

SUMMER EVENTS—

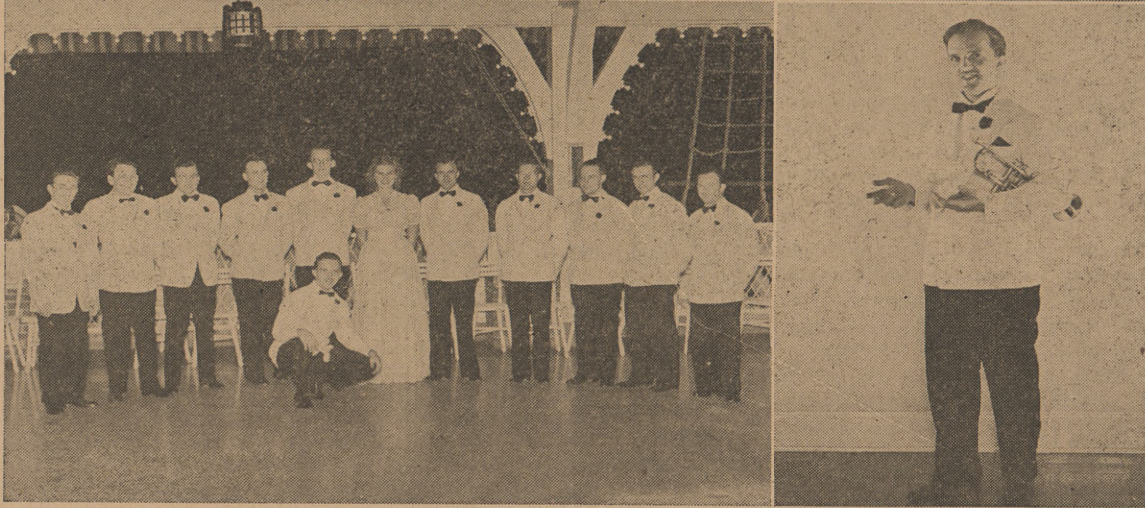

(Continued from page 4)
YARTZ WINS SCHOLARSHIP
 Johnny Yartz, 17-year-old Port Arthur, Texas boy, was the recipient of the \$300 A. & M. scholarship awarded annually by the Port Arthur A. & M. Club. This scholarship combines a \$150 cash gift from the club with a student job at the college through which an additional \$150 may be earned.

MUSEUM GETS \$500
 The Geological Society of America made a grant of \$500 to C. J. Hesse, assistant curator of the A. & M. Museum. This money is to provide the services of an artist to make suitable drawings of the more important specimens in the famous Mark Francis collection of fossil vertebrates. Hal Moseley of the Department of Architecture is making the drawings.

 1st Lieutenant Schmidt, W. A. Second in Command
 Act. 1st Sgt. Bullard, A. L.
- By order of Colonel MOORE:
 CLAUDE F. BURBACH
 Captain, F. A.
 Adjutant

They Played for Second Summer Prom

Johnny Sullivan and his popular Houston orchestra, which played for the Pasture Prom.

DENNY AND PERKINS BEST SPORTS STARS

"Chick" Denny was judged the best all-round boy athlete during the first semester. Denny is a Field Artillery senior this year. Josephine Perkins, Rice Institute coed of Houston, was chosen as the best all-round sports girl.

CORPS ORGANIZATION CHANGES MADE

With the announcement that there will be no more day-student organizations, the Commandant's Office revealed many changes in corps organization for the 1939-40 session. The changes included the manner in which day-students would be assimilated into the dormitory organizations, the number of juniors and seniors in each organization, the separation of the various military staffs from organizations, and the addition of a third battalion to the Field Artillery Regiment.

NEW EXCESS CUTS RULING

Instead of reducing a student's grade because of excess absences as has been the rule in the past, a new ruling provides that for every two unexcused cuts above the credit value of the course in any one semester, one grade point will be deducted from that student's grade point total. This was the Registrar's answer to an apparent desire on the part of the student body for a change in the system.

SECOND-SEMESTER ENROLLMENT

The summer session's second semester witnessed an enrollment drop with a registration of 1,138, which included 43 women.

FIREMEN'S TRAINING SCHOOL

More than 550 firemen from 280 Texas towns and cities convened for the tenth annual Firemen's Training School. The five-day meet began Monday, July 17, and saw the firemen study new developments in fire-fighting technique and equipment.

LAST TWO SERIES PROGRAMS

The summer entertainment series ended with two popular numbers following close to each other, was presented on Wednesday night, July 19, and the next day Loring Campbell, magician of note, presented his show in the Assembly Hall.

SEABOARD WINS FIRST ROUND IN SOFTBALL

Seaboard Life Insurance Company won the first round of the Twilight Softball League. The second-semester league, however, was composed of only six teams as the Ag Educators and Seaboard dropped out.

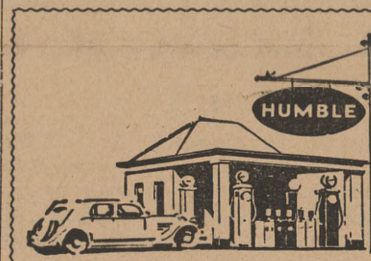

SUMMER PRESS CLUB BANQUET

The Summer Press Club banquet was held in Sbis Hall Friday night, July 21, with 40 persons in attendance. The banquet was addressed by Col. Ike Ashburn and

was attended by many of the college officials.

VOCATIONAL AG COURSES

August 9 to 12 witnessed the convening of 600 vocational agricultural teachers on the campus for their annual short course. They were preceded by 650 Farm Security Administration agents who held their fifth annual conference here from July 31 to August 4.

RUSSELL STUDIES COOPERATIVES

On July 26 Dan Russell left for a four-weeks' tour of Nova Scotia to study the cooperative system there and see how its outstanding features might be applied to the A. & M. system.

N. Y. A. FUNDS INCREASED

Texas A. & M. will receive \$10,173—an increase of thirty-five percent over last year—in National Youth Administration funds used to create student part-time employment during the current long session, according to an announcement made by J. C. Kellam, state administrator of N. Y. A. funds.

The figure was considerably more than was expected and O. R. Simpson, Director of Student employment, pointed out that this would mean an additional hundred jobs.

AGGIE HIGHWAYING CHAMPION

Aggie Keyes Carson, founder of the National College and University Travel Club, set a hitch-hiking record in "thumbing" from Texas to New York City and then to San Francisco. He made it from the

Atlantic to the Pacific coast in four days.

SECOND SUMMER PROM IS SUCCESS

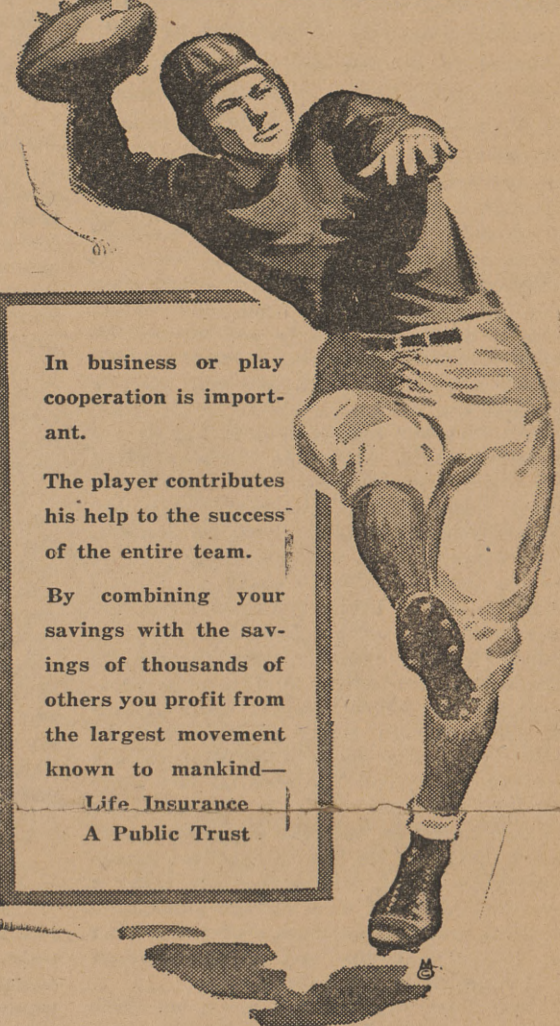

The summer session's second Pasture Prom, mindful of the success of its forerunner, moved into Sbis Hall with a top-flight orchestra and made another hit. Chair-manned by Charles Ballowe the prom attracted over 350 people who danced to the music of John Sullivan and his orchestra, who made a big hit. Sullivan's group had a repertoire of more than 900 pieces with them.

AIR-CONDITIONERS CONVENE

August 17 to 19 were the dates of the annual air-conditioners' short course. Sponsored by the Mechanical Engineering Department, the meeting was attended by over 100 men.

And so it went . . . Final Examinations were taken and the 1939 summer session was officially over. A summer session that brought out many unprecedented happenings, the nearly 2,000 students who attended it look back on it as the first A. & M. summer school which had a long-term atmosphere.

A BIG COOPERATIVE MOVEMENT

In business or play cooperation is important.

The player contributes his help to the success of the entire team.

By combining your savings with the savings of thousands of others you profit from the largest movement known to mankind—

Even a Railroad Spike can't "take it" like this Jewel of a Parker Pen

SAYS THE RAILROAD SPIKE—
 "IN ONE OF THE 5 TORTURE TESTS I WAS CRIPPLED FOR LIFE BY FERRIC CHLORIDE (ACID) SOLUTION."

SAYS THE PARKER VACUMATIC—
 "I WAS FILLED WITH THE SAME ACID—WROTE ALL DAY—A 5-MILE LINE—AND I'M JUST AS GOOD AS EVER!"

GUARANTEED FOR LIFE

(against everything except loss or intentional damage)

We're using more than 250 college papers to tell students of the 5 devastating and deactivating tests recently performed by the Parker Vacumatic to prove it will last for life. No other pen we know has ever faced such torture. Yet the Parker Vacumatic did it—can do it any time—and come forth in perfect working order.

1st—Filled with Acid (strong ferric chloride solution which ate away a railroad spike) instead of with ink, this incredible pen wrote a 5-mile line with the acid on a revolving paper-covered drum and finished in perfect working order.

2nd—"Bomb" Test: Parker's Diaphragm filler encased in an oxygen bomb FOR WEEKS, where a single day equals 6 months' normal age—to prove its long life.

3rd—"Electrocution": Every Parker Diaphragm proved 100% leak-proof by exposing it to 5,000 volts of electricity which flashes a red light if there's even a pinhole leak.

4th—"Drip Test": Pens filled and hung points down for hours in frigid temperature, then in torrid temperature.

5th—"Dropped 3,000 ft. from an airplane to prove the lovely laminated pearl barrel and cap are Non-Breakable. You never saw such a pen. You never owned one. A sacless pen that holds far more ink than ordinary rubber sac pens—shows the ink level at all times, hence won't run dry without warning, in classes or exams. So go and see it now and get it for college and for life.

Pencils to Match: \$350 to \$500
Parker
 VACUMATIC
 Pens: All 14K Gold Points—\$500 to \$1250

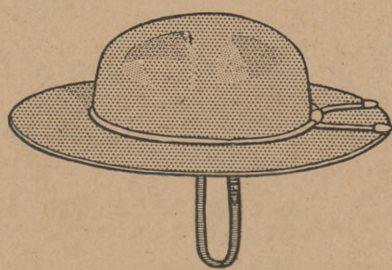

Pens marked with the Blue Diamond are guaranteed for the life of the owner against everything except loss or intentional damage, subject only to a charge of 35c for postage, insurance and handling, provided complete pen is returned for service.

The Parker Pen Co., Janesville, Wis.
