SCHEDULE OF EVENTS

May 20 & 21—Conference of Surveying
 May 22—Reserve Day Banquet, Sbia Hall, 7 p. m.
 May 23 & 24—Fish & Game Club and Poultry Science Club benefit show, Assembly Hall, 7 p. m.
 May 27—"Harvest Picnic", 5:30 p. m. Monday in the Formal Garden at the Administration Building. For graduating students and faculty.
 May 30—Junior Prom
 May 31—Commencement Services, Guion Hall, 10:30 a. m.
 May 31—Final Ball

FELLOWSHIP LUNCHEON

The weekly Fellowship Luncheon will be held every Thursday noon through May 23.

COMMENCEMENT INVITATIONS

The Commencement Committee has on hand a number of "Invitations to the 64th Annual Commencement Exercises." These will be given out to seniors as long as they last. Please call in person at my office, 204 Animal Industries Building, any afternoon beginning Monday, May 20.

E. P. HUMBERT, Chairman
 Commencement Committee

CITY TAXES

All taxpayers of the city of College Station will render their taxes for the year 1940 beginning April 15th at the City Office.

TRIP TO OBSERVATORY

Dr. Everts V. DePew of San Antonio has extended an invitation to the alumni of the University of Chicago and their families to visit the McDonald Observatory on June 27. All alumni interested in making this trip please see me in room 521, Chemistry Building, room so that the necessary arrangements may be made.

W. M. POTTS

RENT HOUSES LISTED

Those residents of College Station who wish to rent their house for the summer, please list it with the Commandant's Office.

Will the student who saw the bread truck back into the red Pontiac coupe Friday afternoon, May 3, in front of the College Courts Coffee Shop, on highway 6, please come by to see me at my earliest convenience, S. B. Apple Jr., 308 Agriculture Building.

ENGINEERING STUDENTS

All senior and junior electrical, mechanical, civil engineering and architectural students are excused from classes at 11 a. m. today to hear Mr. A. F. Dickerson on "Street Lighting" in the Assembly Hall.

All senior and junior electrical engineering and architectural students are excused from classes at 11 a. m. Wednesday, May 22, to hear Mr. A. F. Dickerson on "Modern Illuminants" in the Assembly Hall.

F. C. BOLTON, Dean

AG ENGINEERING 424

Quiz C in Agriculture Engineering 424, "Terracing" for the Wednesday section will be given Wednesday, May 22.

DONALD CHRISTY

PLACEMENT BUREAU

The Placement Bureau is in receipt of an inquiry from a nationally known manufacturer and installer of home heating and air-conditioning systems advising that they are interested in college graduates for sales jobs. They further state that this is more than a straight sales job as it entails engineering and mechanical combinations that should appeal to the technical student. All seniors interested in this should contact the Placement Bureau at once.

The Placement Bureau has received an

inquiry from a large phosphate and chemical company advising that they would be interested in receiving applications from seniors interested in sales work. Additional information on this may be secured from the Placement Bureau.

LUCIAN M. MORGAN,
 Association of Former Students

JOBS FOR SENIORS

The Placement Bureau has received an announcement from a large insurance company of possible openings for young college graduates in the following classifications:

Claims
 Safety Engineering
 Traveling Auditor
 Sales
 Underwriting
 Actuarial

Any senior interested in this should contact the Placement Bureau for additional information.

LUCIAN M. MORGAN,
 Association of Former Students

CHANGE OF ADDRESS

The Post Office Department requests that all students who do not plan to be here for the summer session, turn their forwarding addresses NOW, dated the day they are to become effective. It is highly important that the forwarding address cards be filled out completely. It is urgently requested that those students who receive newspapers, magazines or other periodicals notify the publisher at least four weeks in advance of change of address.

By doing this you will not miss any editions of your publications and greatly help the post office by eliminating this congestion of the mails. Convenient form cards for this purpose can be secured at the windows, free of charge. Patrons of the Main Office are warned that box keys must be turned in before you leave for the summer in order to receive your refund. To those students who will remain for the summer session: Box rent is due June 1st and by paying it before that date you will receive uninterrupted, efficient service.

ANNA V. SMITH, Postmaster.

AN ORDINANCE prescribing the duty of all pedestrians and operators of vehicles when fire alarms or sirens of fire trucks, ambulances and police cars have sounded, and prescribing a penalty.

BE IT ORDAINED by the City Council of the City of College Station, Texas: That when a fire alarm has been sounded, any person operating a vehicle upon the streets shall immediately bring such vehicle to the right hand side of the street, and proceed slowly; or if walking upon the streets shall immediately proceed to the sidewalk.

Section 2. Upon the warning of the approach of a fire truck, ambulance or police car, any person who is walking upon a street shall immediately proceed to the sidewalk, and any person who is operating any vehicle of transportation shall immediately drive same to the right hand curb and park in front of fire truck, ambulance, or police car has passed.

Section 3. The fire marshal is hereby authorized to establish fire lines during any fire, and exclude all persons other than those authorized to assist in extinguishing the fire or the owners or occupants of the burning property from within such lines.

Section 4. No person except as provided in Section 3 above shall cross a fire line established by the fire marshal.

Section 5. Violation of each section of this ordinance shall constitute a separate offense and be punishable by a fine not less than five (\$5) dollars nor more than fifty (\$50) dollars.

AN ORDINANCE REGULATING THE CONSTRUCTION AND MAINTENANCE OF SEPTIC TANKS

Be it ordained by the City Council of the City of College Station, Texas: Section 1. All buildings having plumbing systems that discharge into the city sewers shall be served by septic tanks, provided that in certain areas where complete sewage treatment is given at the sewage treatment plant, individual septic tanks will not be required.

Section 2. Said septic tanks shall have capacities and dimensions as follows:

Persons	Capacity Inside Dns., ft.
Served Gallons Length Width Depth	
6 or less	540 6 3 5
7 to 10	630 7 3 5
11 to 14	720 8 3 5
15 to 20	1100 9 4 5
21 to 24	1200 10 4 5

Section 3. Tanks shall be constructed of concrete and shall be baffled by use of cast-iron tees for entrance and outlet pipes. Of the designated depth of one foot shall be freboard above the water line. The tank shall have a cover arranged in sections for easy removal and cleaning of the tank.

Section 4. Each lot or premises having a sewer connection must have a septic tank except as herein otherwise provided, but it is permissible to serve two or more buildings located upon the same lot with one septic tank.

Section 5. Plans for septic tanks must be approved by the health officer or his representative before a building permit will be issued by the City Engineer and the tank, after construction, must be inspected and approved by the health officer or his representative before connection is made between the plumbing system of the building or buildings it serves and the city sewers.

Section 6. Tanks that serve buildings housing more than three than listed in Section 2 or business or manufacturing buildings or other buildings not residences, shall have capacities as required by the health officer or his representative.

Section 7. All septic tanks which discharge sewage into the sewers of College Station shall be cleaned of all sludge and scum at intervals of not less than two years. Such sludge and scum shall be disposed of in such manner that it will not constitute a nuisance or a menace to health.

Section 8. Violation of Section 7 of this ordinance shall be punishable by a fine not to exceed twenty five (\$25) dollars. Passed and approved this 25 day of April, A. D.

Organizations

NEWCOMERS CLUB
 The Newcomers will hold a grand finale picnic at Hensel Park Wednesday, May 22, at 8:30 p. m. Guests will include the families of the Newcomers Club. Please make reservations with Mrs. George Warner, 638, College 694, by Monday, May 20. Tickets may be purchased from Mrs. Kelshaw Bonham, Mrs. George Warner, or at the picnic ground.

A. S. C. E.
 The student chapter of the A.S.C.E. will meet tonight at 7:00 in the C. E. lecture room. Reports from the conventions will be heard. All civil engineers are cordially invited to attend.

KREAM AND KOW CLUB
 The Kream and Kow Klub will hold a called meeting Tuesday afternoon at 7:15 in the College Creamery. Professor C. N. Shephardson, head of the Dairy Husbandry Department, will address the club. Plans for the annual picnic will be discussed. All members are urged to be present.

EX 4-H CLUB
 The Ex 4-H Club Members Association will meet Thursday evening at 7:15 in room 132, Animal Industries Building, to elect officers for next year.

PINEY WOODS CLUB
 There will be an important meeting of the Piney Woods Club Tuesday night, May 21, at 7:00 p. m. in room 118, dormitory 5, for the purpose of electing club officers for next year. All members are urged to be present.

Classified

FOR RENT—Nicely furnished garage apartment, hot-water heater, electric ice box, built-in kitchen cabinet; reasonably priced; on paved street; available June 3; 1011 East 25th Street. Phone 806-J, Bryan.

LOST—Silver Summer Press Club key, bearing name and identification on back. Finder please return to Bill Murray at 296 hall 11 for liberal reward.

LOST—A wallet containing several dollars and valuable papers. If found, please return to Rose H. Corlett, at 307 hall 1, for liberal reward.

LOST—Will the Aggies who found a green Val-O-Pak suitcase on the highway in Waco, Sunday, May 5, please notify room 116, dormitory 11.

FOR SALE—Very cheap. Pair of Lucchese boots, size 9 1/2-10, good condition; Junior blouse, size 38; ice-cream breeches; Same Browne and shoulder strap; Stetson hat, size 7 1/2; and cap. See Akard, 201 hall 5, or Schrank, 303 hall 5.

FOR SALE—Two serge shirts, sizes 14 1/2-16, 14 1/2-16, \$5.00 each, two No 1 caps, size 6 & 7-8; two Sam Browne belts with shoulder straps, frogs and chains; one blouse, size 35. See Arch Greig, room 51, Leggett Hall.

Farm Land

(Continued from page 1)

Agricultural Education on "For What Purpose Shall We Use The Land: For People or For Investment?" The remainder of the afternoon program dealt with pasture plants and pasture work in Texas under the leadership of Professor R. C. Potts of the Department of Agronomy and George Warner of the Texas Agricultural Experiment Station.

The annual meeting of the Texas Farm Land Association was held in connection with a banquet at the Aggeland Inn at 6:30 Friday evening. In addition to their regular annual business session, the group heard an address by J. E. McDonald, Chairman of the State Department of Agriculture, Austin, Texas.

The Saturday morning program dealt with problems in Soil Conservation under the leadership of Paul H. Walsler, State Coordinator of the Soil Conservation Service and F. M. Shaw of the Soil Conservation Camp at Madisonville, Texas; "What's New in Crop Improvement" by Dr. P. C. Mangelsdorf, vice-director of the Texas Agricultural Experiment Station, and the "Relation of the Agricultural Adjustment Administration Program to the Business of Farm Management and Farm Loans" presented by Lester Young of the A.A.A. office at College Station, Texas.

Movie Review

(Continued from page 2)

to glamour girl. It's enough to make an Aggie wonder what any girl really looks like beneath the paint and paste and powder. Cooper has more excuses for all his troubles than any kid his age ought to know. Perhaps we could use some of them ourselves.

Tuesday's bargain show at the Campus is "TIME OUT FOR MURDER." Michael Whalen plays a roving reporter who solves a sensational crime. Gloria Stewart has the feminine lead. There is some pretty fast action in this show; it is about an average class B show.

For general movie news, the fact that Shirley Temple is quitting the screen voluntarily is pretty big stuff. By mutual consent between her and the studio, her contract was ended for a rumored \$300,000. She is entering the 'awkward age' and will no doubt try to make a comeback in five or six years; she is now eleven. This is a wise policy, not trying to play her waning popularity to the last nickel, and ought to give her a better chance for a comeback without changing her name and starting all over.

tion, including what was at that time the new science of radio. In 1922 Dr. Bolton became dean of the School of Engineering, and in 1932 he was made dean of the college. He then relinquished his duties as head of the Department of Electrical Engineering but retained the title of professor in the department. In 1937 he gave up the position of dean of engineering to become vice-president of the college.

Almost from the time he entered the field of engineering education, Dr. Bolton has been a member of various committees and societies pertaining to his work. He has held important offices in many organizations.

Dr. and Mrs. Bolton, the latter of whom was Miss Laura Morgan of Pototoc, have three children and two grandchildren.

time. Mrs. A. M. Waldrop Jr. will present the colors Wednesday.

At the same time the National Standard, which is being replaced by Captain Lloyd R. Garrison, who was a Field Artillery Instructor at A. & M. last year and is at present a student at the Army Industrial College at Washington, D. C., will be presented. The original standard was presented by Col. Louis R. Dougherty in 1921. Colonel Dougherty was at that time the Senior Field Artillery instructor at A. & M. and is now commanding the twenty-fourth Field Artillery at Camp Stotsenberg, Philippine Islands. A plaque will be attached on the staff alongside the original one which was placed there in honor of Colonel Dougherty. This trophy is not won by competition, but accompanies the Waldrop Trophy.

comeback in five or six years; she is now eleven. This is a wise policy, not trying to play her waning popularity to the last nickel, and ought to give her a better chance for a comeback without changing her name and starting all over.

661 Seniors

(Continued from page 1)

The School of Agriculture will have the largest number of graduates, according to statistics from the Registrar's Office, there being a total of 305 who will finish in that school. These are divided into five departments, Agricultural Administration with 105, Agricultural Education with 49, Agricultural Engineering with 12, Agriculture with 135 and Landscape Art with 4.

The School of Engineering will have a total of 260 grads, their degrees being as follows: Bachelor of Architecture, 10; Bachelor of Petroleum Engineering, 4; Bachelor of Science in Chemical Engineering 26, in Architectural Engineering 1, in Civil Engineering 25, in Electrical Engineering 40, in Engineering Administration 18, in Geological Engineering 2, in Industrial Engineering 9, in Mechanical Engineering 66, in Petroleum Engineering 59.

The School of Arts and Sciences will confer 53 degrees in all, 26 of these being Bachelor of Arts in Liberal Arts, and the others being Bachelor of Science, 7 in Economics, 2 in Education, 4 in Physical Education and 14 in Science.

The School of Veterinary Medicine will grant 38 degrees of Doctor of Veterinary Medicine. Five degrees will be given in the two-year course in Cotton Marketing and Cladding.

The first degree of Ph.D. ever granted by A. & M. will be conferred upon Dorris David Giles, assistant dean of the Stephen F. Austin State Teachers College at Nacogdoches.

A Professional Degree in Agricultural Engineering will be awarded Harris Pearson Smith of Bryan, 41 other degrees of Master of Science will be given, bringing the total of the degrees to be awarded by the Graduate School to 43.

Dean Gibb Gilchrist Has Held Many High Positions in Engineering Fields And Awards for Services in World War

The life of Gibb Gilchrist, dean of engineering at A. & M. College, has been filled with many pleasant positions and honors. Like many of the other Aggie officials, Dean Gilchrist has seen service in the United States Army.

Dean Gilchrist is a Texan. He was born at Wills Point, December 23, 1887, the son of Angus and Catherine Douglass Gilchrist. He was graduated from the Wills Point high school in 1905, and from the University of Texas with a bachelor of science degree in civil engineering in 1909.

Soon after graduation, in 1910, he took a position with the engineering department of the Santa Fe Railroad, which position he held through 1917. He was with the United States Army from 1918 to 1919, being discharged as captain, Engineers.

From 1919 to 1923 he was resident and division engineer with the State Highway Department and State Highway Engineer of Texas during 1924. During the years 1925, 1926, and 1927 he had a consulting practice in Dallas. The next year he returned to Austin as State Highway Engineer of Texas, which he held until 1937.

Dean Gilchrist was president of the American Association of State Highway Officials from 1935-36. He has been consulting highway specialist, U. S. Bureau of Public Roads, since 1937. He is also a member of the American Society of Civil Engineers. In June, 1939, Austin College conferred upon him the honorary degree of doctor of science.

In 1920 Dean Gilchrist was married to Miss Vesta Weaver. They have one child, Henry, who is 14 years old. Dean Gilchrist is a Mason and a Methodist.

SADDLE-SIRLOIN STAGES ANNUAL BARBECUE PICNIC

250 students, profs and members of the administrative and Extension Service staffs of the college were present at the annual barbecue picnic given by the junior members of the Saddle and Sirloin Club Friday afternoon near Seatos Lake. Before the barbecue, senior Animal Husbandry students defeated the professors of the department in a softball game, breaking a string of two consecutive victories for the profs in previous years.

Following the supper, awards were made to winners of the Freshman Livestock Judging Contest and to winners in the Little Southwestern Livestock Show held for the first time this year. Those receiving medals for the judging contest were H. N. Mogford, W. O. Fillingham, J. B. Miller, K. D. Gawin, B. D. Rice, J. T. Cate and E. B. Mayer. Awards made to the best fitters and showmen in the Little Southwestern went to E. T. Rafferty, Gordon Grote, R. R. Galloway and J. H. Holt.

If all the 487,000,000 inhabitants of the former Chinese Empire were to march, four abreast, past a given point, they would never finish passing, though they marched forever and ever. (This is based on U. S. Army marching regulations. Chinese births so exceed deaths, at this ordinary marching rate, that the number would never end.)

FEELING DOWN and OUT?

It's about this time of year when you Aggies begin to feel the effects of many weeks of hard and long hours of study. When you get that spring feeling then come down and join the crowd. We protect your health by sterilizing our glasses with the Hydro-Therm Process - the only one in this county.

HRDLICKA'S CAFE
 "On the Old College Road"

312 Degrees To Be Granted by Baylor

Three hundred and twelve students have been listed tentatively by Registrar Frank M. Allen as candidates for degrees from Baylor University at the June 3 graduation exercises.

They come from 15 states, the territory of Hawaii, China and Russia. There are five candidates for the master of arts degree, 26 for the bachelor of laws, 211 bachelor of arts, 58 bachelor of business administration and 12 bachelor of music.

Five foreign students, interested in as many different fields, will receive sheepskins along with 307 American students.

The five, two girls and three boys, plan to enter the fields of medicine, religion, zoology, law, and journalism, and four will ultimately return to their native lands.

Tonya Korotune, of Vladivostok, Russia, who came to America via Japan for her education, will remain in this country a few more years to attend a seminary, preparing for missionary activity somewhere in her native hemisphere.

Takashi Kitaoti, of Honolulu, Hawaii, is returning to his island home to hang out a law shingle. When Kitaoti first came to Baylor, he told the boys to call him "Kitty" as he didn't want to waste time spelling his name for them.

Bryan Glass, of Shantung, China, the son of Baptist missionaries, plans to remain in this country for scientific research in zoology.

Wilson and Golda Jean Fielder, brother and sister, are children of missionary parents at Chengchow, China. Wilson, a journalist, is now employed by the Waco News Tribune and Times Herald but hopes to return to the Orient as a foreign correspondent before many years. Golda Jean has finished a pre-med course and plans to enter medical school next year in preparation for possible medical mission work.

Trotter Appointed Representative On Chemurgic Council

Owing to this country's impending shortage of fats and oils caused by the European war, the National Farm Chemurgic Council has appointed Dr. I. P. Trotter, Head of the Agronomy Department here as one of its representatives to make test plantings of oil seed bearing crops, according to Wheeler McMillen, president of the Council.

These test plantings include chia seed from Mexico, castor beans from India, Java, Brazil and a new non-popping variety, perilla seed from Japan, and pyrethrum from Yugoslavia. The United States has been importing in large quantities the products secured from these plants, and their successful cultivation in this country is expected to result in additional income for agriculture and employment for our idle acres.

Dr. Dwight Andres To Begin Practice Here

Dr. Dwight Andres will begin practice at College Station about June 1, it was revealed yesterday by friends here on the campus. A graduate of Baylor and Arkansas universities, he is now completing his internship at the Shreveport Charity Hospital.

His offices will be located in the new Burgess-Casey Building recently constructed near the project house area. Dr. Andres will be accompanied by his wife who is also a Baylor graduate.

Oliver Cromwell was hanged three years after he was dead.
