

## CONTEST FOR CANDID CAMERA FANS ANNOUNCED

"Dust off those cameras! Unroll that film! Look around you! And see just how good you are at 'shooting' candid shots of things going on about you." Such might have been the admonition issued today by the staff of the Scientific Review.

It was announced today that the Scientific Review is to sponsor a Candid Camera contest for undergraduate students of A. & M. in an attempt to arouse interest in the field of photography. There are to be two classifications of pictures—one composed of pictures concerning subjects in the agricultural field. There are to be two cash prizes in each classification—a first prize of \$5.00 and a second prize of \$2.00.

The pictures are to be judged upon their news value only. The judges have been selected with the purpose in mind of obtaining men who would know the news value of pictures and whose decisions would be entirely unbiased. The judges for the contest are: Howard Berry, Technical Assistant of the Agricultural Experi-

## Here's a List Of Members of 4 Teams In Intra-Squad Meet

Personnel of the four A. & M. football teams who will compete in the intra-squad tournament which starts at 5:30 today follows:

**New York Giants: Backs**—Marland Jeffrey, Walemon Price, John Kimbrough, James Thomason and Derace Moser. **Ends**—Joe White, Herbert Smith and Bill Duncan. **Tackles**—Joe Boyd and Ernie Pannell. **Guards**—Marshall Robnett and Bill Audish. **Center**—Tommy Vaughn.

**Green Bay Packers: Backs**—Bill Conatser, Bob Hall, Marshall Spivey and Euel Wesson. **Ends**—J. R. Sterling and Willard Clark. **Tackles**—Chipp Reutt and Charles Henke. **Guards**—Pete Henry and Roy Bucek. **Center**—Henry Hauser. Marion Pugh, back, will join this team as soon as he recovers from an operation.

**Washington Redskins: Backs**—Bud Force, Finis White, Carl Geer and Cullen Rogers. **Ends**—Jack Kimbrough and Junior Darby. **Tackles**—Leonard Joeris and Martin Ruby. **Guards**—"Bubba" Reeves and Ed Robnett. **Centers**—Howard Shelton and Odell Herman.

**Chicago Bears: Backs**—Joe Rothe, Ben Griffith, Frank Wood, George Williams, "Bama" Smith, J. A. Abbott, R. W. Mansfield and Alton McEver. **Ends**—Bill Miller, Al Rust, Chester Heiman, Joe Wellborn and H. Boyd. **Tackles**—Grant Smith, Kyle McPhail and Jack Landers. **Guards**—Johnny Storseth, Jude Walker, Gus Bates, Dan Jardell and Zolus Motley.

Unassigned members of the full squad will fill in as reserves for any of the teams.

All games will be played on the practice field and are open to the public at no charge.

ment Station; L. J. Franke, Assistant Extension Editor of The Extension Service; and G. B. Winstead, Director of Publicity. The judges' decisions will be final.

Entries should be plainly marked on the back with the following information: name of entrant, organization, and classification of picture (agricultural or engineering). The inclusion of negatives with each picture will materially aid in the selection of the winners in the case of a close decision. Negatives will be returned. All pictures received will become the property of the Scientific Review. However, a print of a picture will be made for the contestant if he so desires. The winners will be announced and printed in the March issue of the Scientific Review with full credit being given to the photographer.

Entries will be accepted until 12 o'clock mid-night of Monday, March 6, 1939. Contestants may enter as many pictures as they please. Pictures should be turned in to either Charles Jennings, J-13 Hart or Ernie Meynard, J-12 Hart.

## LARGE ATTENDANCE—

(Continued from page 1)

ter an understanding of the three attractions lying between man and woman.

The first attraction, said Dickerson, is that of purely physical desire, an attraction common to both the lower animals and man. The second attraction, and on which raises human relationship above that of the lower animals, is that of mental appeal, which consist of pleasures derived in exchanging ideas and view-points with another person. The third attraction is of a spiritual nature and is a factor tending to make permanent the union of marriage.

A combination of the last two elements of attraction as a union called friendship, but a combination of all three elements go to make up that indefinable something called love. This love can exist only where emotions are mature and consist of all the three elements mentioned. The emotional development to maturity may be prevented by the concentration of the faculties on physical attraction to the detriment of the other two named attractions.

After the meeting a group discussion was held and Dickerson answered questions which were asked from the audience.

Dickerson had a very busy schedule during the time he was here. He arrived Thursday night, Friday at 3 p.m., he lectured to the local Boy Scouts. That night he delivered his main lecture, "Walking Backward into Marriage."

Friday morning at 10 Dickerson lectured on "When a Couple Are Engaged," to a section of the Rural Sociology course in Marriage and Family Relations. Saturday morning at 11 he again spoke on this subject to the other section of this course and the visitors who attended. Saturday afternoon he gave private interviews to all who desired them.

Sunday aftersupper Dickerson presented in the Science lecture room, for the Biology Club and visitors, biological stereopticon slides and motion pictures which have been declared a great achievement in the moving picture field. His films dealt mainly with late microscopical research in the study of the ovulation, fertilization, and development of the egg cells of animals. He preceded and accompanied the illustrative material with a lecture on sex and reproduction, and an open forum followed.

All who heard Mr. Dickerson speak declared his talks very interesting and that he is one of the best-informed speakers on such subjects who has ever favored A. & M. with a lecture visit. In his "bull sessions" with many Aggies he showed himself to be an excellent conversationalist.

## MANUFACTURERS—

(Continued from page 1)

tries to those towns would mean the end of that community."

He also stated that Texas capital is prone to invest in industry, particularly an industry which would have to overcome handicaps.

When John Boland, Bishop farmer, raised the question as why he could sell beef cattle in Kansas City for more money than Fort Worth when the same packer bought it. Warren W. Schoemacher, Armour & Co., vice-president and committee chairman, explained that packers are striving to decentralize their industry by establishing plants nearer markets and thereby sell meat at a lower price.

W. S. Elliot, vice-president, International Harvester Co., Chicago, replied to the charge that agricultural machinery is sold cheaper abroad than at home. "That is a rumor which has been told so often that it has become to be an accepted fact," he said. "The fact is that we get more sales to foreign users than we do at home."

He then quoted from a report of the Federal Trade Commission to substantiate his statements and then explained that his firm does manufacture machinery abroad to benefit by avoiding tariffs, high wages and freight hauls. "However," he said, "I don't believe that those machines could be shipped to America, and be admitted duty free, which they are, and still sell for less than a like American made machine."

When questioned as to equipment price, Elliot laid blame on Labor's doorstep. "All savings made by machine production have been more than offset by increasing in wages."

While not advocating low wages, Elliot said, "It is possible for industry to price itself out of markets and labor is apt to do the same thing—building labor has already. What I believe in is a wage that will move the goods and give labor more days work each year. While wage rates mean purchasing power, they also can mean lost sales."

This discussion concluded the Friday morning meeting.

## 22 WRESTLING BOUTS HELD LAST NIGHT IN GYM

22 wrestling bouts were completed last night to usher that sport into the Intramural program in a big way. Because these matches were in the preliminary rounds and the men were not matched according to their ability, it created some sloppy wrestling and some fairly decent showings on the part of those boys who have participated in this meet before. Both Class A and Class B matches were run off.

With only a few more days to go before the spring rush to gather points for the intramural race, only a small number of speedball games are yet to be completed. These games were left over from the pre-exam days.

Tomorrow will see both classes open the fight for supremacy at throwing the horse shoes. And Thursday will see Class A volleyball make its debut for this year. The same date will see the freshmen try their skill on the handball courts.

## Aubyn Chin Speaks At A. & M. Friday

Aubyn Chin, Chicago, director of consumer relations with the Borden Company, will be the speaker at a meeting sponsored by the Brazos County Federation of Women's Clubs Friday afternoon at 2 in the lecture room of the Agricultural Engineering Building. All students are invited to attend.

Dairy products and the farm family will be Miss Chin's theme.

**ST. MARY'S UNIVERSITY** (San Antonio) is sponsoring student trips to the two world's fairs this summer.

## NOTICES

### SCHEDULE OF EVENTS

Feb. 16—Entertainment Series, Cornelius Vanderbilt, Guion Hall, 8 p. m.

Feb. 17—Picture Show, Benefit Press Club, Assembly Hall, 6:30.

Feb. 17—Basketball game, A. & M. vs. T. C. U., Gym.

Feb. 17—Marketing and Finance Club Dance, Mess Hall, 9 p. m. 'til 1 a. m.

Feb. 20—Basketball game, A. & M. vs. S.M.U., Gymnasium

Feb. 23—Picture Show, Benefit Cream & Kow Klub, Assembly Hall

Feb. 24—Entertainment Series, Posquin Trio, Guion Hall, 8 p. m.

Feb. 24—Field Artillery Ball, Mess Hall, 9 p. m. to 1 p. m.

Monday, Feb. 20, is the last day on which subjects may be added to a student's schedule or dropped without a grade of "P". Those who contemplate making any change in their schedules should arrange with their deans for the change not later than that date.
