Intramural Rifle Shooting Competition Is Extended One Week

In order that all units might complete their firing in the intramural rifle competition, an extension of one week has been announced by W. L. Penberthy, director of intramural athletics.

Firing for record must be finished by noon Saturday, November 4. It

was previously announced that record firing would be completed by October 28.

Unusual interest in rifle firing has been shown this year, as every organization on the campus including the team of the students in the non-military dormitory has entered the competition.
