

Change in Entertainment Series Recommended

MARKETING AND FINANCE SENIORS LEAVE FOR TRIP

A. & M. seniors in Marketing and Finance, the largest department in the School of Agriculture, will make their annual inspection trips either to Houston or Dallas April 3 to 5.

Those students graduating in June, during the summer or at mid-term next year are eligible to make the inspection trips.

One group will visit various firms in Houston accompanied by Dr. Schlesselman and Professor Cherry, and the other group going to Dallas will be accompanied by Professor Barger, Head of the Agricultural Economics Department, and Professor Paine, where they will also visit various firms.

The Agricultural Economics Department, one of the first to handle a personnel placement bureau for the graduating student majors, is arranging hotel accommodations for those who desire them. Inspection trips to both Houston and Dallas were necessary to take care of the sixty-seven students who plan to make the trip, and it also enables the students to select the town with concerns in which they are most interested.

Tentative Plans Call for Head of All Entertainment

Widespread changes in the entertainment series and other social and business functions of the campus have been recommended to the college authorities by persons connected with the social contacts of the students in an effort to prevent the abolishment of the series entirely and to save the college and the students money on outside contracts, according to announcements made this week.

Tentative plans up for consideration call for the establishment of a head of the entire students contracts to supervise the entertainment and social series and perhaps student concessions, senior ring and invitation contracts and other fiscal dealings of the students which come under the social aspect. This official who would be paid a substantial salary, would be employed permanently by the college and would not be a member of the student body.

The plan does not call for an abolishment of the offices of social secretary and manager of the entertainment series but is designed rather to aid them by saving on contracts with orchestras and entertainment groups while at the same time serving as a protection to the student body both in the saving on contracts and the supervision of accounts. The plan is designed to create more student labor jobs rather than abolish present jobs in connection with these functions and would remain under the control of the present student social committee.

HOTARD—

(Continued from page 1)
Oysters were introduced, and many other tempting dishes enabled the students to have a variety of meals.

Out of the 23 cents which each student pays for a meal comes quality food which would rival that of any big hotel and with a great deal more quantity. Certainly the food does not taste like that the student gets at home, because of the great quantity cooked; however, it possibly doesn't taste as good, because the student doesn't use salt, pepper, and other seasoning placed on the table which would be necessary for personal approval, Mr. Hotard said. Mr. Hotard realizes that some meals have a weak dish which some will like and others will not, but certain dishes are served which all will like. It is natural when feeding 2,739 boys that all can't be satisfied. At the same time, he said.

The loss of spoons, knives, forks, and other equipment which has gone on for years is a great problem when one considers \$15,000 to \$20,000 each year must be spent for replacements. Assistance was asked from the Company Commanders to curtail this loss as much as possible by explaining to the students the advantages of cooperating. If this loss could be stopped, Mr. Hotard said that he would gradually do away with the old and bent equipment, bringing in silver pitchers, silver coffee pots, silver gravy bowls, and other expensive equipment which would last for years and help to make students proud to have guests eat in the Mess Hall.

AT DARTMOUTH COLLEGE old examinations are available to all students in bound files kept in the college library.

Official Notices

SCHEDULE OF EVENTS

- March 31—Pre-Med. Society Benefit show, Assembly Hall, 6:30
- March 31—Sophomore Dance, Mess Hall.
- March 31—Sophomore Dance, Mess Hall, 9 p. m. to 1 a. m.
- April 1—Corps Dance, Mess Hall 9 p. m. to 12.

- April 15—Military Department Horse Show, Horse Show Arena, 1:30 p. m.
- April 15—Hillel Club Dance, 8:45 p. m., Mess Hall.

CIRCULAR NO. 33:

- In compliance with the request of the committee in charge of the Sophomore Dance, approved by the Organization Commanders concerned, the three upper floors of Legett Hall will be vacated by cadets Friday and Saturday night, March 31 and April 1, in order to provide accommodations for visiting girls attending the Sophomore Dance, and Corps Dance on those nights.
- Cadets having guests will be assessed a charge of 50¢ per guest to cover the cost of matrons, maid service, and other incidental expenses.
- The Regimental Commander is charged with the responsibility for seeing that rooms and corridors are left in a neat, orderly condition for the reception of the guests.
- Cadets concerned will vacate those floors of Legett Hall by 1:30 p. m., March 31; guests will be admitted at 3 p. m. Cadets will be readmitted to the hall at 12 noon, April 2, by which time guests must be out of the dormitory.

5. Guests staying in the dormitory must be in not later than 3 a. m., Friday night, and not later than 2 a. m. Saturday night. Guests must check in each night with the matron upon their return to the dormitory after the dance, and they must check out with the matron on their departure from the College for their respective homes. Escorts will be held strictly accountable for compliance with these instructions.

6. Reservations may be made by Sophomores living on the floors designated on Wednesday, March 29, from 8 a. m. until 5 p. m., who wish to reserve their own room. After 5 p. m. on that date reservations will be open to other sophomores.

GEO. F. MOORE
Commandant

AN ERROR WAS MADE IN the recent notice regarding rendition of property for city tax purposes.

By action of the city council, the fiscal year of the city begins April 15. Assessments will be made on property owned in the city limits as of that date. Renditions are to be made by property-holders between April 15 and July 15. Property not rendered on or before July 15 will be automatically assessed.

SIDNEY L. LOVELESS
City Secretary

FROM TIME TO TIME MANY requests are received from parents and students for the services of a tutor in various subjects. There has been no central agency that maintains a list of tutors who are qualified to do coaching in various subjects.

Upon the recommendation of the Student Welfare Committee and the approval of the faculty, the Registrar's Office will serve as a central agency to maintain an approved list of tutors available to do coaching in various subjects.

Applications of students desiring to do tutoring work may now be made at the Registrar's Office. Students desiring to do this work should report to the Registrar's Office and file an application form. These application forms will be submitted to the Heads of Depart-

ments concerned for approval. When approved an eligible list will be maintained in the Registrar's Office.

It is hoped that within a few days this eligible list will be available and students desiring the services of a tutor may call at the Registrar's Office for information as to whom they may contact for help on a certain subject.

I should like to urge that all students desiring to apply for work as a tutor report to the Registrar's Office at their earliest convenience and complete the application form.

E. J. HOWELL
Registrar

THE REV. GORDON M. REESE, rector of the Church of the Redeemer, Houston, will be the preacher at the Lenten Services at St. Thomas' Chapel, Thursday at 7:30 p. m.

LOST

LOST: Billfold sometime Saturday containing \$14 and 3 railroad passes. If found please return to Jack Hall, 35 Leggett for reward.

LOST: A Walkrop hat, size 7 1/4. Has name, W. F. Breihan, inside of brim. Please return to 62 Leggett.

TEXAS A. & M. WILL HAVE at least two representatives at the fifth annual conference of the National Farm Chemurgic Council to be held in Jacksonville, Mississippi March 29 to April 1.

The men representing A. & M. will be D. T. Killough of the Experiment Station and M. K. Thornton of the Extension Service.

This year's Chemurgic Conference will be devoted chiefly to the latest discoveries in paper manufacture from pines and other woods to soybeans as developed in the South, to new and expanded cotton uses, to tung oil and flax, and to sweet potato starch.

ENROLLMENT IN THE WEATHER study course at Hunter College has increased 40 per cent over last year.

CONTRACT GIVES A. & M. WATER SALES RIGHT

A statement made by Jimmy Aston, Bryan city manager, with regard to the appointment of a joint committee representing the municipal city governments of Bryan and College Station to work out and recommend a plan for the sale of water by Bryan to College Station is as follows:

"The purpose of this joint committee is to work out and recommend a contract whereby the City of Bryan can sell water to the municipality of College Station, in order that the latter organization may serve residence areas, which, under the contract between Texas A. & M. and the City of Bryan, the College is not authorized to serve."

This contract, approved by the directors of A. & M. and the Bryan city commission, authorizes the college to sell water to those areas which were connected to the college distribution system at the time the contract was made, or which were not connected to the College distribution system.

It is expected this joint committee, E. W. Steele, J. T. L. McNew and J. Wheeler Barger representing College Station, and Ivan Langford, Jimmy Aston and F. L. Henderson representing Bryan, will meet shortly. When a form of contract is tentatively agreed on, a report will be made to each governing body and another joint meeting of the two is expected to follow.

OIL COMPANY SURVEYS STUDENT FIELD WORK

The Halliburton Oil Well Cementing Company made an electrical log survey Thursday afternoon of the water well drilled by the junior petroleum students in Vance Field behind the petroleum building. The Halliburton introduced this new electrical log survey truck as the "Jeep" to oil field circles last year and since then has made rapid strides in the industry.

The well is 455 feet deep and the water sand, as revealed by the electric log, is 400 feet to 455 feet. The Halliburton crew logged the well several times during the afternoon on different depth scales, and the demonstration was educational as well as of some value as to the whereabouts of the water sand. This is done prior to the running of casing which will be done soon.

Mr. Waters, operator in charge, explained to the students the new automatic photographic recording mechanism the company has perfected which resulted in surveys being made anywhere from 50 to 500 feet per minute. The electric log indicates the type of formation encountered and the depth, and the log can be developed at the well within 15 minutes after the survey had been run.

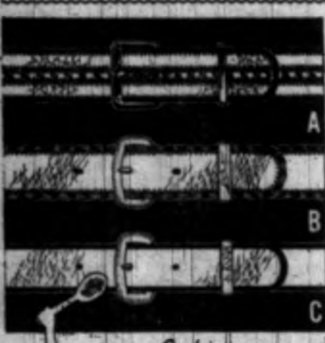

The demonstration was made possible through the combined efforts of Harold Vance and Jack Hayes of the petroleum department and H. F. Clark, assistant superintendent of the Gulf Coast area of the Halliburton Company.

VASSAR COLLEGE IS expanding its instruction in the field of primitive cultures.
