Dr. George Truett To Give This Year's Baccalaureate Sermon

Dr. George W. Truett, pastor of the First Baptist Church in Fort Worth, and President of the Baptist World Alliance, has been selected to preach the Baccalaureate sermon for this year's graduating class. The service will be held June 2, at 10:30 a. m. in Guion Hall.

The graduation exercises will be held during the evening of the same date in the college stadium.

There will be approximately 650 candidates for graduation.

63 Per Cent Say They Agree With Economy Measure

BY WALDO NIEBUHR
Student Opinion Surveys of America

AUSTIN, March 4.—Perhaps pointing to future trends in the important American problem of work-relief, college students of today, who may be the nation's leaders of tomorrow have declared themselves in accord with Congress's slash in WPA appropriations, a nation-wide survey shows.

During the closing days of January Congress rebelled at President Roosevelt's spending policies and ordered a \$150,000,000 cut in relief appropriations. That left \$725,000,000 to finance the WPA from February 7 to June 30, instead of the \$875,000,000 proposed by the administration.

In a poll of college youth taken for The Battalion and eighty-two other college newspapers, the Student Opinion Surveys of America asked students, "Do you agree with Congress in reducing relief appropriations?"

YES, answered63.3%
NO, answered36.7%

In keeping with this tendency to oppose the President's policies, the Survey's percentages showing student approval of Franklin D. Roosevelt as chief executive dropped more than two points from the showing during January. College approval of the President has varied during the last three months as follows:

APPROVE OF F. D. R.
Dec. 62.9%; Jan. 65.5%; Feb. 63.2%

However, despite the drop in his popularity during the month, which was probably due to administration bickerings with Congress, Roosevelt still paradoxically has almost exactly as many who approve of him personally as he has opponents to his relief demands.

Breaking down the results of the relief-cut question by sections of the country the Surveys found sizeable majorities in each section

A. & M. Fire Dept. Commended for Work

The A. & M. fire department has been commended on the effective work it is doing in protecting College Station property, thereby lowering fire insurance costs, in a letter received by B. D. Marburger, Superintendent of the Department of Buildings and Utilities, from Marvin Hall, State Fire Insurance Commissioner.

The College Station fire record shows a rise from a fifteen per cent charge to a ten per cent credit, effective March first, Mr. Hall has offered his department's assistance with any fire-fighting and fire protection problems which may arise in College Station.

Harvard University students are approximately two inches taller than the average undergraduate at mid-western universities.

agreeing with Congress:
Far Western States67.8%
Southern States66.7%
East Central States64.0%
West Central States62.4%
New England States62.3%
Middle Atlantic States58.7%

Typical of the comments on the question was the one given by a University of Kentucky arts and sciences student. She said, "Congress has already given out so much money that it has made people lazy, and they don't want to work." Taking another view were many who, like a University of Nebraska student, point out that although they believe relief to be undesirable, they "favor its continuation as long as the need exists."

ERECTION OF NEW DORMS IS WELL UNDER WAY

The new dormitories are coming along on time. They are "in the ground," except for the Mess Hall, and concrete work on six will be complete in a week. The brick work on one, and the roofs on three, will be finished in two or three weeks.

Plumbing and heating roughing-in is well under way on the first three. Lath and plaster work will be started next week. There are now about 500 men on the job. Forty per cent of these are skilled labor. Most of the unskilled work is being done by colored laborers. Some of the men, mostly brick masons, have been brought from as far away as Colorado and Illinois.

Fifty-four per cent of Drake University's students enrolled be-

More than 45,000 of New York University's 200,000 alumni live in New York City.
