

# THESE MEN CARRY AGGIE HOPES AGAINST FROGS TODAY

**MARION PUGH.** Even though he won his varsity letter last year, he ran into a series of injuries which kept him from hitting top form during the season. At North side high, Fort Worth, he won letters three times each in football and basketball, twice in track and once in baseball. He is a letterman in baseball at A. & M.

**BILL CONATSER** won his initial varsity football letter as a back in 1938. He won his freshman football and track numeral in 1937-38 after arriving at Aggieland from Denison high school. While there he lettered three years each in football and basketball teams and was an all-district gridster in 1936.

**BILL DUNCAN** won his first football letter in 1938 after serving as a squadman in 1937. He won his freshman grid and track numerals in 1935-36 after lettering twice in football and once in basketball at Wichita Falls high school, where he also won all-district honors and all-state mention. His father is an Aggie letterman.

**HERB SMITH** is a small but mighty man. This boy who two letters in football at A. & M. and appears to be heading for another. He came to A. & M. from San Angelo high school where he won three letters in football and one in track and was picked for all-state grid honors in 1935 and was on his all-district team twice.

**EDWARD ROBNETT**, like his brother Marshall, came to the Aggies as a fullback and won his freshman numeral but is now striving for one of the guard positions. He won three letters in football and in basketball at Cooper high school.

**JOE BOYD**, All-Southwest Conference tackle in 1938, is rated by Coach Norton as a likely prospect for All-American honors this year. Started as a sub in 1937, he ended the season as a starting tackle and won his first varsity letter. He won one football letter each from Dallas Technical high school and Paris Junior College before coming to A. & M.

**TOMMIE VAUGHN** started as a third string center and climbed to the starting pivot man in the first three games, and from then was hard to get out of the lineup. He came to A. & M. from Brownwood high where he won two football letters and was an all-district man.

**ODELL HERMAN** lettered last year as a back, but Coach Norton moved him to center during spring practice where he is running on equal terms with Vaughn. He is the better pass defense man of the two. He hails from Abilene where he won letters in football and basketball and was captain of his team.

**ERNIE PANNELL** is the power on the other side of the line from Joe Boyd. He alternated with George Branson last year, but is alternating with no one this time. He is as good a lineman as there is in the conference. He is a junior and a letterman. He calls Waco home.

**CHARLIE HENKE** is another Kerrville lad. He won a letter last year as a sophomore at tackle, but moved to guard this year where he is holding down the first string job. Henke goes over the 200 pound mark and uses it to good advantage. He made the All-District team in high school.

**JAMES STERLING** of Panhandle is the second sophomore in the starting aggregation. He has taken the starting end job away from two senior lettermen. Jim is easy to get along with until he gets on the football field and then he turns into a madman. Was the best freshman end in '38.

**JOE WHITE** a senior two-year letterman from Amarillo is playing his last year for the Cadets. During the past two years he has barely beat the injury jinx to his letter. He gives the Cadets six better than good ends. Is a petroleum engineering student and battalion commander in the field artillery.

**JIM THOMASON** is the best blocker on the team and probably the best blocking back in the conference. He was the only sophomore to make the starting lineup in '38. He is a finished linebacker. Although, he very seldom carries the ball he is a better than average ball carrier.

**JOHN KIMBROUGH** is the big 220 pound fullback who is leading the conference in scoring. He is a good blocker and good pass defense man besides being a crushing line rammer. Kimbrough broke into the starting lineup during the middle of the season last year and is a fixture in that position.

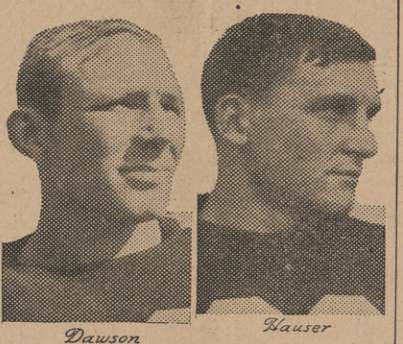

**BILL "ROCK" AUDISH**, built for rough usage, won his second varsity grid letter as a guard last season, after lettering as a back in 1937. He came to A. & M. from Brenham where he lettered four times in football.

**MARSHALL SPIVEY** came to A. & M. from Lufkin high where he lettered in football and track, making all-state his last year. Like Dick Todd, he is an elusive broken field runner and is wearing Todd's old number.

**BILL DAWSON**, big and burley, turned in some good work in his first year as a tackle to win a varsity letter. At present he has shifted to end position. He attended Allen Academy and Lon Morris Junior College before coming to A. & M.

**HENRY HAUSER** was all-state center in 1936 at Kerrville high after winning three grid letters there and captaining the team one year. He won a freshman football numeral at A. & M. in 1937.

## Control Kicking Is Football's Best Trick Says Star

Philadelphia, Oct. 17.—"Control kicking" is football's newest touch-down trick and the most "revolutionary" development in the game since the birth of the forward pass" according to Franny Murray, gridiron star, who gives the details of coffin corner kicking today in an article in the Saturday Evening Post.

Murray who was a star at the University of Pennsylvania and now is with the Philadelphia Eagles says "control kicking" is as easy as any other football job although many coaches believe it is possible only in a standout kicker such as Eric Tipton proved to be in the Duke-Pittsburgh game last year.

And Murray should know because he developed "my own subpar average of thirty-two yards to fifty-six yards for Pennsylvania's traditional closing game with Cornell in 1935" and adds that this phenomenal 75 per cent increase "stemmed from one three-hour emergency session."

That session, he reveals with LeRoy Mills, a lawyer who was neither a career coach nor a former star, but the outstanding amateur kicking authority in the country, and a man who gave 20 years of his leisure to studying how to kick a football. In that session, Murray says, Mills corrected his slice, taught him a fast getaway and added distance and precision to the effort. And in the Cornell game Murray made a 75-yard kick that was a turning point and averaged 56 yards for the day.

"Once coaches stop treating kicking as football's stepchild, control will be commonplace" the article says.

Frank Carideo of Notre Dame fame was the first control kicker and the first Mills' product. He gave his secret to Army and after Mills had had a session at West Point "control kicking was Army ordinance" says Murray.

Presenting some of Mills' philosophy of the kick, Murray asks what good a fifty yard kick is if it is returned 20 yards, or why battle like wolves for a yard on fourth down and then give away ten or twelve when a punt is returned.

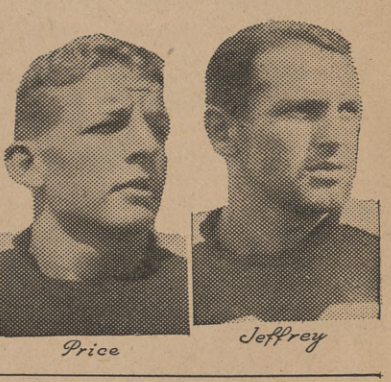

"Coaches moan over 7-6 defeats, yet Mills' training enabled me to

**HENRY FORCE** was one of the sophomore backs withheld from action last year to be developed for service later. He is a shifty runner, a good punter and fair passer as well as being able to quarterback the team.

**CHESTER HEIMANN** was one of the bright prospects of the 1937 freshman squad but was out last year on the eligibility rule. However, he is back in full force this year and should see lots of service.

**WALEMON PRICE** is the senior quarterback, but has been on the injured list for the past two weeks, but is about ready to go again now. He is a two-year letterman and a triple threat. Although, not a distance kicker he boots them in the coffin corner.

**MARLAND JEFFREY** and All-State lad from Port Arthur is a junior letterman. He lettered last season as a quarterback running behind Price. Besides being a football star, he is a letterman on Marty Karow's baseball nine.

## T. C. U. Roster

Leo R. "Dutch" Meyer

Name	Home Town	Pos.	Wt.	Ht.
Chamberlain, Glenn	Sulphur Springs	G	200	6.0
Anderson, Carl	Wichita Falls	T	210	6.1

Jones, Hoover	Lufkin	F	190	6.0

## Baylor Has Record With Six Elizabeths In One Dormitory

When six out of ten girls in the same house have the same name, who's to know who's being paged when the local Lothario runs up the walk and yells "Elizabeth"?

Such is the case in Memorial cottage, dormitory annex at Baylor University, where five out of five house council members have the same name, along with one other who boasts a slight variation but is still "Elizabeth."

The council members are Beth (Elizabeth) Jameson, Dumas, president; Helen Elizabeth Douglas, Lexington, vice-president; Elizabeth Galleher, Houston, secretary;

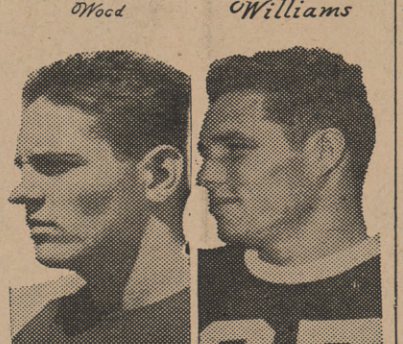

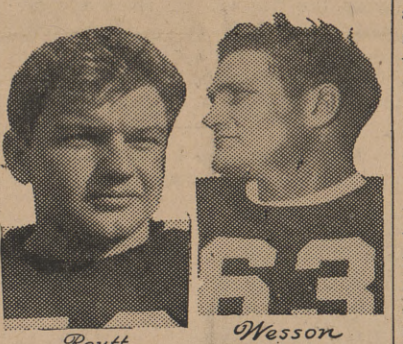

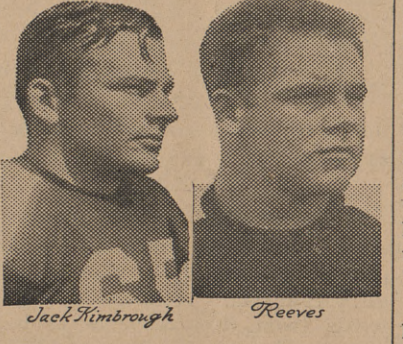

treasurer; Elizabeth Williams, Carizzo Springs, social chairman; and Elizabeth Brown, Sanderson, publicity chairman.

The other "Elizabeth" is Betty Jo Parker, or Elizabeth Josephine, of Lexington, if you prefer it that way.

**ROY BUCEK** came to A. & M. from Schulenburg and won his freshman grid numeral in 1937 and his track numeral in 1938 as a hurdler. In high school he won football and track letters three years each.

**CULLEN ROGERS** is a product of Mart high school where he won letters in football, track and basketball. He won numerals in both football and basketball at A. & M. last year.

**WILLARD CLARK** is another of the bright prospects from the 1938 freshman team and is a first call reserve this year. He won his freshman numeral in football and basketball in 1938-1939 and has a good high school record to back him up.

## A. & M. Roster

Homer H. Norton

Name	Home Town	Pos.	Wt.	Ht.
Reeves, John	San Antonio	G	173	5.7

## Helen Jepson Praises Baylor School Band

Helen Jepson, displaying all the poise she has gained through years of experience in opera, screen and radio, took the baton from Director Everett McCracken, mounted the conductor's platform facing the Baylor Golden Wave band, and called for "Minnie the Moocher."

This performance, however, was for photographers only, following her introduction in the Baylor chapel in connection with the band's initial concert of the season.

Miss Jepson, introduced by President Pat M. Neff, praised the Baylor band for "displaying better tone qualities and volume than I've ever heard in the opening performances of any college musical organization."

She expressed belief that equal opportunities are to be found in radio, screen and opera alike if the individual himself is capable. A much greater voice volume, she explained, is required for opera whereas the voice may be amplified in both radio and screen performances.

## Earl Smith is one of the two out-of-state men on the Aggie team, coming from Frisco City, Alabama. He won his freshman numeral in 1937 but was out of school last year because of scholastic difficulties.

**MARTIN RUBY** was one of the outstanding men in the freshman line last season and is due to see service this year. He won letters in football, track and basketball at Waco high and won all-district in basketball and football
