At this time he will also be presented with the honorary degree, B. U. (Bachelor of Ugliness) and his picture will appear in The Battalion and possibly in The Cannon Mountain.

All cadets are eligible to vote and ballots need not be signed. With the exception of the forty-one committee members, Fuermann, and The Battalion editor Bill Mur-

## Ed, C Company T Attend Texas Celebration

### Fa Is Ag

County members of the Aggie and Company C, Infantry, attending the R.O.T.C. unit of this school, will journey to Old Washington Saturday morning, to attend the Texas Independence Day Celebration.

The occasion marks the 104th anniversary of the forming of Texas as Independence and the election of Sam Houston to the presidency of the Republic. Besides Governor O'Daniel, numerous other state officials will be present to tender honor to the birthplace of Texas Independence.

Announcement at the same time was the selection of the store for ladies clothing in Houston, The Fashion, to put on the style show proper. This store will arrange the show, furnish clothes and models, and provide part of the decorations. Of the models, The Fashion announces that the girls will be shapely and not hard to the eyes.

It is interesting to note that winners of contests held in other colleges and universities have often turned the results to personal profit. Texas University's champion a year ago received a movie contract and the winners of similar contests have paved the way to "greener fields" with publicity that came with the colorful and exciting contest.

Already AggieLand has evidenced considerable enthusiasm and nearly twenty candidates have appeared on the horizon energetically backed by self-styled campaign managers.

## Cotton Ball

(Continued from page 1)

Mrs. Fouraker's job will also include the arrangement of the costumes for the duchesses attending. There will be about 90 duchesses invited to participate; invitations have already been sent to various organizations over the state accounting for 76 of that number. These organizations include 31 ex-students' associations, 14 Mothers' Clubs, and to all the senior colleges and universities in Texas and the Southwest.

# LIKES FLASHING SPEED ON SKIS

## EXTRA MILDNESS EXTRA COOLNESS EXTRA FLAVOR

SPEED'S FINE IN SKIING BUT THE 'EXTRAS' IN SMOKING GO WITH SLOWER-BURNING CAMELS

It takes your breath away even to watch him. Down the side of the mountain... a perfect telemark turn... and there he goes... faster and faster. That's Bob Bourdon, former Vermont champion. On skis, he's one of New England's fastest. But in smoking, he's strictly on the slow side. Read what he says (at right).

In the Cannon Mountain Aerial Tramway, Franconia Notch, N. H., Bob Bourdon (above) enjoys a slow-burning Camel. "No speed for me in my smoking," says this ski champion. "Camels are slower-burning and give me extra mildness, extra coolness, and extra flavor."

"THE fastest the going, the more fun in skiing," says Bob Bourdon. But he has a different angle on cigarettes. When Bob Bourdon says: "Slow burning is my guide to more mildness, more coolness, and more flavor," he's putting the stamp of actual smoking experience on the findings of science. Fast burning in a cigarette means heat. Nothing dulls the delicate elements of cigarette flavor and aroma so surely as excess heat. There's little pleasure or comfort in a hot, flat smoke in which the flavor has been burned away. The extra mildness, refreshing coolness, and that smooth, mellow flavor of Camels are confirmed by recent widely reported scientific tests, in which Camels... the cigarette of costlier tobaccos... burned the slowest of the sixteen of the largest-selling brands tested! (See panel at left.) So, change to slow-burning Camels and enjoy extra pleasure and extra smoking.

In recent laboratory tests, CAMELS burned 25% slower than the average of the 15 other of the largest-selling brands tested—slower than any of them. That means, on the average, a smoking plus equal to
