

ON KYLE FIELD

By E. C. "JEEP" OATES
Battalion Sports Editor

Pinch hitting for the "Jeep" doesn't seem as easy as it should be. Always on the go, but anyway here's some first hand dope—Hub.

The team practiced in El Paso Tuesday night and in Los Angeles last night. All the boys seemed to be in good shape except Price, so it looks as though Jeffrey will start the game.

A brown football instead of a white one will be used in the game tomorrow night. Coach L. T. "Buck" Shaw of the Santa Clara Broncos is holding the Aggie team to the rule that a tan football must be used unless coaches consent to the use of a white one.

It's a different kind of football when you ask the coach to cut you off the traveling squad, especial-

SANKEY PARK

JIMMIE PARKER ALMOST MISSED TEAM SPECIAL

Near catastrophe was avoided Monday night by Gus Bates' mad race to Houston.

Jimmie Parker, our likeable team manager from Garland, was almost left behind on the above night when the streamliner left here carrying the Aggie football team to California.

During the process of boarding the train on the run, the bags were being thrown on by the freshmen and Jimmie was on the platform catching them. Bates hand seemed to intercede and the last bag fell short.

According to reports, Jimmie was told by one of the railroad men to jump off and get it while they held the train. He jumped, but as he ran back less than a car length the train pulled out and left him holding the bag. He raced back to the station and caught Coach Marty Karow at the platform.

Having failed in their efforts to have the train stopped at Navasota, Marty, Jimmie and the bag all piled into Gus Bates' sport roadster and headed for Houston.

They reached Navasota in time to see the streamliner flash through; their arrival in Hempstead was more timely but the train didn't stop, so they continued their mad rush to Houston and arrived only ten minutes behind the train.

Coach Norton had been wired that the car was coming and was prepared to stall the departure of the coastward bound streamliner until Jimmie's arrival. This proved unnecessary however, as the local agent had made arrangements to hold the train twenty minutes in the connection.

There would have been one very disappointed Aggie on our campus had the connection not been made, for he has worked hard to earn the trip and we all know the disappointment that he would have felt had he been left behind.

Baylor Bears Tackle Oklahomans Saturday

The Baylor Bears will go out after their second win of the year Saturday when they go up against the Oklahoma A. & M. Cowboys in Stillwater.

The Bruins were none too impressive in their 34 to 0 win over Southwestern last weekend, and head coach Morley Jennings spent the entire week ironing out the numerous flaws in the Baylor play. The Baptist gridders showed plenty of power at times on both their passing and running plays against the weaker Southwestern eleven, but the Baylor coaches were not fully satisfied with the performance of their charges and are looking for the Bears to make a better showing against the Oklahoma eleven.

Baylor sophomores played a big part in the Bears' opening game, as Jack Wilson and Dwight Parks both gave a good account of themselves while they were in the game. Bear veterans came through with standout performances in the forward wall, and if the Baylor eleven can get an even break in their overhead play, the Oklahoma A. & M. team may be in for a rough afternoon.

ly when the team is headed to sunny California. John "Bubba" Reeves, guard, thinks his studies in Civil Engineering are more important to him than the trip West.

"Bubba" asked Coach Norton to replace him by Howard Shelton, squadman center, so that he might help keep his "Blue Boys" in condition. This change was made after the traveling list was posted.

H. B. McElroy of the Publicity Dept says, "The next time you see an Aggie Football game watch for No. 24—that's "Bubba" Reeves, captain of the "Blue Boys". Give him a hand, for he's all right.

In years past students of A. & M. have been admitted to the first freshman football game of the season, usually played between the fish and Allen Academy in Bryan, on their coupon books. This year the game again will be played with the Allen Boys but coupon books will not be honored.

Pass Is Safer Than Ground Play, Says Dutch Meyer

Dave O'Brien Might Not Have Been All-American Anywhere Else, He Says

The football pass is less dangerous and treacherous than ground plays, in the opinion of L. R. (Dutch) Meyer, coach of the undefeated 1938 football team at Texas Christian University.

In most parts of the Southwest, Meyer said in an article in the latest issue of the Saturday Evening Post, "the pass is a normal part of the offense, not a dangerous maneuver to be used sparingly and in faint hope," and he backs that up with the figures that in 1938 the Frogs passed 229 times and in 11 games lost the ball only seven times by interception, but 17 times by fumbles.

"Throughout 1938 pass plays were the safest thing we tried," Meyer says in the article. "Only two things are necessary to unlimber the bombers: One is to have a team on the field. The other is to have possession of the leather anywhere on the field.

"Mind you, I do not contend that a team can get out there and play catch all afternoon. Many an enemy outfit, with a fast and smart defense, will have you eating passes before quitting time if you can't do anything but peg to second base. You must be able to go places on the ground, too. But, in our recent experiences passes have been less dangerous and less treacherous than ground plays.

"The necessity of a well-rounded offense is becoming more obvious every season."

Dave O'Brien, the passing sensation of 1938, might not have made the team anywhere else in the United States, according to Meyer. "He is a top hand in all departments, as fans of the Philadelphia Eagles will discover this fall,"

A. & M. Predicted To Clip Santa Clara In Friday Game

By PAUL B. WILLIAMSON

In 281 games, including late returns from the previous week and Sunday games, the Williamson system was 85 per cent correct on predictions. That was a big comedown from the previous week, when the percentage was 93. The drop was due to many fluke scores that surprised everybody.

This week the System surely ought to beat last week's, even if it starts with the following picks against popular fancy:

Oklahoma to barely bottle up De Correvant and company at Northwestern.

Marquette over Kansas State. St. Mary's of Texas over Toledo. Texas over Wisconsin by a hair. Kentucky over Vanderbilt, after so long a time.

Other close contests should be Fordham over Alabama, Navy over Virginia, Texas Mines over Hardin-Simmons, Tulane over Auburn, Trinity of Texas over Mc-

says the article. "But many coaches would have hesitated because of its size which would have been of little value in a pure smashing game. It is likely that both Baugh (Slingin' Sammy) and O'Brien reached full flower as footballers because of their time and place—not because they played on our teams necessarily, but because they played in our section."

Aggies Tackle Santa Clara Broncos Friday

Broncs Will Attempt To Repeat Last Year's Win Over Aggies

By AMOS WOMBLE

The Aggies will be fighting a rough fight from the starting whistle to the sound of the gun Friday night as they face the Santa Clara Broncos. With a 7 to 0 win over the Aggies last year, Santa Clara will be on her toes and confident of another victory. Besides the victory over the Aggies the Broncos have a tie on her hands from last week and this will only make the Broncos more determined to win.

Besides being a fast shifty team the Broncos proved themselves well equipped in the art of tossing the pig-skin in last week's game. Santa Clara's aerial attack clicked perfectly, resulting in a score in the first quarter of the game against Utah University.

Johnson is one man on the Broncos team to be watched. After bringing the ball from the mid strip

of the field to Utah's 25 yard line, Johnson then passed to Heiser who lateraled to Roche who made his way down to the 9 yard marker. Roche then took another pass for a touchdown. Johnson also kicked the extra point.

The Aggies are in top shape except for Price, and he ought to arrive in California ready for the Friday game.

Probable line up from last week's showing.

Aggies	Santa Clara
Buchanan	LE..... Thom
Pannell	LT..... Stubler
Robnett	LG..... Hagan
Vaughn	C..... Schiechl
Henke	RG..... O'Connor
Boyd	RT..... Toomey

By burning 25% slower than the average of the 15 other of the largest-selling brands tested—slower than any of them—CAMELS give a smoking plus equal to

5 EXTRA SMOKES PER PACK

Here are the facts about cigarettes recently confirmed through scientific laboratory tests of 16 of the largest-selling brands:

1 CAMELS were found to contain more tobacco by weight than the average for the 15 other of the largest-selling brands.

2 Camels burned slower than any other brand tested—25% slower than the average time of the 15 other of the largest-selling brands! By burning 25% slower, on the average, Camels give smokers the equivalent of 5 extra smokes per pack!

3 In the same tests, Camels held their ash far longer than the average time for all the other brands. Yes, those choicer tobaccos for which Camel pays millions more do make a difference! Camels are the quality cigarette every smoker can afford.

MORE PLEASURE PER PUFF—MORE PUFFS PER PACK—

Penny for penny your best cigarette buy

"With a cigarette as good as CAMEL, it's swell to get those extra puffs!"

SAYS LLOYD CHILD, FAMOUS POWER-DIVE TEST PILOT

LLOYD CHILD at Buffalo Airport, scene of his recent world record power-dive—more than 575 m.p.h. in the Curtiss Hawk 75-A—pauses to give his slant on cigarettes: "I've smoked Camels for about fifteen years. I knew that they were the long-burning cigarette. That means more smoking for my money. On a pack of twenty, as those scientific reports show, it's like getting five extra smokes per pack. It's the right kind of smoking, too—mild and swell, cooler, non-irritating, better for my kind of steady, day-after-day smoking." Don't miss the fun of smoking Camels! Enjoy their matchless blend of choice tobaccos...while enjoying the economy of that long-burning feature that makes Camels "penny for penny your best cigarette buy."

CAMELS—Long-Burning Costlier Tobaccos
