

FIVE MEN—

(Continued from page 1)  
M. K. Thornton, Jr., agricultural chemist of Texas A. & M. Extension Service was born in Helena, State and Columbia University. He was a member of the A. & M. College faculty from 1910 to 1933 with exception of the war days and some time spent in commercial work. He joined the extension staff in 1935, and rounds out 25 years service this month. Thornton has received considerable notice for his research work on cottonseed and its products, petroleum oils and wood preservatives. During his first years with the Extension he concentrated on home tanning of leather, but recently has been following soils work and other lines of agricultural chemistry.

George W. Johnson is A. & M. College Extension Service District agent in the northwest Texas area. He was born in Teneha and attended Sam Houston State Teachers College and Southwestern. He entered extension work in 1912 as Newton county agent, later serving in Nueces county and Sabine county. He has had many years general farm and livestock experience and served for a time as emergency club agent.

A. & M. began honoring its staff members who have served 25 years last year, and tonight's dinner was the second such affair.

WITH ALUMNI—

(Continued from page 1)  
M. Fitzhugh, Garden City; S. M. Ford, Honey Grove; Tom Gaither, Red Oak; L. C. Gates, Johnson City; Fred Gibbs, Crandall; L. K. Gregory, Paradise; Harold Hart, Thackerville, Okla.; J. H. Horn, Abilene; J. R. Jackson, Schulenburg; L. E. Joyner, Tpeau, Okla., and others . . . Robert P. Brauchle, '38, is on a year's tour of active duty, U. S. Army . . . Judge G. Rhea, '38, is with the Texas Relief Commission, Mt. Vernon. . . W. E. "Bill" Stages, '37, coached his Hill-Daisetta High School team thru an undefeated season and to Regional Class B honors . . . Walter "Phoebe" Phythian, '36, coached his Crockett High School team to a District title. . . The Tri-Cities A. & M. Club, composed mostly of young-er A. & M. men in Baytown, Goose Creek, Pelly, recently paid high tribute to the A. & M. Band and expressed the hope the band would not "Fall" for the current trend toward "Swing" music . . . The Ft. Worth A. & M. Club is joining hands with the student Ft. Worth Club to aid in putting over the latter's big Xmas Dance, but President J. B. Thomas, '11, served notice that the youngsters would have to do most of the dancing.

PRECEDENT SET—

(Continued from page 1)  
Between the numbers given by the Band fish were played a number of other records of well-known Christmas music, including an organ recording of "Silent Night," secured for the program from the music company of Thomas Goggan and Brothers, Houston.

Following their part on the program the Band freshmen were given a banquet in the banquet room of the dining hall.

Said J. C. Hotard, Supervisor of Subsistence, "Only a few days ago, inspired by the idea and the success of the Christmas Community Sing of the Cadet Corps, it occurred to me that it would be a nice gesture to have something of the same sort in the mess hall—to have not only a Christmas supper but also an all-Christmas program with proper music and decorations. It is to be hoped that, with the same cooperation the Corps has given this time, the precedent will be continued in future years."

"About six years ago," he continued, "Thanksgiving dinners were served in the form of banquets, served on successive nights to the various battalions separately. These holiday banquets made for greater fellowship; but with the enormous growth of the Corps in recent years this practice has become impossible. I am hoping that this Christmas program has helped to replace the battalion of past years as a means of instilling fellowship and holiday cheer. We not only hope to continue the practice in the future, but also to extend it to other occasions, such as Thanksgiving and Mothers' Day."

DEAN BROOKS OF THE School of Arts and Sciences will address a meeting of the School Executives Association, composed of Southeast Texas educators, at noon Saturday in the Rice Hotel, Houston.

His subject will be "A Review of Reports of the Educational Policies Committee of the National Education Association."

ESSAY CONTEST WINNER RETURNS FROM CHICAGO

S. D. Smith has recently returned from an inspection trip to the Swift & Co. plant in Chicago. Smith, an animal husbandry major from Marathon, Texas, won the trip in a recent essay contest. Swift & Co. annually brings one boy from each large Agricultural College in the U. S. to Chicago to visit their plant.

Smith left here by bus on Nov. 29, and returned Dec. 8. There were 34 boys in the group, representing 34 states. They took four days to go through the plant which covers 58 acres. The studies included the buying of cattle, butchering, packing, record keeping, distribution of the products, and all other phases of the industry.

After finishing the tour of the plant the group visited the International Livestock Exposition, which was taking place in Chicago at that time. Smith states that this was the greatest display of prize livestock that he has ever seen. There were hundreds of championship animals on display, representing almost every State in the Union.

The entire trip was at the expense of Swift & Co.

Entomology Students Visit Department of Health Laboratories

Dr. S. W. Bilsing, head of the entomology department, and a group of entomology students went to Austin Saturday to inspect the malaria research laboratory of the State Department of Health. The group examined the facilities for rearing mosquitoes and directing mosquito control work and malaria surveys, such as the one now in progress at College Station. They were conducted through the laboratory by Theodore McGregor, entomologist of the State Department of Health.

Those making the trip were W. C. Parker, C. F. Towns, J. L. Ward, J. E. Gillaspay, D. F. Martin, C. G. Johnston, H. C. Bate, H. S. Graham, and Martin Cagin.

Department Head Returns From Chicago Exposition Trip

D. W. Williams, head of the Animal Husbandry Department, recently returned from the International Livestock Exposition at Chicago. While there he attended meetings of the American Society of Animal Production, of which he is the retiring president.

This organization is made up of animal husbandry instructors in various schools in the U. S. and Canada. There are 900 members who meet each year at this exposition to exchange ideas and learn of new developments in the field.

While in Chicago, Mr. Williams also attended the annual meeting of the Horse Association of America, and was the official Texas delegate to the Aberdeen Angus breed.

TEACHERS—

(Continued from page 1)

Frizzell of Palestine, A. W. Birdwell of Nacogdoches, H. L. Mills of Houston, George Vidrine of San Antonio, Miss Laura Allison of Austin, Miss Lula Mock of Dallas, B. M. Dinsmore of Electra, John L. Long of Crockett, R. A. Bristor of Waco and Charley Tension of Wichita Falls.

"I have never seen a group more intensely loyal to their organization and willing to aid in its work than the members of the State Teachers Association," Mr. Wilcox said in commenting on the outlook for a successful year as head of the organization.

WHEN SENIORS—

(Continued from page 1)

Walton had announced plans for an extensive enlargement of the college hospital. Some \$50,000 was to be appropriated for the construction of an additional wing on the hospital, doubling its capacity.

Coach A. D. Adamson extended an invitation to any freshmen who wish to do so to come out for the fish swimming team. Promising freshmen swimmers who had already reported for practice were H. D. Gorham, R. G. Pipkin, C. S. Hilton, J. M. Talbot, R. B. Casill, S. W. Summers, T. L. Forehand, J. N. Miller, M. D. Wallis, F. L. Graziar.

Biological Fallacies Explained by LaMotte For Pre-Law Students

Dr. Charles La Motte spoke on popular biological fallacies at a meeting of the Pre-Law club Monday in the Geology lecture room.

He stated that many people today believe shaving hair would make it grow faster and thicker, but this has been proven false by experiments. Also, according to Dr. La Motte, the idea that hair continues growing after death is a fallacy. Actually the hair grows only for a few minutes after the blood circulation has stopped, but as the skin shrinks, the hair sticks out more and more, thus giving the impression of growing.

Some people believe there are pointed snakes, which, when cut into pieces will go back together again. This is not true, he said. Another fallacy many people believe is that people come up three times for air when drowning. This all depends on the amount of air in their lungs; they may not come up at all, he stated.

Bill Murray, also spoke, advocating the cooperation of the clubs on the campus to buy a new, reasonably-priced movie projector.

Murray, acting as representative of the Biology Club, said that educational movie films on practically any subject could be rented for a reasonable sum and used for the different clubs' benefit.

M-P Schedule May Drop Two Trains On College Route

The two day trains of the Missouri Pacific Railroad which pass through College Station may be discontinued, according to officials of the line who visited here and in Bryan Wednesday. Mail will be carried on the night trains if this change is made; however, as good, if not better mail service could be rendered this way than that which is given by the present plan, since the night trains have more connections than do the day trains.

The officials pointed out that day passenger business with light and that these trains were operating at a loss, giving this as the reason for discontinuing the present arrangement.

DAVIS TALKS TO FISH, GAME CLUB

At the regular meeting of the Fish and Game Club Monday night, Dr. William B. Davis gave a talk on the Texas Bighorn Sheep.

These animals do not occur anywhere but in the rough mountainous country of Trans-Pecos Texas. Through the aid of research to determine the requirements of this species, Dr. Davis believes that it may be possible to increase the number of Bighorns in Texas by two or even three times.

He said that the competition of domestic sheep and goats on the Bighorn's natural ranges probably is responsible for their failure to increase in numbers. Ranchers in the area believe that predatory animals such as mountain lions and eagles kill numerous wild sheep, but Dr. Davis says that until evidence is found to prove them guilty, the mountain lions and eagles should not be wantonly killed.

MEMBERS OF THE FACULTY

of the Geology department will leave in all directions from College Station during the Christmas holidays, most of them to be gone for the entire two weeks.

Prof. C. L. Baker will go to the Chinati Mountains, north of the Shafter silver mines in western Presidio County, to study Geology. He will be accompanied by G. N. Johnson and R. H. Howe. The Shafter mines are the only mines in Texas which are operating at the present time, according to Prof. Baker.

Dr. S. S. Goldrich, accompanied by J. F. Smith and Hesse, will go to New York to attend a meeting of the Geological Society of America.

E. E. Tisdale, Gordan Gulmon and R. F. Hodgeman, graduate assistants, will travel to the Canadian Border.

Ashburn Re-elected Chamber Commerce Vice-President

Col. Ike Ashburn of A. & M. was re-elected first vice-president of the Brazos County Chamber of Commerce Wednesday morning as organization for the year was begun. W. R. McCullough of Bryan was elected as the new president and Charles H. Edge as second vice-president.

Under the new plan of organization, moved up from January, all plans for the coming year will be completed, so that announcement made at the annual dinner, which will be held at College on the night of Jan. 12.

New Orleans Gets Cotton Laboratory

The State of Texas as well as A. & M. College was overlooked by Secretary of Agriculture Henry Wallace Wednesday when he announced the selection of the locations for four agricultural research laboratories to be established in the United States soon.

A. & M. had applied for the cotton research laboratory, but after studying more than 200 locations, Mr. Wallace announced that New Orleans was his choice. Three other laboratories will be established, one in Peoria, Illinois, one in Philadelphia, and one in San Francisco.

Dr. Gabbard Speaks

Dr. L. P. Gabbard, chief of the division of Farm and Ranch Economics of the Texas Agricultural Experiment Station, was the speaker at the meeting of the Economics Club held last night in the Asbury room of the Library. His subject was "The Human Element and Agricultural Adjustment", and it proved interesting to members of the club and others who attended the meeting.

NOTICES

There will be a half hour concert of Christmas music on the organ by John Edge Saturday, Dec. 24 from 7:30 to 8:00. This will be broadcast from the dome of the old Main Building and people who wish to park around the building will be able to hear the concert.

Library Hours During the Holidays  
8 a. m.—5 p. m. from Monday Dec. 19 through Friday.  
8 a. m.—12 a. m. Saturdays . . . Closed over the week-ends, at night and on Monday Dec. 26th.

CHURCHES

PRESBYTERIAN NOTICE

9:30 Sunday School  
11:00 Morning Worship in the Y. M. C. A. Chapel.

7:00 The Christmas program presented by the Sunday School in the Y. M. C. A. Parlors. There are two special notices with regard to the church program. The Morning Worship Service will be largely a service of Christmas music, and the public is cordially invited.

The people of the church are asked to bring staple groceries and clothes to the Christmas program to be turned over to Mrs. Marburger's committee for distribution to the poor in the community. We are eager to have a large group at the program and a liberal offering for those who need it so much more than we.

First Baptist Church in Bryan

The First Baptist Church in Bryan wishes every Aggie and each member of the staff a very Merry Christmas and a Happy New Year. A cordial welcome awaits every one who wishes to attend the services during the holidays.

Sunday School, 9:45 a. m.; Morning Worship, 10:30 a. m.; Baptist Training Union, 6:00 p. m. and Evening Worship 7:00 p. m.

Free buses to the church will not run during the holidays, but will resume schedule January 8.

Christian Science Services

Sunday services will be discontinued until January 8, 1939, when they will be resumed.

CLUBS

DALLAS CLUB NOTICE

All Dallas and Dallas county boys are requested to take their blouses home with them over the Christmas holidays; the Mother's Club luncheon will be Wednesday, Dec. 21, and it is desirable to have as many boys in No. 1 uniform as possible at the luncheon.

Also please remember that to get in the Ft. Worth Club dance on Tuesday, December 27, at the Showboat, you will need a Dallas Club membership card. Please get these from Bob Shields at 37 Milner.

WANTED: A house with two, and preferably three bedrooms for use during a part of the Christmas vacation. Call College 279.

**CAMELS** Season's Greetings **PRINCE ALBERT**

Check the smokers on your Christmas list—delight them with these gaily-wrapped, inexpensive gifts—Camels and Prince Albert

CAMELS—What could be a nicer gift for those who smoke cigarettes than Camels, by far the most popular cigarette in America? Remember...Camels are made of finer, MORE EXPENSIVE tobaccos—Turkish and Domestic. There's a world of Christmas cheer in receiving a fine gift of mild, rich-tasting Camel cigarettes—and a lot of satisfaction in giving them too!

PRINCE ALBERT—If you want to please a man who smokes a pipe, give him the tobacco that is extra mild and extra lassy—Prince Albert! Watch his happy smile as he lights up this pipe, rich tobacco that smokes so cool and mellow because it's specially cut and "no-bite" treated. If you want to make this a real Christmas for the pipe-smokers you know—give Prince Albert, the National Joy Smoke.

(left) The handsome Christmas-wrapped Camel carton—10 packs of "20's"—200 cigarettes. Your dealer is featuring it now.

(right) Also featured in a timely holiday dress—four boxes of Camels in "flat fifties." Looks like (and is) a lot of "gift" for what you pay!
