

**Cornell Ornithology Prof Will Give Talk On Bird Life Monday**

Dr. Arthur A. Allen, Professor of Ornithology at Cornell University, and one of the best known authorities on bird life, will give a free illustrated talk on a number of rare and interesting American birds at the Assembly Hall next Monday at 7 p. m.

Dr. Allen is best known for his success in taking moving pictures of birds and recording their songs. He has thus recorded the habits of the rare ivory-billed woodpecker, the lesser prairie chicken and a number of other birds. He will arrive at College today, and spend the week-end photographing and recording the booming of the nearly extinct Attwater Prairie chicken in Colorado County. Dr. W. P. Taylor, Dr. W. B. Davis, and Val-gene Lehmann, officials of the Texas Cooperative Wildlife Research Unit, will accompany him to the breeding grounds of this bird.

Dr. Allen's talk is being sponsored by the Fish and Game Club of A. & M. Dr. Allen is a most entertaining speaker and the program promises to be an interesting one. The public is being invited.

**ASHTON WRITES FOR FARM PAPER**

"The Triumph of the Hereford" is the title of an article written recently for the Texas Farming and Citriculture Magazine by Dr. John Ashton of the A. & M. Rural Sociology Department.

A history of the development of the breed in England, its first famous breeders, and the story of the importation of the Hereford breed to this country are included.

**SPORT SHIRTS  
SLACKS AND  
MATCHING  
ENSEMBLES**

**T.S.C.W. Sophomore Class Will Hold Its Annual Ball Saturday**

The sophomore class of the Texas State College for Women, commonly known by the Aggies as C. I. A., at Denton, will present its annual class ball tomorrow (Saturday) night.

Bill Murray, editor-elect of The Battalion, who will attend, will try to complete arrangements while there for a regular column from T. S. C. W. for The Battalion for next year.

**MOTHER'S DAY PROGRAM**

(Continued from Page 1)

events from early morning until late afternoon. The Cadet Corps will form on the drill field at 8:30 a. m. Mothers or sweethearts of company commanders will be introduced and will pin flowers on every man in the various companies. The junior and senior officers of each company will select their choice of sophomore members of the company to receive "best-drilled" medals.

A review of the Cadet Corps will follow this ceremony, at 10, and this will be followed by services at Kyle Field honoring parents. An all-student program will be given, with campus leaders taking part along with the A. & M. Glee Club.

A picnic lunch in the stadium will follow with fried chicken and all the trimmings at 12:15 p. m. for all the Aggies and their visitors. After this all the college dormitories will be open to visitors.

A musical program will be given in Guion Hall at 2:30 p. m. featuring Miss Margaret Finney of Temple, and this event will be followed at 3:30 by an exhibition drill by the Ross Volunteers. The day's program will be brought to a close by a concert at 4:30 by the A. & M. College Band under the direction of Lieutenant-Colonel Richard J. Dunn in the triangle near the President's home.

For Engineer's Day the electrical engineering department has arranged exhibits which illustrate the basic principles of electrical phenomena. Such interesting items as a heatless stove, jumping iron rings, cathode ray oscilloscope showing the shape of sound, a stroboscope which makes moving objects stand still, a talking light beam, an electric shooting gallery and a bronze motor will be in operation for visitors to this department.

A liquid air show, magic show, "Onkar" the problem solver, a Rube Goldberg setup, chemical gardens, solid alcohol, a "lie detector" and names weighed and sealed in glass tubes, all await the visitor at the Department of Chemistry and Chemical Engineering.

Civil Engineers will display equipment, test and break steel, cause freak failure of a scaffold, and analyze soils for edification and entertainment of visitors to their exhibition.

Mechanical engineers have arranged a two-day contest of model airplanes both rubber and gasoline powered which is calculated to draw entries from Houston, Dallas, Fort Worth, Beaumont and many other sections of the state. Cash prizes and merchandise will go to the winners. Exhibition flights will be held on the Artillery drill field Saturday and at Basso Airport on the Madisonville highway Sunday. In addition to the contest, displays of foundry equipment, metallurgy, tools, gauges and machines have been arranged. The students will stage an eruption of a miniature Mt. Vesuvius in the A. & M. foundry at 7:45 p. m. Saturday.

Architectural engineers have arranged numerous exhibits of design, models, freehand drawings, watercolors and a construction materials museum for the visitor. Petroleum engineers will display laboratory equipment and show a drilling rig in operation.

More than 10,000 visitors are expected to throng the 5,500 acre campus of A. & M. for the two-day festivities.

**Many Wonders To Be Seen at New York World's Fair**

Pillars of flame will startle visitors to the New York World's Fair of 1939. They will be seen at the gas exhibition. Among the electrical wonders will be a tiny lamp that can be held in the palm of the hand, yet whose light is more intense than the sun's.

If the flower bulbs in the grounds of the New York World's Fair were planted in solid rows in open fields, eight acres would be required to hold them. A million tulips, hyacinths and scillas will bloom this Spring.

More than 100 nurses will assist a corps of physicians at ten first-aid stations on the grounds of the fair. Despite accident prevention measures, Fair officials estimate that 40,000 of the 60,000,000 visitors will receive some degree of medical service.

Unlike the "white fairs" of the past, the New York World's Fair, representing "The World of Tomorrow," will be a fairland of color. Exhaustive research has made available to architects and decorators 499 carefully graduated shades.

For the first time in the history of international exhibitions, the World's Fair will devote an entire building to apparel and accessories. The Hall of Fashion will contain all that is dear to women in her costuming and the things that go with it. Hats, jewels, furs and handbags will occupy an important part of the exhibition.

A new international broadcasting station, TAQ, has brought the voice of Turkey across land and sea to the United States for the first time. President Ismet Inönü addressed American in a "Salute of Nations" program under the auspices of the New York World's Fair.

**Texas Lutherans Will Meet in San Marcos on Sunday**

The annual convention of the Texas Lutheran Students Association, composed of students from Texas University, San Marcos, Texas Lutheran College and A. & M., will be held in San Marcos on Sunday, May 7. U. C. Hopman, A. & M. senior, is president of the association.

The University of Pittsburgh chapter of Phi Eta Sigma gives free tutorial service to all Pitt students.

**Official Notices**

THE FOLLOWING RULE IS repeated for the information of candidates for degrees at the June Commencement:

"Advanced Course R.O.T.C. students who are awarded degrees at the June Commencement are required to attend the graduation exercises in No. 1 Uniform, and non-ROTC students are required to attend in appropriate academic costume."

I am informed that relatively few caps and gowns have been ordered. Noon Saturday, May 6, is the latest date on which these orders can be sent in with assurance that the garments will be received. Students who do not provide themselves with appropriate costume will not be eligible to participate in the graduation exercises.

The Exchange Store will receive orders without requiring a deposit at this time.

DEAN F. C. BOLTON

ALL STUDENTS WHO EXPECT to hold any job under the direction of the Student Labor Committee next September are reminded that they must file the new application form. This ruling applies to all students now employed as well as to present applicants. Blanks may be secured between the hours of 1 and 5 at the office of the Chairman of the Student Labor Committee, Room 215 Administration Building.

ALL SENIORS IN THE school of Agriculture are requested to come by my office and fill out personnel sheets.

E. J. KYLE, Dean
