the City of College Station, Texas: SECTION 1. The office of Electrical Inspector in and for the City of College Station, is hereby created and said office shall be filled by appointment by the Mayor, by and with the consent of the Council within sixty days after the passage and publication of this ordinance, and said Electrical Inspector shall hold office during good behavior and shall not be removed except for cause properly to be during his duties as prescribed in this ordinance or any ordinance or part of the ordinance regulating electric wires or apparatus now in force or which may be adopted. Said Electrical Inspector shall be a person well versed in the rules and requirements of the National Electric Code. Before assuming authority conferred by this ordinance the Electrical Inspector shall take an oath usually administered to other city officials, and shall give bond to the City of College Station in the penal sum of One Thousand Dollars (\$1,000.00) conditioned upon the faithful performance of his duties.

SECTION 2. Every corporation, co-partnership, association or individual owning or operating a line of wires over streets, alleys or buildings in this city, shall use only wires that are suitable and strong, shall suitably and safely attach them to strong and sufficient supports and insulate them at all points of attachment; shall remove all wires abandoned for use; shall suitably insulate every wire where it enters a building, and, if such wire is other than a wire designated to carry an electric light or power current, shall attach it to suitable and convenient points in the circuit calculated to prevent danger from fire and near the place of entering the building, an appliance calculated to prevent the escape of fire, and, in the event of such intensity of current as to be capable of injuring electrical instruments or causing fire from entering the building by means of such wire beyond the point at which such appliance is attached.

SECTION 3. No corporation, no co-partnership, association or individual shall engage in the business of installing electric wiring and apparatus within any building in the City of College Station for use in connection with electric light or power unless he shall have a "Master Electrician's License" to engage in such a business, said license to be issued in the following manner: An examining board shall be appointed by the Mayor to consist of the board favors granting a license to the applicant. The examining board shall receive applications for licenses and examine the applicants in such manner as it may see fit. If a majority of the board favors granting a license the chairman shall so certify to the city secretary who shall then, after payment of the fees specified in Section 4, issue a license to the applicant.

SECTION 4. No "Master Electrician's License" shall be issued except upon payment of a fee of Fifteen Dollars (\$15.00) to the City Secretary, together with the filing of a bond of Five Hundred Dollars (\$500.00) conditioned upon compliance with the ordinance of the city regulating electric wiring and apparatus and the faithful performance of all contracts entered into for the installation of electric wiring and apparatus inside any building for use in connection with electric light, heat or power. The license shall be renewed each year after date of issue upon payment of Five Dollars (\$5.00).

SECTION 5. Any failure on the part of the holder of a "Master Electrician's License" to comply with the provisions of any ordinance of the City regulating electric wiring and apparatus or to faithfully carry out the conditions of a contract for installing electric wiring and apparatus shall be deemed sufficient cause for revoking said "Master Electrician's License" together with the rights and privileges thereunder and the forfeiture of the bond filed pursuant to the requirements of Section 4 of this ordinance.

The City Secretary is hereby authorized to refuse to issue a "Master Electrician's License" to any previous holder or one which has been revoked or to any corporation, co-partnership, association or individual with which said holder is associated.

SECTION 6. The amount realized upon the forfeiture of any bond over and above the expense involved in its forfeiture shall be expended in making the necessary changes in the electric wiring and apparatus found to be contrary to the provisions of this ordinance or deficient in quality or other particulars as specified in the contract or contracts entered into and covered by the bond, and the unused balance, if any, shall be paid into the City Treasury.

SECTION 7. All wiring for electric light or power hereafter installed in churches, theatres, other places used for public gatherings, and all buildings within the fire limits in the city of College Station shall be installed in suitable approved metallic conduits, and all such wires hereafter installed in unfinished basements in all buildings other than dwellings designed for the occupancy of not more than three families, shall be likewise placed in similar conduits.

SECTION 8. It shall be the duty of the Electrical inspector to enforce the

Chemurgic Show Scenes of Texas Fairs

1. Chemurgic Director Elmore Torn points to Hall of Chemurgic at State Fair of Texas housing largest Chemurgic Show presented anywhere. 2. An attraction drawing large crowds is being presented to Texas audiences by Dallas Fair, Fall Fair of Houston, and South Texas Fair of Beaumont in cooperation with East Texas Chamber of Commerce. 3. Farm Chemurgic uses of sulphur are exhibited by Freeport Sulphur Company. Mural shown top background was drawn by art students of North Texas State Teachers College for use in connection with the College's sweet potato dehydration display. 4. Castor plant research featured by Trinity Valley Farm Chemurgic Institute, Melvin Handley, president. 5. View of cotton uses section of show, most prominent feature, and emphasized by Texas Cotton Seed Crushers Assn., Texas A. & M. College, Texas University, Texas Tech, U. S. Dept. of Agriculture, National Cotton Council, and others. 6. Outstanding in educational value is Texas Forest Service exhibit. 7. Intriguing sweet potato dehydration press of Gilbert C. Wilson, farm industrial chemist of N. T. S. T. C., is on display. Yes, these, and many more, are at Chemurgic Shows at Dallas, Houston, and Beaumont.

provisions of this ordinance or any ordinance or ordinances now in force or which may hereafter be adopted concerning electric wiring or apparatus.

SECTION 9. No wire or wires shall be installed, operated or maintained over any street, alley, sidewalk, or building in this city which shall be liable to seriously interfere with the work of the Fire Department in the use of ladders or other apparatus, or which shall obstruct or render hazardous the use of fire escapes, and no complaint by the Fire Department of obstruction interfering or hazardous wires shall be removed or properly rearranged.

SECTION 10. Whenever possible and expedient signals wires shall not be carried on the same pole with or in dangerous proximity to high potential electric light or power wires and where a joint company pole line composed of these two classes of systems is necessary, or where the routine traversed by these systems cross each other, the high potential electric light or power wires shall be placed and maintained not less than four feet above every signal wire, and where it is impossible to provide for such a separation it shall be the duty of the Electrical Inspector to arrange and enforce an equitable and safe alternative plan.

SECTION 11. The said Electrical Inspector shall make a thorough inspection of all electric wires and apparatus within the City of College Station at least once in each year, and where wires or apparatus are in dangerous or unsafe condition, or are deemed to be an interference with the work of the Fire Department, he shall notify the person, firm or company owning, using or operating them to place them in a safe, secure and non-interfering condition. Any corporation, co-partnership, association or individual or agent thereof failing, neglecting, or refusing within reasonable time to take the necessary repairs or changes, and have the necessary work completed within a reasonable time after the receipt of said notice, shall be deemed guilty of violation of this ordinance and every day which shall elapse after the expiration of said reasonable time until said wires and apparatus are repaired, removed or changed as required by said Electrical Inspector, shall be considered a separate offense within the intent and meaning of this ordinance.

SECTION 12. The Electrical Inspector by and with the consent of the Mayor and City Council shall have power to deputize one or more assistants, and each one of said assistants shall in every case be known to be competent to discharge the duties of Electrical Inspector and the rights and privileges conferred upon the Electrical Inspector are hereby conferred upon each assistant to whom the Electrical Inspector when properly appointed.

SECTION 13. The said Electrical Inspector or competent assistant appointed by him shall have the right during reasonable hours to enter any building, man-hole or subway in the discharge of his official duties, and he shall have power to make any test of the electrical apparatus or appliances therein contained, and for that purpose he shall be given prompt access to all buildings, private or public, and to all manholes and subways on application to the company or individual owning or in charge or control of same.

SECTION 14. The words or terms "Electric Wiring and Apparatus" as used in this ordinance shall be construed to include all devices, machinery, appliances, appurtenances or conductors used in connection with the production of electric lights, heat or power or the transmission of electric signals, except where specifically limited to one or more of them and then only as specifically limited.

SECTION 15. The Electrical Inspector shall decide all questions not provided for in this ordinance pertaining to the installation, operation or maintenance of electrical wiring and apparatus.

SECTION 16. All electric signs shall be erected under the supervision of the Electrical Inspector.

SECTION 17. No corporation, co-partnership, association or individual or agent thereof shall hereafter connect or cause to be concealed any electric wiring or apparatus mentioned in this ordinance except with the express permission of the Electrical Inspector and he is hereby authorized and directed to remove any flooring, lathing or plaster, sheet metal or other

material which may conceal any electric wiring or apparatus contrary to the provisions of this ordinance.

On completion of the inspection of any electric wiring or apparatus designed to be concealed and found to be in full compliance with the provisions of this ordinance, it shall be the duty of the Electrical Inspector to post a notice to that effect at the main cutout center, and said notice shall be considered as an express permission to conceal said electric wiring and apparatus, but no concealment shall take place until such notice has been posted by the Electrical Inspector.

SECTION 18. The chief Engineer of the Fire Department or said Electrical Inspector, or a competent person delegated by them or either of them shall have the power to at once cause the removal of all wires, or the turning off of all electric current where the circuits interfere with the work of the Fire Department during the progress of a fire. The said Electrical Inspector is hereby authorized and empowered to cause the turning off of electric current from all conductors or apparatus which are deemed by him to be in an unsafe condition or which have not been installed in conformity with the provisions of this ordinance and from which the said wires or apparatus are causing the electric current to be turned off.

SECTION 19. No alteration or change shall be made in the electric wiring or apparatus located within a building for use in connection with the production of electric light, or power, nor shall any such alteration or change be made in any building without first securing from the said Electrical Inspector a permit therefor, nor shall any change be made in any wiring or apparatus after the permit without notifying the said Electrical Inspector and securing a permit therefor.

SECTION 20. Before issuing a permit for the installation of any wiring or apparatus or the alteration or change of any wiring or apparatus as provided in Section 19, an application shall be filed with the Electrical Inspector describing with plans and sketches such installation or the alteration or changes to be made, including the apparatus and material used. No deviation shall be made in the details for wiring or apparatus as shown in the application without permission from the Electrical Inspector in writing. In panels or electrical installations the person, firm, or corporation, doing the work shall be held responsible for the safety of the installation of electric wires and apparatus in any building for use in connection with electric light, heat or power.

SECTION 21. Upon the completion of the installation of electric wires and apparatus in any building for use in connection with electric light, heat or power, the Electrical Inspector or competent assistant designated by him shall inspect the same, and if approved by him shall issue a certificate of satisfactory inspection which shall contain the date of inspection and outline of the results of such examination, but no certificate shall be issued unless all apparatus until a certificate of satisfactory inspection is issued. All electrical construction, all material and all apparatus used in connection with electric work, and the operation of all electrical apparatus, shall be in accordance with the rules and regulations set down in what is known as the "National Electrical Code", a copy of which is on file in the office of the City Secretary of the City of College Station. Provided also that no rooming, steel tubes or box cables shall be used.

SECTION 22. Any corporation, co-partnership, association or individual or agent thereof desiring to place any pipe, sheet metal or other material within six inches of any electric wire or wires installed for use in connection with electric light, heat or power shall, before proceeding with the execution of the work, obtain from the Electrical Inspector a permit therefor, and in completion of said work and said corporation, co-partnership, association or individual or agent thereof shall notify said Electrical Inspector who shall inspect the same and cause all wires to be placed in a safe and secure condition. Provided that nothing in this section shall be construed to refer to wires installed in approved iron conduit or armored cable.

Flying Club Organized For Would-Be Birdmen

The A. & M. Flying Club was organized at a meeting held last Monday night. The club was formed for the purpose of making available flying time at a very reasonable rate to those who are interested in flying. The membership will be limited to 20, and anyone is eligible since no experience is required; although many of the members thus far are C. A. A. graduates. An instructor will be available for those who have not had any flying time.

The club is under the direction of its organizers, A. M. Nelson, an

instructor in the M. E. Dept.; Bob Trimble, mechanic at the College Airport; and L. C. Ritchey, a student. Any one interested should see A. M. Nelson at the Mechanical Engineering Building, office 209, as soon as possible. A 50 horse power Lycoming powered Taylorcraft will be made available to the members of the club at a reduced price.
