## Broncs Show Respect For Aggies By Placing Four On All-Opponent Team

BY E. C. "JEEP" OATES  
BATTALION SPORTS EDITOR

These "All" teams continue to come to this writer's desk. The latest is an All-Opponent team from Santa Clara, a team that defeated the Maroons 7 to 0. They have a high regard for four of the Aggies. The ones that they named on their first team of All-Opponents are:

Schroeder at end, Boyd at tackle, Audish at guard, and Dick Todd at halfback. Two Arkansas players were also named, giving the S. W. Conference 6 players.

Davey O'Brien and Ki Aldrich have been placed on the National Intercollegiate Sports Writer's All-America. O'Brien piled up a greater percentage of votes in the poll than the previous record set by Jay Bervanger of Chicago.

The trouble with this team is that there is always too many "favorite sons" nominated. Paul Ludlum will tell you what a favorite son is.

Texas Tech is again trying to get in the Southwest Conference. They want to toss Arkansas out and come in their place. If Tech would change some of their tactics, there is little doubt that the conference teams would object to their entrance.

Elmer Tarbox of Tech, in a statewide commercial poll, was voted in as the outstanding player in Texas. O'Brien ran second by about 2000 votes. Tarbox may rate the best in the state, but O'Brien is rated tops in the nation.

Don't get too hot up on the Aggies in their first basketball game Saturday night. They are facing some tough competition and may come out on the underside. That Second Pres. team is one of the best in the state.

The men on the pistol team who earn their minor "T" must purchase them themselves or do without. It is a shame that the athletic department cannot give these men their awards. The pistol team is one of the best teams on the campus and brings this school lots of publicity not only in Texas, but all over the world.

Roy Young, former great Aggie tackle, is back in town after playing with the Washington Redskins this year. Roy says that there is lots of difference between pro and college ball. He says that the boys in the big leagues hit for keeps.

Football lettermen will be announced about the end of next week. It is hard to even make a guess on who will get the coveted awards.

A poll of the sports writers before the season started showed that the teams were favored to finish in the following order:

1. T. C. U.
2. Rice
3. A. & M.
4. Baylor
5. S. M. U.
6. Texas
7. Arkansas

The way they did finish is:

1. T. C. U.
2. S. M. U.
3. Baylor
4. Rice
5. A. & M.
6. Arkansas
7. Texas

Arkansas and Texas tied for sixth and seventh.

Dean Kyle, Chairman of the A. & M. Athletic Council, left today for Dallas where he will attend the annual meeting of the Southwest Conference executives. Kyle says that he is highly in favor of letting Texas Tech of Lubbock into the Southwest Conference.

## SINTON TO BE HOSTS TO AGGIES AND JAVELINAS

Sinton, Texas, Dec. 7. (Sp)—Sinton will be making athletic history on December 19 and 20 when the sport fans will have the privilege of entertaining the Texas Aggies and the A. & I. Javelinas for two games of basketball.

Not only will this be the first intercollegiate athletic contest to be played in Sinton, but it will serve as an informal christening of a new \$85,000 gymnasium. The playing floor of the gym is 100 x 60 feet outside dimensions which will allow for a court of maximum size and also has a large seating capacity. The entire 1007 seats are being reserved for both nights when the Aggies and the Javelinas get together. Reservations are coming in from Aggie fans in surrounding towns. R. R. Gibb, County Agent of San Patricio County, is attempting to make it an Aggie reunion. C. E. Buek, president of the Corpus Christi A. & M. Club, has reserved a large block of tickets. Charles Brown, enthusiastic alumnus, writes in to reserve his tickets and express delight that his Alma Mater is coming to South Texas. The welcome sign will be out on December 19 for the Farmers and Santa Claus.

## TWO FENCERS WIN HONORS

Two members of the Aggie Fencing Club brought home more honors Saturday night when the Houston Recreation Open Fencing Meet came to a close. Leo Levine won first place cups in foil and epee and third place honors in sabre. Leroy Everett, also from Houston, won the cup in sabre and second in foil and epee.

## BEARS HAVE FOUR LETTERMEN BACK FOR BASKETBALL

The Baylor Bears have only four lettermen back for this year's basketball team, but indications are that the Bruins will be much stronger this year than last.

To go with last year's veterans, Coach Ralph Wolfe will have several outstanding transfer court stars and the entire freshman team of last year which won the state A.A.U. tournament. The average height of the team will be six foot-two.

Sherman Barnes, guard who stands six foot-two and a half in his stocking feet; Charles Boswell, midget five-eight guard; Pete Creasey, a six-three handy man who can play and position and Happy Shahan, six foot floorman are the returning lettermen.

Last year's frosh players who are expected to break right into the lineup are Grady Vaughn, point getting forward, Jerry Walters, six foot-two forward, Frank Briski, tall boy of the squad at six foot-four, Joe Terry, six-two guard and Loy Gilbert, shifty ball handler who comes in at six foot three.

## Apiculturist Speaks To Entomology Club

H. B. Parks, Chief of the Division of Apiculture, and in charge of the Apicultural Research Laboratory located near San Antonio, spoke to the Entomology Club at its Wednesday night meeting.

Mr. Parks, who was introduced by C. J. Burgin, State Foul-Brood Inspector, spoke on the work being done to develop a foul-brood resistant strain of bees, and on interesting experiences he has had in work other than apiculture. Mr. Parks is known, not only for his apicultural work, but also for his work in botany, geology, and entomology. In collaboration with V. L. Cory, he prepared the "Catalogue of the Flora of the State of Texas," the first statewide list of Texas plants. In entomology his insect-collecting activities have been extensive, as evidenced by the numerous species named after him.

IF YOU SAY A PERSON IS "ordinary" you are disparaging him to a certain extent. But if you call him "ornery" or "onery" you express contempt, although these words are corruptions of the term "ordinary." The corrupted terms came originally from England and Ireland.

## AGGIES OPEN SEASON AGAINST HOUSTON QUINTET

BY TOM DARROW  
Asst Sports Editor

The Texas Aggies will open their 1938-39 basketball season Saturday night at 7:30, in Memorial Gym, against the strong Second Presbyterian team of Houston. This is the first game of the year for Capt. Sammy Dwyer and his mates, but that fact detracts nothing from the quality of the opposition. With several former Southwest Conference performers in their ranks, the Houston team comes to College Station as defending City Champs of that city. Two years ago this same team won the State Championship, and is expected by many to repeat again this year.

Coach "Hub" McQuillen announced today that his starting five would consist of the following: Guards—Capt. Dwyer, and Woody Varner; Center—R. E. Wheels; Forwards—B. J. Adams and J. A. Carrigan. While Dwyer is the only letterman, all the starters are squadmen from last year's team. Sure to see lots of service are J. T. Lang as guard and "Big Dog" Dawson at the center position. All team members will get into the fray before it's over, and no doubt there will be several outstanding players uncovered from the large, but unknown, squad that McQuillen has collected together.

Probable starters for the Houston team are: Guards—Joe Conley and John Stafford; Center—Bull Johnson, former Rice star; Forwards—Joe Stafford and Willis Orr, another Rice star of a few years back.

## Baylor Band Best All-Round According To Frog Swingsters

For the third time in four years the Baylor University Band has been named by the Horned Frog Swingsters as the best all-around band encountered during the football season.

The T. C. U. musicians ranked the Baylor Band first in music and in a second-place tie with the Temple Band in drilling. The Aggie Band was unanimously named as the best drilled unit the Frogs saw all season.

The rank of the several bands, as to music and drill, as voted by the T. C. U. musicians is as follows:

Band	Music	Drill
Baylor	1	2
S. M. U.	2	7
Temple	3	2
A. & M.	4	1
Texas	5	4
Rice	6	6
Centenary	7	5

A HUGE MEDICINE SPOON—over three feet long—is a prized gift in Sumatra. Sumatrans believe it will insure good health.

THE ANTARCTIC PRODUCES icebergs that are different from those found in the Arctic. The latter are sections of glaciers which have broken away. The Antarctic variety are broken from shelf ice. They are said to be larger, whiter and float higher out of the water.
