"News From Hollywood" Gives The Latest Lowdown On The Stars

"From Hollywood Comes"—News that TYRONE POWER, CLARK GABLE, and ROBERT TAYLOR plan an extended vacation in South America. Some more 'he-man' for the boys. . . . The life story of the 'DEAD END KIDS' will be portrayed in "HELLS KITCHEN TO HOLLYWOOD" this should be the best of the series. . . . THREE SISTERS", this is one of those tear jerking stories, full of excitement and such, due principally to the arguments of the family. The acting is tops, Bette Davis is gaining ground fast and the performance she turns in is gold medal material. They will have to give her some notice in the next award. Anita Louise, the youngster who has shown that youth must be served. It is the opinion of many that she will become one of the Hollywood 'greats' as soon as her experience scope broadens. As this paper will not be sent out Friday, this column is taking space to discuss "Valley of the Giants", Wayne Morris, the slugger of film land is at his best. In this, a technical picture, his leading lady is Claire Trevor. This is one of the 'must' pictures of the month and from this a small amount of heed should be taken, as to missing this picture.

Assembly Hall Tuesday

The Texans' those of you who are natives of Texas—will be very disappointed in this picture. The present Governor of Texas does a small bit in the picture, but it is the opinion of this column that many of you will not recognize him. The picture is of no value what so ever so far as the history of Texas is concerned. There is nothing that one could not get out of a 'dime novel' and for that reason the picture is definitely a flop.
