

What the '41 Aggie Will Wear

Shown above is the uniform that has been recommended by the senior class and approved by the faculty. The new uniform with cotton bombay slacks will be worn for drill during the warmer months of the school year. No consideration was given to the change to khaki ties, but it is thought that such could be possible if the senior class so desired. Modeling the uniform is Roy W. Gillette, a senior student of H Battery Coast Artillery. His home town is Columbus, Texas.

Cotton Bombay Slacks Added As Drill Uniform By Senior-Class Decision

Dean Bolton has announced that in compliance with a decision of the Senior Class cotton bombay slacks will be worn next year as a part of the No. 2 uniform.

According to orders from the office of the Commandant, it will be compulsory for the student to wear the new slacks only during the regular weekly drill period. How-

Increase Received In N. Y. A. Allotment

About 900 Students Will Get Employment

The appropriation of \$71,995 for use in employing student labor at A. & M. has been made by officials of the National Youth Administration—an increase of 2½ per cent over the appropriation of last year which means more than 900 students may receive employment during the coming session of school.

According to O. R. Simpson, this yearly allotment is appropriated in monthly sums of \$7,995, and that according to formula the percentage should have been increased by 5 per cent except for the sharp increase in enrollment last year. Schools not experiencing such an increase in enrollment suffered a decrease in funds. However, Mr. Simpson says, "We are in better shape than ever before."

One marked difference in procedure has been noted that where heretofore students were required to sign an affidavit declaring their citizenship, students of next year and Mr. Simpson, himself, will find it also necessary to take an oath of allegiance.

ever, cotton slacks will be made regulation to wear with No. 2 uniform while attending classes and at all other times that the student desires to wear them. The new uniform regulation order will become effective at the beginning of next term and will continue until cooler weather necessitates a change. At that time cotton slacks will be replaced by the regular wool uniform slacks until next spring.

The new regulation slacks will be tailored in two styles. One pattern will be cut according to the regular army style with a regular back and with narrow belt straps. The other pattern will be styled similar to the regular tailor-made slacks as worn here on the campus. This cut will consist of a high-built back with cut-in pockets. All seniors and juniors will wear cuffs while sophomore and freshmen will wear the same slacks without cuffs.

Listed prices on the cotton slacks range from \$2.50 to \$5.00.

Pro Team Contracts Aggie Star

Four years ago there came to A. & M. a boy who many thought might turn out to be just another football player.

During his freshman year he carried much of the load in the 'fish' backfield.

He could pass and punt and therefore, played the role of the great Sammy Baugh in practice sessions before the T. C. U. game. Often times when he reported to practice he asked for jersey No. 45. When asked why, he replied, "Because it was Sammy Baugh's number." He got the jersey.

Grid reporters throughout the conference said he was a good player and let it go at that. Many didn't even go as far.

The Aggies would go places if he didn't turn out to be just a practice field passer they said.

In '37 the Aggies were spilled and downed, first here and then there, but No. 45 played his game as well as anyone could expect.

The next year Davy O'Brien took over the post left by Sammy Baugh and led the Hornfrogs to a conference championship and into the Sugar Bowl. Still the "just another" played his game.

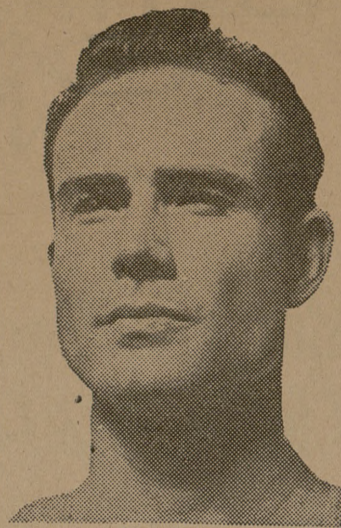

During spring practice of '39 it was foreseen that he would have to carry still a bigger load the next year. And so it was planned, No. 45 was not only to do the passing but also the signal calling throughout the next year.

Then just before the season opened, the news rocked Aggieland that he had been injured in an explosion and would probably be out the remainder of the season.

When practice started, there was No. 45.

Into the Sugar Bowl to tangle with the Green Wave from Tulane went the Aggies and No. 45

To Coach at Ennis

Smith

Jude Smith Gets Position as Coach Of Ennis High Team

Jude Smith, stellar Aggie athlete who took his degree in June of 1940, has accepted the position of Assistant football coach and head basketball mentor at Ennis high school. Smith came to A. & M. from Tarleton Junior College where he was an outstanding performer

was on the injured list.

Game time came and there he was on the field with tape from toe to hip. This might hold him up. Before the half he went down and it was uncertain as to whether he would be able to carry on.

Up he came to pass the Green Wave to death as No. 39 drew them in with his hard plunging. With the game going the wrong way in the last half it seemed bad and yet the passing continued. Then the Aggies scored and the score stood 13, all. Back went No. 45 to try for the conversion. Good? Needless to say for the story of the game has been told from one end of the earth to the other.

But with such a place kick and with such passing and the show of field generalship, No. 45, "Cotton" Price had completed his last game wearing the Maroon and White.

Last month he signed a contract with the Detroit Lions to play a year of professional football. And so "just another" Aggie goes down on the list as those to be long remembered.

for the Plowboys of Stephenville. "most valuable player" award in While at Tarleton, he set a Junior college record for the javelin throw with a toss of 200 feet and was a regular forward on the great basketball team which won seventy-eight consecutive games.

Jude entered A. & M. in the fall of 1938. As a junior college transfer, he was eligible for all major sports. It was in his first year at Aggieland that he won the coveted

basketball and also lettered in track during his senior year and a vital cog on a fighting Aggie cage squad. He became the first athlete in the history of A. & M. to win the "most valuable player" awards in two different sports.

Joe Mitchell, the former coach at Ennis is resigning his post to take a position with the Southern Pacific Railroad.
