Replacing Adrian Hall, who went to the University of Missouri, is F. B. Rackley, new Spanish teacher in the modern languages department.

An addition to the History Department is Dr. P. L. Gettys, who received his Ph. D. from Stanford University. He was county and district attorney in Wise county for four years, and for the past five years has been Professor of Law at Temple University.

Here is a view of Eger, Czechoslovakia, in northern Bohemia. This town, situated on the Eger River, where several important roads leading from Germany into the Sudeten region cross, may become an international powder barrel in a very short while. One of several towns under martial law, it is headquarters for Konrad Henlein, Sudeten leader. Henlein is now, however, in Germany and Czechoslovakia is seeking his arrest. Right is General Inspector Jan Syrový of the Czech army. A small but compact and highly-equipped fighting force is under his command.

The Aggie Glee Club will get in full swing Wednesday afternoon at 5 o'clock in the "Y" Chapel, president Henry Elrod said today. At that time the club will hold try-outs for all new students interested in getting into the club.

AT THE ASSEMBLY HALL

Tues. - Wed.
"Gold Is Where You Find It"
with
Brent - De Havilland

Flickie Flashes
BY PAUL KETELSON,
Battalion Movie Editor
Well fellows after last weeks mad rush to finish the slight task of getting registered and all, your reporter is ready to give the dope on the movies of the year. As you all know the producers are proclaiming a banner year for the movie industry and after looking over the coming attractions it seems to me that they are really in earnest.

"Gold Is Where You Find It" 6:30 and 8:30, Assembly Hall.
You'll see George Brent, Olivia De Havilland, Claude Rains and Margaret Lindsay.
It's about an outdoor drama dealing with the colorful war between California farmers and hydraulic miners of the 1870's.

The story—Colonel Christopher Ferris (Claude Rains) is one of the great wheat raisers of the Sacramento Valley, and the leader of a group of ranchers which for years had been fighting the hydraulic miners in an attempt to stem the flow of mud, rocks and debris which ruined their lands from the mining operations.

Jared Whitney (George Brent) comes to Tenspot as an engineer to run the Golden Moon Mine owned by Harrison McCooey (Sidney Tolar). He rescues Lance Ferris (Tim Holt), Col. Ferris' son, from a bar-room brawl and in gratitude Lance takes him home where he meets the Col. and his daughter, Serena (Olivia De Havilland).

Jared and Serena soon find themselves in love, but the Col. secretly orders Jared from the ranch.
The young miner is transferred to San Francisco and is there when the court orders an injunction against the miners in favor of the ranchers.

McCooey orders Whitney to go to the mine and resist the law by force, but he refuses to do so. Instead Jared hastens to Tenspot to prevent trouble.

He arrives to find that the miners led by Slag Minton (Barton McLane) have shot Lance Ferris when he attempted to serve the injunction. The enraged ranchers are preparing to storm the barricaded mine.

Whitney pleads with the ranchers that such a move would be sheer suicide and they finally give him a change to try a stratagem.

Jared climbs the canyon below the mine and gains access to the powder shack. Procuring some dynamite he starts for the dam above the mine when he is sighted by Minton. In spite of a shoulder wound he manages to blow up the dam and the water rushes down over the miners.

Col. Ferris and his helpers are also swept away by the torrent, but Jared is able to save them, thus preventing trouble and winning the respect and friendship of the ranchers.

REGULARS GO INTO SCRIMMAGE WITH FISH, SUBS

Coach Homer Norton sent his regulars through a practice game against the subs and freshmen Saturday and they proceeded to trample the defense into the sod. He finally had to put his first string line in for the reserves.

Dick Todd stormed the field and scored more touchdowns than could be counted. Dick was getting fine blocking on his jaunts, one of which was good for 65 yards. James Thomason, sophomore full-back, did some fine blocking during the afternoon and especially on that play. He led the play and blocked a defensive man that enabled Dick to get past the line of scrimmage and then went down and got ahead of the ball carrier and took out the remaining opposition. Todd punted for an average of 45 yards, kicked five extra points, and completed the only pass that he threw.

Joe Boyd and Pannell were the best of the tackles on the field. Pannell is playing with a bum hand, but he is showing enough fight to make the coaches set up and take notice. Boyd smeared many plays and recovered three opponent's fumbles. He has a knack of getting through and blocking kicks that is uncanny.

Fish Psychological Test for Friday

Friday, September 30, all freshmen and undergraduate transfer students will be given the annual psychological test. The purpose of the test is to obtain a relative score of all students for council and guidance work during the year.

This year, however, a new type test will be given which can be graded by an electrical machine. Students will write on a special answer sheet with a special graphite pencil.

IE GRADUATES ARE IN DEMAND, SAYS WILLIAMS

Graduates of Texas A. & M. College who have studied industrial education are in demand, according to report made by E. L. Williams, department head.

"Telegrams, telephone calls and letters have been coming to my desk all Summer, with the calls spread from Maryland to New Mexico", Williams said. "All I regret is that I was unable to fill the demands, but all of the boys who have graduated here in industrial education are now holding good jobs."
