Dial Phones—

(Continued from page 1)
An intercepting board will also be installed in the office. Bryan will be the only city of its size in the state to have such a board. If a person moves and his telephone is disconnected or number is changed, this board will signal an operator who will give the correct number or notify the person calling that the telephone has been disconnected. Without this board, a number may be called without the person calling ever being notified of the change.

To Start February 1st
There will be 42,000 feet of cable installed overhead and underground in the two towns. All equipment will be new. Telephones will be received in lots of 400 starting about February 1. They will be installed as they are received, and will be used as manual telephones until the system is cut over the dial.
With the new system the telephone service and the number of calls that can be put through will be increased 50 per cent. Each day there are approximately 15,000 calls from Bryan, 4,000 between Bryan and College Station. There are about 8,000 each day at College Station. The largest number of calls put through was on Thanksgiving Day when the Aggie-Texas game was played. That day 21,000 calls were put through between Bryan and College Station.

Registration—

(Continued from page 1)
sent to the different deans before registration starts for deficient students.

Classes for the second semester start Tuesday morning, February 13 and any students registering late will be charged with class absences that have occurred.

Fees for the second semester may be paid starting February 1 and must be paid before a student can register for the second semester. February 12 is the last date on which the fees can be paid by old students without being charged the late registration penalty of \$2.00. Fees for the second semester for dormitory students are \$56.50 and \$30.50 for day students, not including the Y. M. C. A. privilege card. All fees for the entire second semester may be paid at this time if the student desires and total \$141.00.

In the re-registration procedure students will be issued assignment cards at the Assembly Hall according to the prearranged schedule. The schedule for issuing of assignment cards for Friday is:

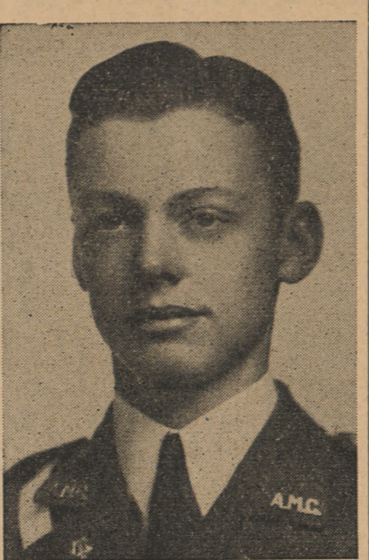

- 7:00 a. m.—All students whose last names begin with J, K, and L.
- 8:00 a. m.—All students whose last names begin with T, U, V, W, X, Y, and Z.
- 9:00 a. m.—All students whose last names begin with A and B.
- 10:00 a. m.—All students whose last names begin with A and S.
- 11:00 a. m.—All students whose last names begin with C, D, E, and F.
- 1:00 p. m.—All students whose last names begin with M, N, O, P, and Q.
- 2:00 p. m.—All students whose last names begin with G, H, and I.
- 3:00 p. m.—All students who have failed to secure their assignment cards at the proper time.

Assignment cards for the different groups will be available only at the times listed above. No rush registration slips will be issued.

The registration schedule has been planned so that the maximum number of students can be registered in the allotted time and the registrar's office asks the cooperation of all students in this matter so that registration can be carried off without needless delays.

Monday, February 26 is the last day of the second semester that students can add or drop courses and receive proper credit for them in the registrar's office.

For I am true to the colors of Maroon and White—
If they win or lose—or if they're wrong or right.
But if they lose, old pal, you'll always hear me say,
Let's go to Ed's and drink our cares away!

I'd rather be out on a corps trip,
No dime to my name.
Than have my picture painted,
In the hall of fame.

Just rather be a plain old Aggie,
No shirt or no tie.
I'll always be an Aggie,
'Til the day I die.

Indiana University students are jittery these days: There's a local fireman who is seen frequently in student meeting places who looks exactly like the university president, Herman B. Wells, and his appearance causes no end of consternation. But the fireman's a thoughtful guy, though, and if you don't believe it, listen to this: "I walk across the campus quite often and always try to be friendly, because I wouldn't want to damage President Wells' reputation for friendliness."

EXTRA MILDNESS **EXTRA COOLNESS** **EXTRA FLAVOR**

MY JOB IS SPEED— BUT MY SMOKE IS SLOW-BURNING CAMELS

FAST BURNING— creates hot flat taste in smoke... ruins delicate flavor, aroma...

SLOW BURNING— protects natural qualities that mean mildness, thrilling taste, fragrance... a cooler smoke...

TAKING IT EASY, Engineer Bronson says: "No speed for me in my cigarette. That slower-burning feature makes sense to me. I've been a Camel smoker for years. I know Camels are milder and always taste swell. And—on the side—I don't object a bit to getting those extra smokes per pack."

THE CENTURY READY TO "HIGHBALL," as they say in railroading! Engineer Walter L. Bronson (above) swings up into the cab of Number 5449, one of the big Hudson type locomotives which flash at 80 miles an hour across the landscape between New York and Chicago in a day-in, day-out epic of modern railroad speed.

HERE'S EXTRA MILDNESS, EXTRA COOLNESS, AND EXTRA FLAVOR, and here's why: Camels are slower-burning. They have thoroughbred quality through and through. Finer, more expensive tobaccos are used, in the first place. And these choice tobaccos are combined into a matchless blend.

Smoke a Camel. Notice how slowly it burns. That is your cue to true cigarette enjoyment—the "extras" of mildness, coolness, flavor—and—extra smoking in every cigarette. Camels burned 25% slower than any other cigarette in recent tests (full details below). You'll always rejoice over the day you switched to Camels!

In recent laboratory tests, CAMELS burned 25% slower than the average of the 15 other of the largest-selling brands tested—slower than any of them. That means, on the average, a smoking plus equal to
