamrock, First Lieutenant in D Infantry, was elected President of the Marketing and Finance Club at the first meeting of the year in the Banquet Room of the Mess Hall last Monday night. Other officers elected were: W. D. Percy, Jonah, Vice-President; J. M. Hay, Waco, Secretary and Treasurer, and F. H. Helm, Bridgeport, Chairman of the Program Committee.

NATIONAL CHIT-CHAT by George Wannacott

Mississippi river boats may once more be employed for freight shipping. A revival of their use is being attempted by various elevator companies. New Orleans, of course, would be the principal port.

Out of 750 students enrolled in the University of Chicago, 55 were valedictorians for their high school classes and 200 were formerly associated with their school newspapers. Looks good for the University publications.

Japan has presented one of our leading museums with a batch of "culture" pearls. You see, they raise 'em over there, and it takes only 60 years to grow a crop.

Word comes down from the northland that the warblers are on their way down for the winter, thousands of them. Let's hope a few stay in our vicinity.

The highest temperature recorded in North America this past week was right here in Texas. Abilene recorded a warm 96. The lowest was found in Qu Appelle, Saskatchewan. Sure, that's in Canada.

Joliet prison "boys" disapprove of playing football with the Sing Sing inmates. They say the Sing Sing boys are too illiterate.

Once again Lloyd George, former Prime Minister of "Merrie England" is digging up the sentiment for which he is famous. This time it's about America's attitude in the Great War. He should be sufficiently well versed in the art of "digging" to take up archeology.

And now we see that hogs have declined ten cents. Well, maybe they are more independent than we are.
