The manner of selecting members of the society has been changed this year from the system used in previous years. The system now in effect provides that the top 8% of the seniors in each school and the top 4% of the juniors in each school become members in the society if they have no F's. The percentage requirements are based on the number of grade points. Heretofore members in the Scholarship Honor Society have been made up of the top 75 juniors and seniors in each class, but the new system makes the group more select than in the past.

The Scholarship Honor Society, which was founded to give students recognition for outstanding scholarship, meets every second and fourth Thursday nights. Officers of the organization, besides Guy, include D. B. Varner, vice-president, and Carl Schnieder, secretary-treasurer.

The next meeting of the organization will be held January 25 in the Civil Engineering lecture room.

**Football Debate—**  
 (Continued from page 3)  
 debates, Pres. John G. Bowman asserted that recent sports staff upheavals at Pitt were made because "we want most of all that football to be a game for students. I want to keep the game on a truly amateur basis here."  
 However, simon-pure football is not receiving the support of all students, for at many colleges undergraduates have begun movements to subsidize players so that losing streaks may be stopped. At the University of Buffalo, the student newspaper asked the college to give ten tuition scholarships a year to men who would be the nucleus for winning grid teams.  
 Most drastic move in the direction of non-subsidization of players in any form was made by a conference of 30 New England colleges. The code adopted at this conference prohibits coaches from contacting future players and from speaking at high school meetings,

 food conservation.  
 Returning to Texas after the war, Darnell became director of agriculture at John Tarleton Agricultural College at Stephenville. He returned to Texas A. & M. in 1920.  
 He was a member of the first boys' agricultural club in the nation in 1908 and now holds membership in the American Dairy Science Association, American Genetic Association, Texas Jersey Cattle Club, Bryan Chamber of Commerce, Gamma Sigma Delta, the Masons, and the Christian Church.

**Dairy Short Course—**

 ter problems was held.  
 Professor A. V. Moore, of the college dairy husbandry department, and Mr. Hansen addressed the afternoon session on "Butter Audit" and then the rest of the afternoon was given over to laboratory practice with staff specialists leading the work.  
 The annual banquet was held in Sbis Hall Wednesday evening at 7 o'clock with Prof. Charles Shepardson, head of the college dairy husbandry department, serving as toastmaster and M. E. McMurray, manager, Texas Dairy Products Association, Fort Worth, delivering the principal address.  
 The course continues through this morning.

## Football Team Feast Scheduled Tonight

Frank Simon will give a banquet this afternoon beginning at 5:30 at the "rural room" in honor of the football team.  
 Simon has been one of the leading supporters of Coach Homer Norton's charges ever since he has been in business around the college, and has the best picture layout of the football players to be seen at A. & M. It is one that includes some 25 players' signed pictures around a large squad picture.  
 Invitations have already been made and Simon has announced that the supper will be over in time for the boys to attend the Aggie-Rice basketball game, which will begin right after the freshman game between the two schools.  
 and it makes mandatory the keeping of public records of financial aid received by all athletes at member schools. This record must show that an individual receives financial aid only from those upon whom he is naturally dependant for support—otherwise he will be declared ineligible.  
 Meanwhile, the National Collegiate Athletic Association sidestepped the entire subsidization issue by ruling at its national convention that no aid should be given college athletes except pay for legitimate work. The resolution added that workers must put in their time honestly. Of course, violations would call for drastic action against disobeying institutions.  
 Despite all this talk for amateur football, all those directly and indirectly concerned are watching with great interest the progress that southern schools are making with open-and-above-board scholarships to athletes that pay board, room, tuition and a little spending money.

## Billiard Expert Stages Show Here

Charles C. Peterson, famed billiard expert of St. Louis, Missouri, paid his second visit to the A. & M. campus Monday for three demonstrations in the Y.M.C.A. lobby. The first exhibition was held at 10 a. m., the second at 2 p. m. and the third at 7 p. m. to near capacity audiences each time.  
 Peterson, who has taken an active part in the promotion of billiards in the United States for the past 45 years, came to A. & M. from Loyola University and from here went to San Antonio for an exhibition at Randolph Field. He is scheduled for a nation-wide tour in the interest of intercollegiate billiards.  
 Intercollegiate billiard contests conducted by telegraph have been promoted largely due to his efforts, and are now being sponsored by the Association of College Unions headed by H. E. Pride of Iowa State University. The aim of this organization is to divide the United States into four sections, and to

conduct intersectional and intra-sectional matches to determine the national college champion.  
 Peterson lends variety to every exhibition in the same appearance by using different shots and stressing different fine points of the game.  
 Further development in intercollegiate billiards is the formation of a women's division. Illinois University launched the first women's team last year.  
 Peterson began his series of annual billiard appearances in 1931 at Wisconsin University in an effort to revive the game, which he says began to die during the depression.

*Here's ace bike rider Cecil Yates burning up the track at Madison Square Garden. He's won eight six-day bike races!*

*Time out... for a few winks of sleep, a meal, a quick massaging of weary muscles—and a mighty welcome Camel.*

**WHEN** Cecil sprints, the track fairly smokes. But when Cecil smokes, speed's the last thing he wants in his cigarette. Because cigarettes that burn fast can't help but burn hot. And excess heat burns away the tobacco's elements of flavor and fragrance. The result is a hot, flat, unsatisfactory smoke.  
**"Slow-burning cigarettes are cooler, milder, tastier, and more fragrant"—science and common sense both say so. And the slowest-burning cigarette of the 16 largest-selling brands tested was Camel! (The panel to your right gives details.) A few puffs of a Camel tell you that there's more pleasure per puff...and then you find that there are more puffs per pack—an average smoking equivalent of 5 extra smokes!**
