Right Attitude

We like the attitude of John Alex Kimbrough toward his job, which happens to be toting a football in the fall of the year.

New Year's Day John Alec, who is just a kid of 22 years for all his ferocity on the gridiron, ran wild in the Sugar Bowl at New Orleans.

The critics say he won the football classic almost single-handed, but when the yelling was over and John sat in the dressing room, nursing bruised and tired muscles, he summed up the afternoon in a few words:

"All I can say is that I was following ten good men out there."

Another young fellow who completed an amazing feat back in 1927 said about the same thing. "We, my plane and I, flew the Atlantic," said Charles A. Lindbergh, who at that time was not a colonel, a scientist, a society man or a political figure, but only a humble mechanic with a taste for adventure.

In these times when the first person is used so freely by unworthy men, it is refreshing to find a hard-hitting, square shooting young fellow like John Alec Kimbrough using the editorial "we" and giving credit to others.

We need more of that spirit in the world, as an antidote for the Hitlers and Stalins who send young fellows like John Alec out to die on battlefields and then boast about how "I" whipped 'em .--From Houston paper.

Mistakes

When a plumber makes a mistake, he charges twice for it. When a lawyer makes a mistake, it is just what he wanted, because he has a chance to try the case all over again. When a carpenter makes a mistake, it is just what he expected. When a judge makes a mistake, it becomes the law of the land. When a preacher makes a mistake, nobody knows the difference. BUT, when an editor makes a mistake-heaven help him!

Parade of Opinion

By Associated Collegiate Press

FINLAND. Soviet Russia and her communist supporters in the United States have a new place in the minds of the nation's collegians-a position right beside Adolf Hitler and Benito Mussolini in the gallery of those who can no longer have the sympathies of the thinking college youth.

This is the conclusion that must be drawn by a careful study of the shift of student opinion-a shift that was suddenly brought from the "approval" to the "disapproval" end of the opinion-pendulum's swing by the invasion of small Finland by monster Russia. Here is how the college press reacted to the latest dramatic move in the campaign of the totalitarian states for world domination:

Said the Harvard University Crimson: "And now it is Finland. Russia is the arch-criminal this time, not Germany, and so far as the United States is concerned she has committed an outrage with possibly even less justification than those of the Reich. As the (Russia) becomes a great Baltic power again, she appears more like the Imperialistic Russia of old than a new Communist Union, with purely selfish designs intended neither to help nor to hinder Adolf Hitler. For America and the other neutrals, if they were not convinced by the Russo-German alliance last August or the joint Polish seizure of September, the Finnish invasion will remove any hesitation they had in placing Russia and Germany in the same category."

In the same vein, the Cornell University Daily Sun said: "Those communists throughout the world who have been rationalizing the Nazi-Soviet pact, are now faced with a real problem. Their assertions that Russia would never stoop to imperialism were proved lies when the first Red bomb fell on Finland. All that Red Russia stood for in the communist circles of the world has been repudiated. Russia has at last shown her true face to the world and it is not a pretty one. The prospect of a general war has been renewed. Perhaps it is the darkness before the dawn."

In the widdle west, the University of Minnesota Daily continued the nation-wide denunciation of the Russian invasion: "The whole affair was staged with the cold relentlessness of a Chicago gang killing-and with the same effect. When Russia saw that war was the way to win her ends in Finland, she deliberately took the path to war. Nothing short of a complete Finnish surrender could have averted the invasion. Nothing can justify it."

Man, Your Manners—

A person in the street or anywhere in the public should be careful not to talk too loud; do not attract attention to yourself by loud laughing, and, above all, do not wear conspicuous clothes. Your behavior in public is the test of good breeding.

QUESTION: How long should a cadet remain when making a call in the home of a faculty member?-H. I.

ANSWER: If he is calling on business, he should not stay longer than it takes to complete his business. A social call should last about twenty or thirty minutes; if he has been entertained at dinner and no other entainment has been planned, he should not stay longer than an hour after dinner is finished.

of an orphan baby with the help of O'Keefe's sweetheart, Shirley Ross. One night during an act, Mischa Auer hides the baby in a chair which turns out to be a throne for one of the musical numbers. When the curtain opens, the audience goes wild at Sandy's antics in the throne. However at this time the baby's uncle, hearing of the baby's stage success and thinking he could make himself some money, arrives to claim child. The finis is fast and furious with O'Keefe rushing across the state to stop his girl from marrying another man, marrying her himself, and the two adopting the baby. One grade-point.

Boxing for All

In analyzing the value of boxing as a sport the following statements from the book, "Boxing," by O'Brien and Bilik, prove important:

"Boxing is almost an ideal form of physical recreation. It offers the youth and mature man a clever and fascinating athletic pastime. It is a scientific sport combining a form of vigorous exercise with a maximum of mental activity. There is probably no competitive sport that requires as much mental agility as boxing. You have to think while under machine-gun fire. You have to see, plan, and act instantaneously. There is no chance for a second thought, for "time out," or "huddle." Either you have grasped the opportunity or it is gone.

In childhood and youth are laid the foundations of character and health. Boxing aids in the development of both. In itself an excellent form of physical activity, it is rounded out by the supplementary training. Since thorough physical conditioning is an almost indispensable prerequisite in the attainment of proficiency in boxing, those who become interested in the sport usually strive to build up their strength, speed, and stamina.

The vigorous health gained thereby is invariably associated with an abundance of "pep," "drive," "dare," aggressiveness. Boxing breeds confidence, gameness, self-denial, sportsmanship, mental alertness. It enables you to stand a lot of knocking about, to take misfortune with a grin, and good fortune without getting a "swelled head." It teaches self-control under the most trying circumstances, respect and confidence for your fellow beings, tolerance, control of emotions and facial expressions, ability to take and give as a man. General opinion to the contrary, very few boxers are mean or cruel. It is a game to them, a game challenging their manhood, testing their mettle, offering the joy of physical and mental combat, and earning them the knowledge that they have been tried in battle and have not been found wanting. It is an exhaust for the superabundant energy of vigorous youth.

Because of its inestimable value as a health and character builder, boxing should be taught wherever the youth of today is being molded into the man of tomorrow. Colleges have taken up this sport with a vim. I hope to see the day when boxing will be considered as much an essential in the physical education program as is swimming.

Boxing is indeed a fine sport. More Aggies should take part in it here.

By DR. AL NELSON

As the World Turns...

Guam fortification talk revived: defense desires to spend \$4,000,000 there this year and Japan is once more beginning to "throw fits" at the idea. Also, the naval expansion program still contends that their expansion is purely defen-

sive and that their navy should be as large as that of the U.S.

Finns invade Russia-the early Russian news headlines have actually come true at last. After destroying two Russian divisions in quick succession the fighting Finns have crossed the Russian border and are in their turn threatening the Russian R. R supply line.

Maury Maverick, the publicity-Nelson loving mayor of San Antonio, made a speech to the students of Georgia Tech and is reported to have advised the Southerners to "throw in with the Yankees" in order to improve our economic status. The trouble with our economic status now, according to many people, is that it has been thrown in with and by the Yankees too much already, and that we really need consideration according to our separate and individual needs and problems, and not have our problems lumped in with those of sections whose problems of economics are entirely different.

Baths in Germany are not limited to Saturday and Sunday, as that is the only time they are allowed to heat water. (Of course they can take cold baths if they desire.)

Jimmie Cromwell, wealthy husband of superwealthy Doris Duke, has just been appointed minister to Canada, a job where the necessary expenses are more than double the salary allowed. Only a wealthy man can afford to accept the appointment because of the expense of holding down the job.

Secretary Ickes, of the Interior Department, is now telling the nation why certain men would not do for president next term. Ickes says that Garner will not do as a candidate because he is too old, and John Dewey will not be a good Republican candidate because of his age (it seems he is too young). It would be fitting now for Ickes to tell what age has a monopoly on ability.

To the person who wrote an anonymous letter to the editor of The Battalion in regard to Mr. Murphy and Madame Perkins: If the writer will send his name in and acknowledge the letter as his own, it will be printed in full at the request of the writer of this column.
